SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for an extension of a currently approved information collection.

The American lobster resource and fishery are cooperatively managed by the states and NMFS under the authority of the Atlantic Coastal Fisheries Cooperative Management Act, according to the framework established by the Atlantic States Marine Fisheries Commission (ASMFC) in Amendment 3 of its Interstate Fishery Management Plan (ISFMP). This collection of information is in response to several addenda to Amendment 3 of the ISFMP that work to reduce trap fishing effort

through limited entry fishing and trap allocation limit reductions. The Trap Transfer Program is intended to foster economic flexibility for the lobster industry while reducing fishing effort on the American lobster resource. The regulations implementing the FMP in the EEZ are specified at 50 CFR part 697.

This collection of information is being conducted to help mitigate the economic burden of scheduled trap allocation reductions in Lobster Conservation Management Areas 2 and 3 on Federal lobster permit holders through the Annual Lobster Trap Transfer Program, which allows all qualified Federal lobster permit holders to buy and sell trap allocation from Areas 2, 3, or Outer Cape Cod. NMFS collects application forms from Lobster permit holders who wish to transfer trap allocation from these areas during a 2-month period (from August 1 through September 30) each year; and the revised allocations resulting from the transfers become effective for each participating lobster permit at the start of the following Federal lobster fishing year, on May 1. Both the seller and buyer of the traps are required to sign the application form, date the document, and clearly show that the seller has sufficient allocation to transfer and that the buyer has sufficient room under the applicable trap cap. There were no modifications to this collection.

II. Method of Collection

Applications for the Trap Transfer Program are accepted annually from August 1 through September 30 by mail or email.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for the extension of a currently approved information collection.

National Marine Fisheries Service (NMFS) Greater Atlantic Region manages the golden tilefish fishery of the Exclusive Economic Zone (EEZ) of the Northeastern United States, through the Tilefish Fishery Management Plan (FMP). The Mid-Atlantic Fishery Management Council prepared the FMP pursuant to the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act). The regulations implementing the FMP are specified at 50 CFR part 648 subpart N.

The recordkeeping and reporting requirements at § 648.294 form the basis for this collection of information. NMFS requests information from tilefish individual fishing quota (IFQ) permit holders to process applications that ensure IFQ allocation holders are provided a statement of their annual catch quota, and for enforcement purposes, to ensure vessels are not exceeding an individual quota allocation. In conjunction with the application, NMFS also collects IFQ share accumulation information to ensure that IFQ allocation holders do not acquire an excessive share of the total limited access privileges, as required by section 303A(d)(5)(C) of the Magnuson-Stevens Act.

NMFS requests transfer application information to process and track requests from allocation holders to transfer quota allocation (permanent

and temporary) to another entity. NMFS also collects information for cost recovery purposes as required under the Magnuson-Stevens Act. Cost recovery is used to collect fees to recover the costs directly related to management, data collection and analysis, and enforcement of IFQ programs. Lastly, NMFS collects landings information to ensure that the amounts of tilefish landed and ex-vessel prices are properly recorded for quota monitoring purposes and the calculation of IFQ fees. Having this information results in an increasingly more efficient and accurate database for management and monitoring of fisheries of the Northeastern U.S. EEZ.

II. Method of Collection

The IFQ Allocation permit application, IFQ holder cap form, and the IFQ transfer form are all paper applications. These applications can also be completed in a fillable electronic format and submitted through email or printed and sent by mail. The IFQ cost recovery process is entirely online at www.pay.gov.
