How Do I Submit to EIS Using the Web Client?

Burden Statement

This collection of information is approved by OMB under the Paperwork Reduction Act, 44 U.S.C. 3501 et seq. (OMB Control No. 2060-0580). Responses to this collection of information are mandatory (40 CFR § 51.15) and include voluntary aspects for reporting (40 CFR § 51.15 paragraphs (a)(2)-(4) and (b)(4)). An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The public reporting and recordkeeping burden for this collection of information is estimated to be 609 hours per response on average, with lower burden on non-triennial inventory years and higher burden on triennial years. Send comments on the Agency's need for this information, the accuracy of the provided burden estimates and any suggested methods for minimizing respondent burden to the Regulatory Support Division Director, U.S. Environmental Protection Agency (2821T), 1200 Pennsylvania Ave., NW, Washington, D.C. 20460. Include the OMB control number in any correspondence. Do not send the completed form to this address.

How Do I Submit to EIS Using the Web Client?

Introduction

The Emissions Inventory System (EIS) receives and stores emissions inventory data and generates emission inventories. Data are submitted to the EIS using the Consolidated Emission Reporting Schema (CERS). State, Local, and Tribal Agencies can submit emissions inventory data to EIS using any one of the following mechanisms:

1. **Full Node.** Exchange Network Node that allows machine-to-machine transactions.
2. **Node Client.** Software that can be downloaded and installed on your desktop.
3. **Web Client.** A web-based submission method that does not require installing node software.

This section of the EIS User Manual focuses on submitting data using the Web Client.

The **Exchange Network Services Center** (ENSC) is a web-based tool (<https://enservices.epa.gov/login.aspx>) designed to allow Exchange Network users the ability to easily send, get, and download information from other partners on the Exchange Network.

The Exchange Network Services Center utilizes three methods for the exchange of environmental information:

- **Send Info:** Submit documents or information to another system on the Exchange Network.
- **Get Info:** Retrieve information from another system on the Exchange Network. This information is retrieved immediately through query services or requested and then downloaded through solicit services.
- **Download:** Download a document from another system on the Exchange Network with a transaction or document ID.

The Services Center provides two options for using data services. **Guide Me Step-by-Step** guides more novice users through the steps necessary to complete the transaction. **Express Request** allows advanced users to quickly complete their transaction (see

“Exchange Network Services” for more information). The Service Center tracks a user’s previously used services and past activity for easy use in the future.

After 20 minutes of inactivity, a user's EN Services Center session will time out. The user will need to log back in to access the application.

Step 1: Registering for an EIS Account

The first step in the process for submitting data is to register for an EIS account. You do this by following the instructions in the section of the EIS User’s Manual entitled “How Do I Request Access to the EIS Gateway.” You can find the document at this web site:

<https://www.epa.gov/air-emissions-inventories/emissions-inventory-system-eisusersmanual-andhow-tos> .

Step 2: Creating your XML file for Submission

The next step in the submission process is to generate your EIS CERS XML file. An XML file can be generated using your own internal system or by using the Bridge Tool. The Bridge Tools can be downloaded from:

<https://www.epa.gov/airemissionsinventories/eis-bridge-tools>. You can find the instructions for the Bridge Tool at this website: <https://www.epa.gov/air-emissions-inventories/emissions-inventorysystem-eisusersmanual-and-how-tos> .

Step 3: Login to the Web Client

When you are ready to submit your file, log onto the Web Client at the following web site: [Environmental Exchange Network | Services Center \(enservices.epa.gov\)](https://www.epa.gov/air-emissions-inventories/emissions-inventorysystem-eisusersmanual-and-how-tos)

The screenshot shows the 'Services Center' login page. At the top, there is a header with the 'exchange Network' logo and 'SERVICES CENTER' text. Below the header, the page is divided into two main sections. The left section contains a description of the Services Center as a web-based tool for exchanging information, a note about account requirements, and a link to 'Request an Account'. The right section is a 'Login' box with fields for 'Username' and 'Password', a 'Login' button, and a 'Forgot Username' link. Below the login box, there are three icons: a circular arrow, a person with a signal wave, and a Wi-Fi symbol. At the bottom, there is a 'Warning Notice' section with a disclaimer about the application being part of a U.S. EPA computer system.

