Instructions for Form HUD-52651-A: Site, Design and Cost Report

1. Purpose: When the PHA is preparing to submit a PHA Proposal for a Public Housing Project (PHA Proposal), Form HUD-52483-A, the Site, Design and Cost Report, Form HUD-52651-A, is the principal attachment used to delineate components of the proposed project. This form is also used to summarize the submission of site documents when the project involves 1-4 family properties under the conventional or acquisition developmental methods.
2. Prepared by: Form HUD-52651-A Site, Design and Cost Report, is prepared by the PHA and its architect under the conventional and acquisition methods. Under the turnkey method, Form HUD-52651-A is initially prepared by prospective developers as part of their turnkey proposal. By signing the form, the PHA formally incorporates it into its PHA proposal which is submitted to HUD. Only one turnkey proposal is permitted for each PHA proposal.
3. Number: Original and one more copies. (Note: The Form HUD-52651-A, itself, calls for attachments).
4. Distribution: A turnkey developer shall submit the original and at least one copy of Form HUD-52651-A to the PHA with all attachments as part of a turnkey proposal. The Developer's Packet may specify a greater number of copies to be submitted to the PHA. A PHA shall attach the original to the original of its PHA Proposal which is submitted to the applicable HUD Field Office and shall retain the copy with a copy of its PHA Proposal in its files. A PEA may also be requested by the Field Office to submit additional copies of its proposal. If the Field Office plans to request any additional copies of the proposal from the PHA, the Field Office should advise the PHA to specify a sufficient number of turnkey proposals in the Developer's Packet.
5. Instructions for Preparation: The Site, Design and Cost Report (Form HUD-52651-A) is to be prepared in accordance with the public housing development regulation (24 CFR 905) and Capital Fund Guidebook by either the PHA (Conventional and Acquisition methods) of the turnkey developer (Turnkey method). Except for conventional or acquisition projects involving 1-4 family properties, a separate Form and HUD-52651-A is to be submitted for each individual site or a site comprising several contiguous parcels having common exhibits or other information. In addition, a Form HUD-52651-A (Parts I, IV and V) is to be submitted summarizing the project as a whole.

For conventional or acquisition projects involving 1-4 family properties, a Form HUD-52651-A with Part I, Items 1-11, Part IV and Part V completed shall be submitted summarizing the site documents for each group of properties being proposed. Each part should indicate the total of all properties approved or submitted to date. The following attachments are required with each group of properties submitted to HUD for approval:

- a. Offers of Sale of Real Property and Purchase Agreements (executed Forms HUD-51971-I and II).
- b. Neighborhood Map designating properties previously approved by HUD and acquired by the PHA and the properties currently being submitted for HUD approval.
- c. Appraisal (Form HUD-92800-3)
- d. Work write-ups for properties to be rehabilitated and repair descriptions for those requiring only minor repairs.
- e. A statement of how each property was identified and whether it is currently occupied by an owner or tenant.

Specific instructions for completing each item follow. If there is insufficient space on the form, a continuation sheet may be used which clearly identifies the material by Part, Section, and item number.

Part I-General

- Item 1. State the legal name of the PHA.
- Item 2. State the complete mailing address of the PHA.
- Item 3. Complete the project number, if known.
- Item 4. Check the box which indicates that this is an individual and/or a summary report, and complete the data.
- Item 5. Check only one box to identify the proposed housing type and selected development method for the proposed project.
- Item 6. State the name of the community in which the project is proposed to be located. A community (formerly referred to as a locality) is defined as municipality or other general purpose political subdivision below the country level (e.g., city, town, township).
- Item 7. State the name of any applicable county or similar area of jurisdiction (broader than the community) in which the project is proposed to be located.
- Item 8. If known, identify each Congressional district within which the project will be located.
- Item 9. If known, identify each Census Tract or Enumeration District within which the project will be located.

Item 10 A locality map which identifies the items listed should be attached to the summary report only.

- Item 11 Complete the table as appropriate to indicate the number of dwelling units (DU's) proposed for the site by structure type, household type and number of bedrooms. Also show the number of buildings for each structure type. The sums of family units (Column 4) and those for the elderly (Column 5) should be stated as totals in Column 3 as appropriate. The grand totals should be shown on Line 6. Line 7 should show the number of units included on line 6 for occupancy by the handicapped.

