

DEPUTY SECRETARY OF DEFENSE
1010 DEFENSE PENTAGON
WASHINGTON, DC 20301-1010

SEP 28 2023

The Honorable Richard L. Revesz
Administrator
Office of Information and Regulatory Affairs
Office of Management and Budget
Washington, DC 20503

Dear Mr. Revesz:

Pursuant to Office of Management and Budget (OMB) procedures established at 5 C.F.R. Part 1320, Controlling Paperwork Burdens on the Public, I request that OMB process the proposed Department of Defense (DoD) information collection covered, "AARO Contact Form for Authorized Reporting" for the All-domain Anomaly Resolution Office (AARO), as an emergency clearance request in accordance with 5 C.F.R. § 1320.13, "Emergency Processing." The collection of contact information from members of the public is an essential step in providing a mechanism for AARO to receive authorized reporting as required by section 1673 of the James M. Inhofe National Defense Authorization Act for Fiscal Year 2023 (FY23 NDAA).

Section 1673 of the FY23 NDAA, "Unidentified Anomalous Phenomena Reporting Procedures" requires that the Secretary of Defense "issue clear public guidance for how to securely access the mechanism for authorized reporting," no later than 180 days from enactment, which was June 2023. Furthermore, section 1683 of the FY23 NDAA requires AARO to produce a Historical Record Report detailing the historical record of the United States government relating to unidentified anomalous phenomena (UAP); to meet this requirement, AARO relies on the "AARO Contact Form" to receive reports from individuals with knowledge of potential UAP programs.

In light of the overdue statutory requirement, congressional and public interest in AARO's reporting mechanism, and the criticality of the collected information to AARO's mission, I have determined that AARO must begin collecting this information no later than October 31, 2023. It is, therefore, impracticable for DoD to consult in advance with interested agencies and members of the public in order to minimize the burden of the collection of information pursuant to 5 C.F.R. § 1320.13(c). Therefore, DoD requests a 180-day emergency clearance to obtain the information required. During the 180-day emergency clearance period, DoD will work to establish a regular clearance submission. DoD is also seeking OMB's approval to waive the need for the Federal Register Notices otherwise required by 5 C.F.R. 1320.5(a)(1)(iv) and 1320.8(d)(1) prior to publication and implementation of this disclosure.

We request your approval/disapproval determination of this request to collect information under an emergency clearance by close of business on September 29, 2023.

Sincerely,

A handwritten signature in black ink, reading "Kathleen H. Hoch", is positioned at the bottom of the letter.

SUPPORTING STATEMENT - PART A

AARO Contact Form for Authorized Reporting

1. Need for the Information Collection

The *AARO Contact Form for Authorized Reporting* information collection will be used to gather contact information, to include Personally Identifiable Information (PII) from members of the public. The collection is necessary to enable the All-domain Anomaly Resolution Office (AARO), Office of the Secretary of Defense, Department of Defense, to meet its statutory requirements.

The proposed information collection, *AARO Contact Form for Authorized Reporting*, enables AARO to comply with Section 1673 of the James M. Inhofe National Defense Authorization Act for Fiscal Year 2023 (FY23 NDAA), which directs AARO to establish a secure mechanism for authorized reporting of U.S. Government programs and activities related unidentified anomalous phenomena (UAP). The form will collect contact information from current and former U.S. Government employees, service members, and contractors who wish to make an authorized report to AARO. The collection is necessary to enable persons wanting to make a report to contact AARO directly.

The *AARO Contact Form for Authorized Reporting* also supports Section 1683 of the FY23 NDAA, which directs AARO to produce a Historical Record Report (HRR) on U.S. Government activities and events related to UAP from 1945 to present. Oral history interviews, records of the National Archive, open source research, and all records and documents from U.S. Government agencies are the foundational pillars of information supporting the HRR. The *AARO Contact Form for Authorized Reporting* enables AARO to contact individuals to schedule oral history interviews.

2. Use of the Information

The respondents are current and former U.S. Government employees, service members, and contractors who want to contact AARO in furtherance of providing authorized reporting regarding potential U.S. Governments activities and events related to UAP. The respondents will be asked to voluntarily provide their contact information by completing fields and using drop down menus on a page within AARO's website (www.aaro.mil). This form is the only collection instrument, is 100 percent electronic, and is accessible by any web browser, via both desktop and mobile device. The collection is sent to AARO once the respondent clicks the "Submit" button on the website. No other communications are sent to the respondents that solicit responses. The Office of the Secretary of Defense Public Affairs will notify the public when AARO's contact form is available for use.

Information, including PII, collected from the public will be processed and stored in an electronic environment accredited to handle and secure PII. AARO will then review

submitted information to prioritize potential oral history interviews of persons so that they might make an authorized report. The end result of the information collection is the successful ability of individuals to contact AARO, provide a report, and contribute to the HRR, and for AARO to meet its statutory requirements.

3. Use of Information Technology

Responses will be collected entirely by electronic means via AARO's website at www.aaro.mil. Information will be entered into text fields and with the use of drop-down menus prior to being submitted to AARO electronically. A screenshot of the proposed form is included, although the visual depictions of the information collection fields may differ upon publication, dependent upon the backend computer application used to appropriately collect PII. Regardless of the backend application and secure environment, the information collected will not change and the drop-down menus will remain for ease of use by the public.

4. Non-duplication

The information obtained through this collection is unique and is not already available for use or adaptation from another cleared source.

5. Burden on Small Businesses

This information collection does not impose a significant economic impact on a substantial number of small businesses or entities.

6. Less Frequent Collection

This is a one-time information collection per respondent, and thereby, infrequent.

7. Paperwork Reduction Act Guidelines
