

# Device Correction/Removal Report for Industry

Paperwork Reduction Act Disclosure Notice

This form is intended to facilitate the reporting requirements of 21 CFR Part 806 concerning corrections or removals of medical devices by industry. Federal collections of information, including forms, are governed by the Paperwork Reduction Act (44 U.S.C. 3501 et seq.) and its implementing regulations (5 CFR 1320). An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a valid OMB control number. The time required to complete this information collection is estimated to average 10 hours per response. Send comments regarding this burden estimate or any other aspects of this collection of information, including suggestions for reducing burden to [PRASStaff@fda.hhs.gov](mailto:PRASStaff@fda.hhs.gov).

## [Form Instructions]

To facilitate your recall, we have included the link to our "Recalls, Market Withdrawals & Safety Alerts" web page. This link is intended to provide guidance and instruction to FDA regulated industry regarding product recalls: <https://www.fda.gov/safety/recalls-market-withdrawals-safety-alerts>.

21 CFR Part 806 requires manufacturers and importers to notify FDA of certain device corrections and removals actions. We recommend these be reported to your Division Recall Coordinator electronically. Please also submit the draft letter and recall strategy prior to initiation. It is recommended to not wait until all information is completed, but to submit this information as soon as possible. This "early" notification will allow FDA the opportunity to review and comment on your written notification and to offer guidance and assistance in your recall process.

## Event Information

Identify Reason for Recall

Firm Awareness Date  Recall Initiation Date

Please enter the Minimum and Maximum Manufactured and Distribution Dates below.

Manufactured Dates From  To   Check if product is still being manufactured.

Distribution Dates From  To   Check if product is still being distributed.

How was the problem discovered?  
If discovery was through testing, please provide copies of the analysis.

Any reported illness or injury?  Yes  No

If yes, describe the types of injuries and provide MDR number.

Did you conduct a Health Hazard Evaluation (HHE)? If so, please include a copy.  Yes  No

# Event Information Cont'd

Provide details if you have determined a root cause for the problem.

Number of complaints received (provide copies)

MDR Submitted? (provide copies)  Yes  No

If so, how many: Deaths?

Injuries?

Malfunctions?

Other?

Report of Corrections and Removal number  
 ([Registration # or FEI]/mmddyyyy/RorC/#####)

What criteria did you use to establish the scope of the recall?

## Distribution Details

Please provide a complete listing of all locations where this product was sent to.

- Please include the following information in Microsoft Excel (each in its own cell): Customer name/ physical address/ city/ state / zip code /telephone (please avoid duplicate consignee locations)
  - Please separate foreign and domestic consignees
  - Please separate Military and Government consignees

Please fill in the box below as to the number of Government consignees. If no Government consignees indicate None.

Government/ DoD  
 Addresses / Comments

Please fill in the box below with the Distribution Pattern, such as states and countries the product was distributed too.

Distribution Details

# of Domestic Consignees

# of Foreign Consignees

Please fill in the table below as to the number of each type of consignee, for U.S. only, including Government consignees.

Consignees	Approx. Number	Consignees	Approx. Number	Consignees	Approx. Number
Distributor	<input style="width: 100%;" type="text"/>	Physician	<input style="width: 100%;" type="text"/>	Department of Defense	<input style="width: 100%;" type="text"/>
Retailer	<input style="width: 100%;" type="text"/>	Consumer/Patient	<input style="width: 100%;" type="text"/>	Manufacturer	<input style="width: 100%;" type="text"/>
Institution	<input style="width: 100%;" type="text"/>	Re-packer / Relabeler	<input style="width: 100%;" type="text"/>	USDA	<input style="width: 100%;" type="text"/>
Medical Facility	<input style="width: 100%;" type="text"/>	Direct Accounts	<input style="width: 100%;" type="text"/>	Other	<input style="width: 100%;" type="text"/>
Internet Sales	<input style="width: 100%;" type="text"/>	Veterans Administration	<input style="width: 100%;" type="text"/>		

# Event Information Cont'd

## Recall Strategy

Indicate the customer level to which you are extending the recall.(i.e. wholesale, hospital, retail, consumer, etc. )

If your recall only extends to the wholesale/distributor level, please justify.