The structure types are defined as follows: (a) Detached (D): A structure which consists of a single living unit and is surrounded by permanent open spaces; (b) Semi-Detached (SD): A structure containing two living units separated by a common vertical wall; (c) Row (R): A structure containing three or more living units, each separated by vertical walls, and generally having individual entrances and interior stairs; (d) Walk-up (W): A multi-level low-rise structure containing two or more living units, each separated horizontally (ceiling/floor) and by vertical walls; (e) Elevator (E): Any high-rise structure for which an elevator is required under the Minimum Property Standards (MPS) or local building codes.

The summary report must indicate the sum total of the dwelling units from all the individual reports.

- Item 12. Identify the areas for each of the space types listed. The summary report must indicate the sum total of the areas from all of the individual reports.
- Item 13. Enter the estimated number of calendar days in each box depending on the development method. The summary report shall indicate the time estimate which is the longest of the individual reports. Any estimates in excess of the amounts established as Standard Processing Times (SPTs) shall be accompanied by a jurisdiction of the extra time required.

a. Turnkey. The turnkey developer shall enter estimates in column (1). The PHA shall complete the estimate by entering the number of days to complete its part of the processing in column (2). The PHA shall enter the total of columns (1) and (2) in column (3). Enter the information on each line as follows:

Line a. No entries are made on this line for the turnkey method.

Line b. No entries are made on this line if this stage is to be bypassed; i.e., the design documents are being incorporated with the proposal or the construction documents. Otherwise enter the number of days required form HUD approval of the PHA proposal to developer submission of the design documents to HUD (Col. 2). (The Total (Col. 3) should not exceed the SPT of 60 days).

Line c. Enter the number of days from HUD approval of the design documents (or PHA proposal if the design documents stage is to be bypassed) to turnkey developer submission of the construction documents to the PHA (Col. 1) and PHA submission of the construction documents to HUD (Col.2) (The Total (Col. 3) should not exceed the SPT of 90 or 120 days).

Line d. The PHA (Col. 3) shall enter the number of days from HUD approval of the construction documents to the date of the contract of sale conference (SPT 30 days).

Line e. The developer shall enter the number of days from execution of the Contract of Sale to start of construction (Col. 1) The PHA shall enter the number of days from the contract of sale conference to execution of the Contract of Sale, if not signed at contract of sale conference, (Col. 2).

The PHA shall transfer only the number of days in Col. (2) to Col. (3). There are no SPTs for these actions because the Contract of sale is presumed to be executed at the contract of sale conference and construction start is presumed at the execution of the Contract of Sale.

Line f. The turnkey developer shall enter the number of days required from execution of the Contract of Sale to completion of construction or rehabilitation. (Cols. 1 and 3). (No SPT)

Line g. No entries are made on this line for the turnkey method.

Line h. The PHA shall enter the sum of the horizontal totals in column (3) only.

b. Conventional. The PHA shall enter estimates for each processing stage in column (3) only:

Line a. Enter the number of days from HUD approval of the PHA proposal to submission of the site documents.

Line b. No entries are made on this line if design documents are being incorporated with the PHA proposal or construction documents (design document stage bypassed). Otherwise enter the number of days required from HUD approval of the PHA proposal to submission of the design documents. (SPT 60 days)

Line c. Enter the number of days from HUD approval of the design documents (or PHA proposal if the design document stage is to be bypassed) to submission of the construction documents. (SPT 90 or 120 days)

Line d. Enter the number of days required from HUD approval of the construction documents to PHA submission of the contract award documents. (SPT 60 days)

Line e. Enter the number of days required from HUD approval of the contract award documents to issuance of the Notice to Proceed. (No SPT established for this step)

Line f. Enter the estimated number of days from issuance of the Notice to Proceed to completion or rehabilitation.

Line g. No entries are made on this line for the conventional method.

Line h. Enter the total of all amounts in column (3) **except line a.**

c. Acquisition. The PHA shall enter estimates for each processing stage in column (3) only:

Line a. Enter the number of days from HUD approval of the PHA proposal to submission of the site documents. Omit this line if the project involves 1-4 family (single-family) units.

