### FDA CFSAN IFTRACK II Wireframes

### WF.IFTRACK II.1A\_90Days SubmissionType

Purpose: To initiate a new Submission , manufacturer will select Submission Type first

 Different fields will be displayed based on the Submission type selected.

The wireframe shows a web browser window titled "FDA Infant Formula Tracking System". The address bar contains "http://". Below the browser window is a navigation bar with three tabs: "New Submission" (selected), "Pending Submission(s)", and "Manage Profile". A help icon (?) is on the right. The main content area features a "Submission Type" dropdown menu with a callout "1" next to it. The dropdown is open, showing options: "90 days", "90 days/Export BFP", "Amendment", "Information Letter", and "Verification". To the left of the dropdown is a vertical list of submission types: "Submission Type", "Product Info/Processing", "Ingredients", "Assurance Statements", and "Exemption Requests". At the bottom right of the form are "Cancel" and "Next" buttons. A status bar is at the very bottom.

FDA CFSAN IFTRACK II Wireframes

WF.IFTRACK II.2B\_90 days\_Exempt\_Processing

Purpose: To enter product and ingredients information.

- 1. The user will be able to add multiple Manufacturing Plants
- 1. The user will be able to add multiple Products for each Manufacturing Plant.
- The user will be able to add multiple Physical forms for each Product.
- The user will be able to add multiple Containers for each Physical Form.
- 2. The user will be required to enter Proposed Product Name if Product Name Change is selected.
- 3. 1. The following values for IF Description are hidden if Non-Exempt is selected for Domestic Category :  
 Amino Acid  
 Carbohydrate free  
 Human Milk Supplement  
 Hypoallergenic  
 In-hospital preterm  
 Metabolic  
 Post -hospital preterm  
 2. The user will be able to add more than one value under IF Description field.
- 4. 1. The user will be able to add more than one value under IF Explanation field.  
 2. The user will be able to select the following values for 90 Days (Exempt) IF Explanation:  
 New Infant formula (new to market)  
 New Form  
 Major Formulation Changes  
 New manufacturer  
 New plant  
 New contractor plant  
 Major processing change  
 Major packaging change  
 Medical condition changes  
 Other  
 - Non major processing change  
 - Non-major packaging change  
 - Non-major reformulation  
 - Label/labeling changes  
 3. IF Explanation/Other will only be displayed as a selection if any other/primary value for IF Explanation has been selected.
- 5. The user will be required to enter Distributor Name if Distributor Change has been selected.
- 6. 1. Type of Processing Change is only required if Major processing change and/or Non Major processing change are selected for 90 days/IF Explanation.  
 2. The user will be able to add more than one value under Type of Processing Change field.
- 7. The user will be required to add either Processing comments or Processing documentation if Major processing change and/or Non Major processing change is selected for all submission types.
- 8. The user will be required to add either Packaging comments or Packaging documentation if Major or Non-major packaging change is selected for IF Explanation. For other IF Explanation types the selection will be optional.
- 9. Retail Availability field is required if Exempt is selected for Domestic Category.
- 10. 1. The user will be required to add Medical Condition comment or documentation for Exempt IF.  
 2. The user will be required to add Rationale comment or documentation for Exempt IF.  
 3. The user will be required to add Labeling comment or attachment for Exempt IF.  
 4. The user will be able to attach multiple documents under each category of documents: Medical Condition, Rationale, Labeling
- 11. The user will be required to enter processing, packaging information and quantitative formulation if New infant formula (new to market) or New form are selected for IF Explanation.  
 The user will be required to enter processing information if New manufacturer , New plant, New Contractor Plant are selected for IF Explanation.

### WF.IFTRACK II.3B\_Processing\_SubmissionRef#

Purpose: To enter Submission Reference Number if Packaging/Processing information has been already provided in the previous Submission

- 1 Submission Ref # field is required if the user selects Current Packaging or Current Processing option.
- 2 The user will be able to add more than one Submission Reference Number.

The wireframe depicts a web browser window titled "FDA Infont Formula Tracking System". The address bar shows "http://". A modal dialog box titled "Submission Reference Number" is centered on the screen. The dialog contains the instruction "Enter Submission Reference Number" and a text input field labeled "\*Submission Ref #". A yellow callout '1' points to this input field. Below the input field are three buttons: "Cancel", "Save", and "Add Another". A yellow callout '2' points to the "Add Another" button. The browser window also features standard navigation icons (back, forward, stop, home) and a search icon in the address bar.