Indicate the method of notification (i.e. mail, phone, facsimile, e-mail, letter, visit).

Indicate the date the notification was first issued. It is advisable to include a written notification, so customer will have a record of the recall and your instructions.

If letters will be sent, indicate how letters will be sent to customers (e.g. overnight mail, first class mail, certified mail, facsimile), and whether a third-party recall company is being used (provide name and address of third party)

Indicate the date you notified specific consignees, if different from the notification date.

### Instructions:

- If initial notification is by phone, you must provide a copy of the phone script to FDA and the date(s) that notification was attempted and/or achieved.
- If you have a web site, you should consider posting the recall notifications on the web site as an additional method of recall notification. (Note: This is not recommended as a sole means of customer notification.)
- Please attach a copy of your customer notification.

Report on what you have instructed customers to do with the recalled product.

How are you determining if the recall is effective? What effectiveness checks are you conducting?

NOTE: Effectiveness checks are your means of evaluating the effectiveness of your recall. If your effectiveness checks indicate that the recall notification was not received, read and/or instructions followed, then you should take necessary steps to make the recall effective. These steps may involve sending out a follow up notification that better identifies the product, better explains the problem and/or provides better instructions to customers.

How are you planning on following up with customers who do not respond?

Determine and provide your course of action for out-of-business distributors.

If the product is to be "reconditioned" or corrected, provide details of the reconditioning or correction plan and seek concurrence by your FDA Recall Coordinator prior to implementation.

# Event Information Cont'd

What are you planning to do with any returned product?

How are you going to store it?

What is the destruction plan? Provide the details (date, method, and location) prior to destruction in the event FDA would like to witness the action.

What preventative measures have you taken or are planning to take to prevent this event from occurring again? Please provide a copy of the final CAPA

## Press Releases

- In a situation where the product may pose a significant health hazard and recalled product is in the hands of consumers, a press release is usually appropriate.
- If a press release was issued or will be issued, please submit a copy.
- Issuance of a press release should be the highest priority and it should be issued promptly.
- Unique situations will be handled on a case-by-case basis.

\*You should consult with your respective Recall Coordinator before issuance of a press release whenever possible.

\*Submit press release to an appropriate newswire that will reach all intended consumers.

\*\*For example: The AP- send the press release in the body of an email (no attachments) to [info@ap.org](mailto:info@ap.org)

NOTE: For those recalls where FDA believes a Press Release is warranted, the Agency may issue a Press Release if the firm has failed to do so, or if the firm-initiated press release is not adequate.

If not issuing press release, please submit justification.

# Product Information

Include a complete copy of all labeling (preferably in color and .jpeg format) as well as product inserts and any information sheets for all products being recalled.

*For Product Identifying Codes please include all applicable elements: UDI, GTIN, Lot Numbers, Serial Numbers, Software Revisions, Expiration Date. Whatever distinguishes the recalled product from product that is good. If you say, "all lots," differentiate the recalled product from future production (all lots up to ### or date). Please format in the following manner: Model No XXXXX; UDI-DI XXXXXXXXX; Lot Numbers/Serial Numbers 000000, 111111, etc.*

Product Identifying Code(s)

Expected Life

Shelf Life

Indication of Use

510K/PMA Number

Is product sterile?  Yes  No

Is this a tracked device?  Yes  No

Is product controlled by software?  Yes  No

Is this an implantable device?  Yes  No

Total Quantity Manufactured (eaches only)

Manufactured Dates

From

To

Check if product is still being manufactured.

Product Quantity Distributed (eaches only)

Distribution Dates

From

To

Check if product is still being distributed.

Amount of Product Quarantined

# Product Information

Include a complete copy of all labeling (preferably in color and .jpeg format). Include product inserts and any information sheets for all products being recalled.