Line b-e. No entries required on these lines for the acquisition method.

Line f. Enter the number of days from HUD approval of the **last** site document to completion of repair work on the last unit.

Line g. for projects involving 1-4 family units, enter number of days required to submit site documents on all properties. (SPT is one year to acquire all properties)

Line h. Enter the total of all amounts in column (3) **including line a.**

Item 14. By signing this Report, the PHA (all methods) and the turnkey developer (Turnkey method) each certifies as started; and to the summary report each shall attach the plan addressing the two areas described.

Part II-Proposed Site

Indicate the report number and project number (if known) at the top of each page.

Item 1. Enter the address of the site or other descriptive information especially if the site is located in a rural area.

Item 2. Major intersecting streets or roads may provide further identification of the site.

Item 3. Check the appropriate box which identifies the present owner of the site.

Item 4. Enter the dimensions if known or an estimate. If dimensions are inappropriate, enter irregular. Calculate the total square foot and acres in the site.

Item 5. Identify the current zoning of the site and check the box indicating whether the zoning was recently changed (if so, attach the evidence) and whether the zoning will permit the intended use or not. If not, indicate the zoning required, the basis for believing that proper zoning can be secured, and the party responsible for obtaining it.

Item 6. Check the appropriate box and attach form HUD-51971-II or other evidence of control or ownership depending on development method. enter the option expiration date or the earliest date if there is more than one parcel involved.

Item 7. Check the two boxes as a reminder that the two pieces of title information are to be attached. Title information shall be in the form of a title opinion or report and a recordation plat to demonstrate that good title can be obtained and that there will be no encumbrances which would interfere with the development of the proposed project. At the time of transfer, title must be good and marketable, and free of any mortgage, lease, lien or other encumbrances, such as use or building restrictions, zoning ordinances, easements, or rights-of-way which would affect the value or proposed use of site.

Item 8. Check the box as a reminder to submit a survey of the site (to include all the parcels in this report). A "transit survey" shall be prepared by a surveyor or engineer, drawn to a scale of one inch to forty feet (1" = 40') or larger, showing:

- the North point, property lines, and dimensions;
- the community, county, and State in which the property is located, and the lot and block number of the property and adjacent properties;
- the location and dimensions of all fights-of-way easements;
- contours indicating current grades;
- an outline and dimensions of any existing structures;
- the location and size of utilities; and
- the location of any known subsurface conditions.

Item 9. For conventional or acquisition projects only, explain how site was located. Check the appropriate box and if lines (a) and (b) are not appropriate, explain the circumstances on line (c).

Item 10. Explain the status of utility services to the site. Check the appropriate box to indicate if the service is presently available (show "Not Applicable" if appropriate). If a change to the existing status will be required i.e., extension, relocation, improvement or increased capacity, explain the change and attach a written assurance from the responsible local agency that funds are available and the work will be completed in time to serve the proposed project.

Item 11. Complete as applicable.

Item 12. Complete as applicable indicating whether any special drainage, etc. requirements are anticipated.

Item 13-17 If any of these conditions are present, explain the circumstances, extent or source of the hazard and what steps will be taken to mitigate potential damaging effects on the project, residents or the environment.

Item 18. Indicate any other environmental considerations applicable to the site and any state or local restrictions above and beyond HUD requirements. Provide a similar as in items 13-17. Attach A-95 clearance if obtained. Advance A-95 clearance is recommended, but not required. HUD will obtain it during its processing if it is not attached.

Item 19. Check the appropriate box (or boxes) which describes any unusual site features. If none, check box (a). Use box (e) to list others not shown such as surface rock, creeks, heavily forested, steep slopes, or power lines.

Item 20. Where any problems are known or suspected, describe the problem and the results of any preliminary examination indicating that the adverse conditions can be overcome. State the nature and extent of required corrective actions.

Item 21. If the site is vacant, check the box (a) and proceed to item 22. If the site is occupied, check the box (b) and provide additional information. Indicate the total number of various types of occupants which would need to be relocated. for purposes of this Report, individuals are single persons without dependents and are not considered families. Indicate "Not Applicable" if any occupant type is not present on this site. Indicating the number of families and individuals in box (e) which are eligible for assisted housing provides a means to estimate relocation expenses without violating their privacy. Check box (f) as a reminder to attach the information statement with the required elements. By checking box (g) the PHA or turnkey developer recognizes the obligation to provide the appropriate notifications to occupants as required by HUD.