Warning Notice

This application is part of a United States Environmental Protection Agency (EPA) computer system, which is for authorized use only. Unauthorized access or use of this computer system may subject violators to criminal, civil, and/or administrative action. All information on this computer system may be monitored, recorded, read, copied, and disclosed by and to authorized personnel for official purposes, including law enforcement. Access or use of this computer system by any person, whether authorized or unauthorized, constitutes consent to these terms.

Specify your Central Data Exchange (CDX) username, along with your password. All accounts should now be NAAS accounts.

For more information on requesting a NAAS account, please see the document “How Do I Request Access to EIS Gateway? (pdf)” located here: <https://www.epa.gov/air-emissions-inventories/emissions-inventory-system-eis-users-manual-and-how-tos>

For help with your account, please use the “Request Account” for “Forgot username/password” links on the login page.

Step 4: Selecting the File You Want to Submit

Before you select a file to submit, remember these rules about the EIS CERS XML file:

- The EIS submission file consists of an XML document, made up of the Exchange Header (Version 2.0) and the payload, and any attached file.
- The Payload is the actual EIS data, adhering to the structure of the CERS.
- Any supporting documents (for the NMIM activity data or GIS files) are attached in the form of binary attachments. These data attachments are referenced by name in the CERS payload section of the document, but the data attachment content exists as separate documents external to the Document structure.
- **All of these items are submitted in a single compressed ‘.zip’ file.**
- Only **one** category of data (i.e., FacilityInventory, Point, Nonpoint, Mobile, Events) is allowed to be included in each .zip file; more than one category of data will cause the entire file to be rejected by EIS.

Below is a screenshot of the Landing Page. If you click on “My Services Center,” it will take you to “My Services.”

If this is your first time using any services, click on the tab to “Use a New Service.”

Type “EIS” where it says “enter Keywords” and hit the “filter” button. The first item in the list is the CERS_v2 Schema. Click on the link that says “send info.” You can now add this page to your quick links, for future uploads.

Services Directory

This directory runs from Exchange Network Discovery Service (ENDS) metadata. It requires the commitment of our Network to keep it up to date and useful. For the BETA version, the Services Directory contains only services that support Submit, Query, Solicit, and Download operations. Select the name of the Service you wish to use.

Filter By: Keyword(s) [Filter](#) [Clear](#)

1 - 20 of 48 [< Previous](#) [1](#) [2](#) [3](#) [Next >](#)

Service Transaction	Dataflow	Service Name	Service Description	Node	Service Provider
Send Info	CERS_v2	default	EIS Submit: Send CERS 2.0 files to the Emissions Inventory System (EIS).	NGNProd2.0	U.S. Environmental Protection Agency
Get Info	EIS_v1.0	GetEISFacInventory	Get EIS Facility Inventory Data.	GeorgiaProd	Georgia Environmental Protection Division
Execute	EIS_v1.0	SubmitEISFacInventory	Retrieve EIS Facility Inventory Data then submit to CDX	GeorgiaProd	Georgia Environmental Protection Division

- 1) Click on the “Choose File” button and locate the zip file you want to load. Remember that all XML files submitted to EIS must be zipped before loading. If there are people other than yourself that you want notified of this submission, enter their email addresses in the provided text box.

[Select a different Service](#)

- 2) Click on the “SEND DATA” button.
- 3) Once the file has been sent, you will receive a screen like the following:

The screenshot shows the EPA Services Center interface. At the top, it says "Environmental Information" and "exchange Network". The "SERVICES CENTER" header is prominent. A user is logged in as "miller.jonathan@epa.gov". Navigation tabs include "Home", "My Services Center", "Exchange Network Services", and "News & Data Channels".

The main content area is titled "Request Received!". It states: "Your File XMLSubmission.zip has been received." and "The following Transaction ID has been assigned to this request:". The Transaction ID, **_0b8d5a34-0416-49e7-8715-89c9558e9b52**, is highlighted with a red oval.

Below this, a section titled "Current Status of Request:" contains a table:

Transaction Status	Service Name	Transaction Type	Date
Processing	default	Send Information	4/15/2021 7:27 AM

At the bottom, a red-bordered box titled "What would you like to do next?" contains several links: "View the Status of this request in My Activity", "Complete another Transaction using this same Service", "Complete another Transaction using a different Service", "Add this Service to My Quick Links", and "Log out of the Services Center".

The footer includes links for "EPA Home", "Privacy and Security Notice", and "Contact Us".

