5 of 8 Buses

You will need the following information to complete the fields on this screen:

- Fleet size
- Old Bus idling hours and odometer reading
- New Bus specifications and cost
- New Bus battery and powertrain warranty information
- Photo of New Bus showing VIN number

This screen lists the Old Buses that were entered on your Application form. If you would like to scrap, donate or sell a different Old Bus from that entered on your Application form, check the "Swap Bus" box and complete the fields for the different Old Bus.

If the Old Bus is no longer going to be scrapped, sold or donated, and its associated rebate is no longer requested, please check the "Exclude Bus" box.

For each Old Bus, complete the fields for the replacement New Bus.

* denotes required field

Total Bus and Infrastructure Rebate Amount Paid	\$350,000.00	Total Bus and Infrastructure Costs (actual) ?	\$634,340.00
Total Bus and Infrastructure Eligible Rebate Amount ?	\$350,000.00	Total Non-EPA Funding Acquired ?	\$79,340.00

Signature and Certification

The individual listed below must sign and submit this payment request before it will be considered for funding by the EPA. If you do not have the authority to sign this payment request, then notify the authorized representative so they can sign and submit the Close Out form. Note: The authorized representative must be registered as either the Government Business (and alternate), or Electronic Business (and alternate) Point of Contact in SAM.gov to access this Close Out form.

By signing and submitting this Close Out form, applicants certify that:

1. They have read and agree to comply with the requirements and terms and conditions in the 2022 Clean School Bus (CSB) Rebates Program Guide. This certification is material representation that EPA will rely upon in providing funds for vehicle replacement rebates. False certifications may result in criminal prosecution under 18 U.S.C. § 1001, civil liability under the False Claims Act, 31 U.S.C. § 3729 et seq. and/or the Program Fraud Civil Remedies Act, 31 U.S.C. § 3801 et seq., suspension and/or debarment pursuant to 2 C.F.R. Part 180, and/or other criminal, civil or administrative penalties, sanctions, and remedies available to the Federal government.
2. Old buses listed to be replaced and new replacement buses must meet the eligibility requirements in the 2022 CSB Rebates Program Guide and, if selected for funding, old buses will be disposed of according to the Program Guide requirements.
3. Replacement buses and associated charging/fueling infrastructure funded in this program was not ordered until after official notification of selection.
4. They have the authority to represent the applicant organization listed on this form.
5. The public school system that will be served by the replacement buses for at least five years has been notified and approves of the proposed bus replacements.
6. The statements and information provided in this application are true and accurate to the best of their knowledge.
7. They will respond to EPA or its representatives if contacted to clarify information submitted in this Close Out form.

Sign the form by using your mouse cursor as a pen.

Once this Close Out form is submitted, you, the other SAM.gov points of contact listed in the first paragraph on this screen, and the Primary and Alternate applicant contacts will receive an email confirmation. The applicant dashboard will show **submitted** as the status.

7 of 8 Telematics

Most of today's school buses are equipped with sophisticated fleet management systems, known as "telematics", to improve the safety and efficiency of the bus fleet. Telematics systems provide data on bus speed, location, and engine status to allow real-time tracking of routes, monitor compliance with safety requirements, and pinpoint maintenance issues as they arise. These data also serve as an important resource for districts looking to improve efficiency and reduce emissions. As EVs enter the school bus fleet, telematics can contribute to their successful implementation by providing data on bus range, battery performance, charging efficiency and other metrics for a variety of locations and operating conditions. Sharing telematics with EPA can help improve the national roll-out of EV buses, allowing operators to benchmark their fleet performance and identify opportunities to improve efficiency and lower costs. Note that all telematics data received will comply with strict Federal privacy requirements, ensuring no personal or other identifying information is made public.

Telematics Data

EPA or its partners may contact me about participating in research opportunities to provide bus or EVSE telematics data that could inform future transportation work.

5 of 8 Buses

You will need the following information to complete the fields on this screen:

- Fleet size
- Old Bus idling hours and odometer reading
- New Bus specifications and cost
- New Bus battery and powertrain warranty information
- Photo of New Bus showing VIN number

This screen lists the Old Buses that were entered on your Application form. If you would like to scrap, donate or sell a different Old Bus from that entered on your Application form, check the "Swap Bus" box and complete the fields for the different Old Bus.

If the Old Bus is no longer going to be scrapped, sold or donated, and its associated rebate is no longer requested, please check the "Exclude Bus" box.

For each Old Bus, complete the fields for the replacement New Bus.

This collection of information is approved by OMB under the Paperwork Reduction Act, 44 U.S.C. 3501 et seq. (OMB Control No. 2060-0686). Responses to this collection of information are voluntary (Title XI, Section 71101 of the Infrastructure Investment and Jobs Act (Public Law 117-58)). An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The public reporting and recordkeeping burden for this collection of information is estimated to be 4.3 hours per response. Send comments on the Agency's need for this information, the accuracy of the provided burden estimates and any suggested methods for minimizing respondent burden to the Regulatory Support Division Director, U.S. Environmental Protection Agency (2821T), 1200 Pennsylvania Ave., NW, Washington, D.C. 20460. Include the OMB control number in any correspondence. Do not send the completed form to this address.

Rebate ID: 016390

1 of 8 **Welcome**

Close Out Form - Basic Information

As a rebate recipient, you must submit an online Close Out Form that verifies you have met the Clean School Bus Rebate Program requirements. Program requirements includes providing information on:

- School bus(es) you scrapped, sold or donated,
- New clean school bus(es) you purchased and were delivered, and
- Infrastructure you purchased, delivered, and installed.