Item 22. If the site consists of more than one parcel, devise a number system to identify each parcel on a separate line in column (a). Provide further identification of each parcel in column (b) such as street address, owner's name, or an obvious physical feature and, for properties to be acquired "as is" or rehabilitated, show the year built in column (b). Insert the option expiration date in column (c) calculated from the information on the site control document. Show the total square foot area for each parcel in column (d). In column (e) indicate the types of improvements and future use of any improvements on each parcel by the following codes: In column (e) (1) Type, show D = Dwelling or N = Nondwelling; In column (e) (2) Use, show V = Vacant land (no improvements) A = Use as is, D = will be demolished, R = will be rehabilitated. Enter one or more code letters for each parcel in columns (e) (1) and (e) (2). Indicate by checking column (f) that there are special conditions involving the acquisition of the parcel such as title problems, condemnation expected, relocation involved or any unusual situation, such as currently owned by PHA. Explain the condition in Item 23. Insert the asking price in column (g) from the site control document. If the parcel will be donated, indicate this in column (g) also.

Item 23. Cite any state, local or regional plans (including Housing Assistance Plans) which served as the basis for selecting the proposed site. Also state the reason for recommending exclusion of any parcels from the site and any other acquisition difficulties or conditions. Identify any proposed condition of purchase which should be included in the Purchase agreement, Form HUD-51971-II.

Item 24. Indicate the total square feet and acres acquired by the various means listed. Acquisition by condemnation should be shown as a purchase. Vacated area owned by a public entity should be shown as a donation. The total area of the site should not be greater than the total of lines (a) and (b), and should be the same as the total area of the parcels identified in Item 22, as well as streets, easements and unbuildable land. The result of subtracting line (d) from Line (c) is the net buildable area of the site.

Item 25. Summarize any demolition by checking the appropriate box and indicating the total number of dwelling units or non-dwelling structures to be demolished.

Part III-Proposed Design

Item 1. Enter the various density factors requested based on the dwelling units planned for this site only.

Items 2-10. Provide the information requested for the building or units on this site only.

Item 11. Check the appropriate box which will indicate if design or construction documents are included as part of the proposal instead of schematics. If (b) or (c) is checked, attach the documents required by Handbook 7417.1, complete items 12 and 13 only and proceed to Part V.

Item 12. If the plans, specifications and other attachments are identical for all sites, they need only be attached to the first report. If they are applicable to some sites but not all, enclose a cover sheet identifying each site and they need not be attached to more than one report.

Item 13. If the prepared Form HUD-51994, Analysis of Utility costs, is not to be used, a revised one must be attached and the box checked.

Item 14. For new construction projects only, check the boxes as a reminder to attach the three items shown;

- a. a completed Outline Specification (Form HUD-5087)
- b. a site plan (schematic drawing) based on available topographical information and known subsurface soil conditions which identifies:

- (1) the outline and dimensions of each structure (dwelling and non-dwelling);
- (2) the existing and proposed locations of streets, easements, and utilities (e.g. telephone, water, sewerage, gas, electric);
- (3) the distance of utilities from the site boundary;
- (4) proposed foundations, building grades, drainage swales, and extent of grading required; and
- (5) the proposed placement of trees and shrubs, and primary land uses such as placement of buildings, play fields, tot lots, conversational groupings and parking or other paved areas.

c. schematic drawings which identify:

- (1) typical building elevations;
- (2) typical building floor plans for each structure type, showing the gross square feet of floor area, and the area for each type of non-dwelling space;
- (3) typical floor and wall sections, mechanical features and equipment; and
- (4) typical unit floor plans for each size and structure type.

Item 15. For rehabilitation and acquisition of existing housing projects, check the boxes as a reminder to attach the three items shown:

- a. preliminary work write-ups to describe the extent and nature of work required to rehabilitate or repair each property.
- b. photographs of typical interior and exterior buildings and units to illustrate the extent of rehabilitation or repairs required.
- c. for one-to-four family properties, Form HUD-92800-3 (as applicable through item 22), or for rehabilitation of properties of 5 or more units, a completed Outline Specification, form HUD-5087.