The screen shown above provides you with the transaction id of the submission as shown by the top red oval above. This information will also be emailed to you. You may use the links at the bottom of this screen to check on the status of the given submission, submit another file, or submit a file using a different service. You are all done!

Repeat Step 4 for as many files as you need to submit

Important Process Note

Any email address you add in the "Emails To Notify" line will be the default recipient of the notifications from CDX. This means that unless the submitters address is also entered, they will not receive any email notifications from CDX.

Step 5: Tracking Your Submission

Once the file has been submitted, you will see a results screen that will provide a transaction ID and a status of your submission.

The "My Activity" link lists all EN Services Center transactions completed by a user. This page provides the necessary details of a transaction to include the service used (service name), transaction type, date and time of the transaction, and the transaction ID.

[EPA Home](#) | [Privacy and Security Notice](#) | [Contact Us](#)

A link is provided within the transaction ID for additional transaction details. Users can filter their activity by:

- **Status:** Filter by the status of the transactions: Completed (a transaction was successfully completed), Failed (there was an issue with the submission, and it failed) and Pending (the transaction has not completed processing yet).
- **Dataflow:** Filter by the Exchange Network dataflow from which the user submitted or obtained information.
- **Transaction Type:** Filter by Send Info, Download or Get Info transactions.
- **Most Recent:** Filter by transactions within the Last 30 Days, Last 60 Days, Last 90 Days or All Transactions.
- **Transaction Date:** Filter by a date range of transactions.
- **Transaction ID:** Filter by a specific Transaction ID.

Selecting the Clear button will remove any filters and show the full list of transactions. A Refresh Activity link is provided at the top right-hand corner of the My Activity page that is used to refresh the status of transactions as needed.

Users can select the “Make this my Start page” check box for this page to be the first page that appears when logged into the EN Services Center. Users can also click “Add this page to my Quick Links”, located in the top right corner of this page to add this page to the list of

Quick Links. The status of “Pending” indicates your submission is being processed through CDX and the EIS.

The CDX will perform validation on the schema.

The EIS will perform quality assurance on the data in the payload.

You can click on the Transaction ID for more detailed information about your submission. You should allow a few minutes before clicking on the transaction ID to allow processing of your submission.

When you click on the Transaction ID, the following screen will appear:

The screenshot shows the 'Transaction Details' page of the 'Environmental Information exchange Network SERVICES CENTER'. The page has a navigation bar with 'Home', 'My Services Center', 'Exchange Network Services', and 'News & Data Channels'. The main content area displays transaction information for ID '_061733a0-9bf3-4a07-bf61-ce40004f522e'. The status is 'PENDING', dated '5/7/2021 6:49:39 AM', with service name 'CERS_v2 Submit'. It lists associated documents: 'ValidationResults.xml' and 'XML Submission.zip', each with a 'View Details' link. Other fields include 'Message:', 'DataFlow: CERS_v2', 'Transaction Type: Submit', 'Approved Count: 0', and 'Recipients:'.

Transaction Details	
Transaction ID:	_061733a0-9bf3-4a07-bf61-ce40004f522e
Transaction Status:	PENDING
Date:	5/7/2021 6:49:39 AM
Service Name:	CERS_v2 Submit
Message:	
DataFlow:	CERS_v2
Transaction Type:	Submit
Approved Count:	0
Recipients:	

Documents Associated with this Transaction:	
ValidationResults.xml	View Details
XML Submission.zip	View Details

This page will provide information for the transaction ID for your submission:

The Transaction Status will indicate one of the following:

- Pending
- Received (by CDX)
- Processed (CDX schema validation)
- Completed (EIS processing).

The Description identifies:

- Your file failed schema validation
- Your file failed to load into EIS
- Your file has successfully loaded into EIS (through an extract, transform, and load process).

If the Transaction Status is “Completed” your file has been loaded into EIS for Processing.

When the processing of the file is complete, you will receive an email notifying you of the status.

Step 6: More Information on the Submission

The Transaction Details screen provides more information on the status of the submission. You can click on the ValidationResults.xml to download the results of the schema validation, or XML Submission.zip to download the original XML zip file.

Step 7: Your EIS QA Feedback is Ready

When the file has been completely processed by EIS, you will receive an email stating that your QA feedback is ready and available on the EIS Gateway. Log into EIS at <https://eis.epa.gov/eis-system-web/welcome.html>.
