Mission and Community Needs (Questions 1-3)

Your responses to questions in the Mission and Community Needs section are intended to help the CDFI Fund better understand your Community Development Financial Institution (CDFI), the extent of economic distress of the communities and populations you serve, and types of interventions needed to improve the level of economic distress in the communities you serve.

- 3.** Provide quantitative data about the types of interventions needed to address and improve the levels of economic distress of the communities your CDFI serves, using the information in the Narrative Question 2, Beneficiary Snapshot, and supplemental statistical data.
- **Narrative Response:** 3,250 character limit
 - **AMIS data entry responses:** Narrative only

Business Strategy (4-8)

The responses to the narrative questions in the Business Strategy section will help the CDFI Fund assess whether the Applicant’s comprehensive business plan is sound and achievable. Your responses to the following questions are also intended to help the CDFI Fund better understand how your CDFI will use a Base-FA award to accomplish your selected FA Objective and your CDFI’s strategic goals.

- 4.** Broadly, how will your CDFI use a Base-FA award to achieve the selected Financial Assistance (FA) Objective?
- **Narrative Response:** 3,250 character limit
 - **AMIS data entry responses:** Narrative and data fields below as appropriate

Applicants will select one of the following table in AMIS:

Table 6: Financial Assistance Objectives	
Financial Assistance (FA) Objectives (Select one)	
NOTE: These tables will be evaluated as part of the Business Plan Review. As such, Applicants are encouraged to select those eligible uses that they intend to pursue and those that are clearly related to their strategic plans.	
FA Objective 1-1: Increase Volume of Financial Products	Please Select
FA Objective 1-2: Increase Volume of Financial Services	Please Select
FA Objective 1-3: New Geographic Area(s)	Please Select
FA Objective 1-4: New Financial Product(s)	Please Select
FA Objective 1-7: Serve New Targeted Population(s)	Please Select

FA Objectives will be evaluated as part of the Business Plan Review and the Policy Objective Review for FA Applicants. If your CDFI receives an Award, the FA Objective you select will be

included in your CDFI's Assistance Agreement as specific Performance Goals and Measures (PG&Ms). Your CDFI will be expected to report on progress against specific goals for the FA Objective selected, based on information provided in this Application.

There are five (5) FA Objectives that result in a total of five (5) potential Performance Goals and Measures for the FA Objectives.

4a) If you selected FA Objective 1-1: Increase Volume of Financial Products or FAO 1-2: Increase Volume of Financial Services, you must provide a response to this narrative question: Discuss the planned increase.

- **Narrative Response:** 6,000 character limit
- **AMIS data entry responses:** Narrative only. Tables below auto-populated.

Applicants that select FA Objective 1-1: Increase Volume of Financial Products will be expected to increase their dollar volume of Financial Products closed in their approved Target Markets and/or Eligible Markets (i.e., FA-eligible markets). To meet the intent of this FA Objective, Applicants must demonstrate that the total projected Financial Products closed in FA-eligible markets over the three-year Period of Performance is higher than the total dollar amount of Financial Products closed in FA-eligible markets in the Applicant's three most recent historic fiscal years plus the amount of the Base-FA Award.

The Applicant's total projected Financial Products closed over the three-year Period of Performance become the PG&Ms for this FAO. Applicants that have active Base-FA awards with FAO 1-1 PG&Ms must exceed floors for overlapping years.

FAO 1-1 PG&Ms will be prorated based on the percentage of the Award Request versus the Amount actually received.

Please see the example below:

Example: In its past three historic fiscal years, the Applicant closed \$10 million in Financial Products in FA-eligible markets and projects to close \$15 million over the next three fiscal years in FA-eligible markets. The Applicant requested a \$1 million FA award, but it only received \$500,000 (or 50%) of its Award Request Amount. Thus, the final PG&M will be prorated by 50%. In this example, the PG&M will be 50% of the \$15 million in proposed activity, or \$7.5 million. Further, the Year 3 benchmark is set at 90% of the final PG&M. In this example the Year 3 PG&M a Recipient would be required to achieve is \$6.75 million.

4a) Optional Questions: Anomalies in Historic Activity Due to Emergency Funding

Applicants whose projections do not exceed historic lending due to anomalous activity directly tied to one-time funding related to emergency response (including natural disaster response and response to the COVID-19 public health emergency) can select FAO 1-1, but must provide the dollar amount of historic activity that is related to the one-time emergency funding and detailed justification.

- i. Please enter the dollar amount of your On-Balance Sheet Historic Total Financial Products Closed in an Eligible Market/Target Market that represents activity directly tied to one-time emergency response funding.

- **AMIS Data Entry Response:** Dollar amount data field
- ii. If the calculated “Increase in Volume” is a negative number due to one-time emergency response funding, but you believe that your CDFI can justify that it meets the intent of this FA Objective absent the anomalous activity, then provide a written justification here. The justification should directly reference the amount entered in the question above. Please note that the CDFI Fund will analyze the justification to ensure it complies with internal policies and reserves the right to find the Applicant ineligible for this FA Objective, which would impact the award recommendation.
- **Narrative Response:** 1,000 character limit
 - **AMIS data entry responses:** Narrative only. Tables below auto-populated.