Item 16. Complete the information requested for each property "as is". Composition refers to number of bedrooms, number of bathrooms, variations in size or other features which may vary the existing rent structure. Check the items of equipment and services included in the existing monthly rental.

Part IV-Proposed Construction Cost/Price

Section A: Construction Cost/Developer's Price Description

Item 1. Indicate whether this is the summary or an individual site report by checking the appropriate box and completing the data. If only one site is involved, a summary report is not necessary.

Item 2. Check the appropriate box and enter the appropriate date.

Section B: Construction Cost/Developer's Price Statement

1. Enter estimated cost amounts for each line item based on the development method as follows:

- a. Turnkey method. The turnkey developer shall enter amounts in column (a) for costs which will incur. The PHA shall enter its costs over and above the turnkey developer's costs in column (b). The PHA shall total the amounts in (a) and (b) for each item and enter it in column (c).
- b. Conventional method. The PHA shall enter the estimated costs it will incur for each item in column (c). No entries should be made for items under "Other".

c. Acquisition method. The PHA shall enter its costs in column (c). Line 11 should not be more than 10% of the estimated total development cost of the project. No entries should be made for items under "Other".

2. The amounts for items 1 through 11 are based on the prevailing Davis-Bacon wage rates and include any applicable social security and sales taxes, insurance and bond premiums, and a pro rata share of the contractor's fee (profit and overhead). The cost/price should be stated in terms of actual cost, without contingency, since an amount for contingency will be included in the Development Cost Budget provided to the PHA by the area Office with the proposal approval letter.

3. The "Other" items are to be calculated as follows for turnkey projects only:

a. **Construction Financing.** Indicate the amount of the Construction loan, the interest rate and the number of months of construction time and enter in column (a) the amount for construction financing.

b. **State or local taxes.** Enter an anticipated amount for any state or local taxes except real property taxes. The turnkey price at settlement will be adjusted for any real property taxes paid by the developer during construction.

c. **Title and recording fees, closing costs, and developer's fee.** The amount for these items shall be entered as appropriate.

4. Enter the amount for site acquisition. Since this amount is subject to HUD appraisal, it may be the asking price or an estimate of value.

5. The following is a brief description of the accounts relating to construction costs:

a. **Site Acquisition (Account 1480).** The account includes the amounts for land and existing improvements. Any amounts for condemnation and for the value of property donated are also included.

b. **Site Improvements (Account 1480).** This account includes the amount for normal site improvements (e.g., demolition, grading, utility installation, streets, parking and other paved areas, structural playground facilities and landscaping) and the amount for any special improvements required because of unusual site conditions (e.g., abnormal excavation resulting from unusual subsoil conditions, and excess foundation work such as pilings, caissons and underpinning).

c. **Dwelling Construction (Account 1480).** This account includes the cost for normal foundations, structural framing and interior and exterior finish, closets, other occupant storage areas, and certain common spaces such as entrances, corridors, lobbies, janitorial closets, and laundry, heating and equipment spaces. Costs of major systems and equipment such as plumbing, electrical heating and air conditioning within units are included as well as the cost of elevators and related equipment. Built in equipment such as counters, cabinets, cupboards and shelving are also included.

d. **Dwelling Equipment (Account 1480).** This account includes the cost of ranges, refrigerators, shades, screens or similar equipment provided in dwelling structures.

e. **Nondwelling Construction (Account 1480).** This account includes the costs for management, maintenance and community space or structures. Community space includes social, recreational, health and child care facilities. All necessary built in equipment and plumbing, heating, ventilating and electrical systems are included in these costs.

f. **Nondwelling Equipment (Account 1480).** This account costs for all movable equipment required for management, maintenance, and community spaces.

Part V-Signature

1. If the form was prepared for the PHA by the turnkey developer or PHA architect or development manager, the preparer shall complete the entity and representative identification and sign and date the form.

2. The PHA official shall provide name, title, signature and date as requested.

3. The signatories complete these entries with full knowledge of the certification being provided and the penalties which may be imposed on persons or organizations for improper or false statements or information.