This form must be completed by October 31, 2024 unless an extension has been approved by EPA.

The following information will help you complete this Close Out Form accurately and efficiently.

- In-form help text is provided below the data entry fields and in the "?" next to the field names.
- For additional assistance, please refer to the Program Guide and supporting documents at [School Bus Rebates: Clean School Bus Program](#), or contact the help desk at cleanschoolbus@epa.gov (include the Applicant Name, the Rebate ID, Unique Entity Identifier (UEI), Electronic Funds Transfer (EFT) Indicator, and the School District Name).

To complete this form, you will need the following information:

- The primary and alternate (if applicable) contact information for your organization
- Contact information for the following organizations:
 - Organization(s) where each old bus from your application or identified on this form was scrapped, donated or sold.
 - All Old Bus Owners (e.g. district, private fleet)
 - All New Bus Owners (e.g. district, private fleet)
 - All Infrastructure Owners of electric bus charging equipment (e.g. district, private fleet)
 - All Infrastructure suppliers from which charging equipment was purchased
 - All other eligible organization suppliers for infrastructure installation (e.g. contractors performing trenching, electrical, wiring, engineering, design services, charger installation)
- Current fleet size and number of electric school buses in current fleet
- Old Bus idling hours and odometer reading
- Proof of old bus scrapper (destroyed engine and chassis rail with VIN number, and letter from scrap yard/entity that scrapped buses)
- Final invoices and proof of delivery for all new buses and infrastructure
- New Bus specifications and costs. Specifications include fuel type, model and model year, date bus delivered, GVWR, new bus annual mileage estimate, annual idling hours (propane or CNG) electric vehicle (EV) range/fuel consumption, EV capacity for bidirectional charging, EV battery capacity, and auxiliary heater type
- New EV Bus battery and powertrain warranty information
- Photo of New Bus showing VIN number
- Non-EPA clean school bus funding information including type, funding source and dollar amount (if applicable)
- Electric bus charger information (type, manufacturer, model, maximum output power, year of manufacture, number of plugs, bidirectional charging capability)
- All costs associated with infrastructure including charger purchase and installation, and other eligible infrastructure costs
- Address where infrastructure was installed
- Photo of each installed charging pedestal or equipment
- Non-EPA clean school bus infrastructure funding information including type, funding source and dollar amount (if applicable)

To save your work on the form, you must select the "Save" or "Next" button. You will be able to return later to finish your Close Out form without losing information. Additionally, if you're on a page that has a "Complete" button, you must first select the "Complete" button and then the "Save" or "Next" to save information.

To submit your Close Out form to EPA, complete all screens, and then sign and submit the form. Make sure to provide a complete signature and check the "I confirm I have provided my signature above" box before selecting the "Submit Form" button. Your Close Out form status will then be displayed on the dashboard.

Note: only Government Business (and alternate) and Electronic Business (and alternate) Points of Contact from SAM.gov can access the dashboard. The Government Business (and alternate) and Electronic Business (and alternate) Points of Contact, and the Primary and/or Alternate Contacts will also receive a submittal email confirmation.

EPA or its authorized representatives may contact selectees to clarify or edit information provided in the Close Out Form. If, upon review, the Close Out Form is accurate and includes all required information, EPA will notify you that your electric school bus Close Out form is complete.

NOTE: Use of the browser back, forward, or refresh buttons will result in loss of work. Please navigate using the buttons at the bottom of the form.

3 of 8 Organizations

This page is for adding organization information for old buses, new buses and infrastructure. For each organization that you add by selecting the "+Add Organization" blue box, you'll need to first select the organization type(s) and then enter the contact and address information for the organization. Information for each organization only needs to be entered once, even if the organization applies to multiple buses or infrastructure, or multiple organization types. The following organization types need to be entered on this page:

- **Scrap Yard, Donee, and Purchaser:** Organization(s) where each old bus from your application or identified in this Close Out form was scrapped (Scrap Yard), donated (Donee) or sold (Purchaser).
- **Old Bus Owner:** All old bus owners if not the applicant, not the same as the new bus district served, or not the private fleet you listed submitted in your application.
- **New Bus Owner:** All new bus owners (e.g. district, nonprofit, private fleet, tribes). If the new bus owner is the applicant, the school district that the new buses will serve, or the old bus private fleet identified in your application, then you do not have to enter new bus owner information as it's already included within this form.
- **Infrastructure Owner (electric bus charging):** All infrastructure owners (e.g. district, private fleet) of the electric bus charging equipment needs to be identified. If the infrastructure owner is the applicant, the school district that the new buses will serve, or the old bus private fleet identified in your application, then you do not have to enter new bus owner information.
- **Infrastructure Supplier (charging equipment only):** All infrastructure suppliers from which charging equipment was purchased.
- **Other Eligible Organization Supplier (infrastructure):** All other eligible Infrastructure organizations (e.g., performing trenching and wiring, project management, but excluding charger installation)

On the bus and infrastructure (if applicable) pages you will be selecting organizations you entered here or in your application for each bus and infrastructure owner or supplier.

Rebate ID: 016390

4 of 8 Documents

On this screen you will need to enter a description of and upload the following documents:

- Final invoices** for all new buses and infrastructure. For each invoice, indicate whether it includes bus(es), electric bus charging infrastructure, or both by clicking on the checkboxes under Document Purpose.
- Proof of delivery** for all new buses and infrastructure (e.g., dated bill of lading). DO NOT upload photos showing old bus scrapage, new buses, or charging pedestals here as those should be uploaded on the Bus and/or Infrastructure pages of this form.

* denotes required field