### FDA CFSAN IFTRACK II Wireframes

### WF.IFTRACK II.3A\_Processing\_AddNewPhysicalForm

Purpose: To enter additional Physical form(s) for the same product

The screenshot shows a web browser window titled "FDA Infant Formula Tracking System". The browser's address bar contains "http://". A modal dialog box titled "Physical Form" is open, containing the following fields and controls:

- \*Physical Form: Powder (dropdown menu)
- Container Quantity: 0.80 (text input)
- Packaging Type: Can (dropdown menu)
- Shelf Life: 12 months (dropdown menu)
- Unit: Oz (dropdown menu)
- Buttons: Cancel, Save, Save and Add Another

FDA CFSAN IFTRACK II Wireframes

---

**Exemption Requests for Normal Physical growth**

106.121(b); 106.96 (c)(1): Exemption Request 1 for Normal Physical growth 4

Changes made by the manufacturer to an existing infant formula are limited to changing the type of packaging of an existing infant formula (e.g., changing from metal cans to plastic pouches)

Documentation [Upload](#) 3 Comments

106.121 (c); 106.96 (c)(2)(i): Exemption Request 2 for Normal Physical growth 5

The alternative method or study design based on sound scientific principles is available, and data demonstrate that the formula supports normal physical growth in infants when the formula is fed as the sole source of nutrition

Documentation [Upload](#) Comments

106.121 (d); 106.96 (c)(2)(ii) : Exemption Request 3 for Normal Physical growth

The change made by the manufacturer to an existing formula does not affect the ability of the formula to support normal physical growth

Documentation [Upload](#) Comments

106.121 (d); 106.96 (c)(2)(iii): Exemption Request 4 for Normal Physical growth 7

The manufacturer markets a formulation in more than one form (e.g., liquid and powdered forms) and the quality factor requirements are met by the form of the formula that is processed using the method that has the greatest potential for adversely affecting nutrient content and bioavailability.

Documentation [Upload](#) Comments

---

### FDA CFSAN IFTRACK II Mockups

### WF.IFTRACK II.3B\_Processing\_SubmissionRef#

Purpose: To enter Submission Reference Number if Packaging information has been already provided in the previous Submission

- 1 Submission Ref # field is required if the user selects Current Packaging option.
- 2 The user will be able to add more than one Submission Reference Number.

The mockup shows a browser window with the title 'FDA Infant Formula Tracking System'. The address bar contains 'http://'. A dialog box titled 'Submission Reference Number' is open, containing the text 'Enter Submission Reference Number'. Below this is a text input field labeled '\*Submission Ref #' with a callout '1' pointing to it. At the bottom of the dialog box are three buttons: 'Cancel', 'Save', and 'Add Another', with a callout '2' pointing to the 'Add Another' button.

### FDA CFSAN IFTRACK II Mockups

### WF.IFTRACK II.3A\_Processing\_AddNewPhysicalForm

Purpose: To enter additional Physical form(s) for the same product

The screenshot displays a web browser window titled "FDA Infant Formula Tracking System". The address bar shows "http://". A dialog box titled "Physical Form" is open, containing the following fields:

- \*Physical Form: Powder (dropdown menu)
- Container Quantity: 0.80 (text input) Oz (dropdown menu)
- Packaging Type: Can (dropdown menu)
- Shelf Life: 12 months (dropdown menu)

At the bottom of the dialog box, there are three buttons: "Cancel", "Save", and "Save and Add Another".

### FDA CFSAN IFTRACK II Mockups

### WF.IFTRACK II.4E\_90Days\_Export\_Ingredients

Purpose: To enter ingredients information.

- 1. Ingredient Changes section will be required if Major Reformulation or Non major reformulation has been selected for IF Explanation on 90 days Non-Exempts, BFP Non-Exempts or Exports submissions.
- 2. Ingredient Changes section will be optional if Major Reformulation or Non major reformulation has been selected for IF Explanation on 90 days Exempts or BFP Exempts submissions.
- 2. The user will be required to add Description of IF Reformulation if major or non-major reformulation is selected for IF explanation for all 90 days Exempt/Non-exempt and BFP Exempt/Non-exempt submissions.
- 3. 1. The user will be required to select Ingredient, Current and Proposed Quantity if Increase or Decrease are selected for Ingredient Change.  
2. The user will be required to select Ingredient and Proposed Quantity if New is selected for Ingredient Change.  
3. The user will be required to select Ingredient and Current Quantity if Removed is selected for Ingredient Change.  
4. The user will be required to select Ingredient, Current and Proposed Quantity, Current and Proposed Ingr. Supplier if Supplier Change is selected for Ingredient Change.
- 4. 1. The user will be required to upload Quantitative Formulation for all Exempt, 90 days Non-Exempt and Export submissions.  
2. For BFP Non-Exempt submissions the user will be required to upload Quantitative Formulation or enter Submission Ref # .

- 2 If the user selects "Same processing as previous product in the current submission" for Processing/packaging field, processing information will be automatically populated for the next product.  
If the user selects "Same packaging as previous product in the current submission" for Processing/packaging field, packaging information will be automatically populated for the next product.

The screenshot shows a web browser window titled "FDA Infant Formula Tracking System". Inside the browser, a dialog box titled "Add Another Product" is open. The dialog box has a close button (X) in the top right corner. It contains two main input fields:

- Product Name:** A dropdown menu with the text "-Select" and a downward arrow. A yellow circle with the number "1" is placed over this dropdown.
- Processing/packaging:** A dropdown menu with three options: "Same processing as previous product in the current submission", "Same packaging as previous product in the current submission", and "Enter new product information". A yellow circle with the number "2" is placed over the first option.

At the bottom right of the dialog box, there are two buttons: "Cancel" and "Save".
