

State SSP Sample Cost Report: 2017-2018

ITEM	UNITS
Sealant Stations	
Dentlworks	8
Aseptico	0
Other Manufacturers	0
TOTAL SEALANT STATIONS	
Reusable Instruments	
Instrument sets	180
Sterilization	
Autoclave	1
Per year (ultrasonic cleaner, tray, utility gloves)	1
Per school event (spore testing kit)	307
Per day (sterilizer cleaner/ultrasonic cleaner solution)	900
Per child (instrument bag)	14523
TOTAL REUSABLE INSTRUMENTS	
Infection Control and Supplies	
Per year (eyewash station, Sharps container, kits*)	1
Per station (waterline testing, protective eyewear and bib clip)	1
Per operator (protective eyewear)	1
Per day (trash liners, hand-sanitizer and hand soap)	900
Per day per station (waterline treatment, evacuation system treatment)	900
Per day per operator (protective clothing)	900
Supplies for screening	14523
Supplies for sealants (in addition to screening costs)	7858
Disposable instruments	0
Sealant material	35561

Description

Number of children screened
Number of children with untreated decay
Number of children for whom Untreated Caries was answered validly
Number of children with Treatment Urgency = "Urgent Treatment"
Number of children with Treatment Urgency = "Restorative Care"
Number of children for whom Treatment Urgency was answered validly
Number of children with treated decay
Number of children for whom Treated Caries was answered validly
Number of children with treated or untreated caries
Number of children for whom Caries Experience was answered validly
Number of children with sealants present at baseline
Number of children for whom Sealants Present was answered validly
Number of children 7 years old with valid amount of 1M decay reported
Number of children 8 years old with valid amount of 1M decay reported
Number of children 9 years old with valid amount of 1M decay reported
Number of children 10 years old with valid amount of 1M decay reported
Number of children 11 years old with valid amount of 1M decay reported
Number of children 12 years old with valid amount of 1M decay reported
Number of children 13 years old with valid amount of 1M decay reported
Decayed or filled 1M among 7 year olds
Decayed or filled 1M among 8 year olds
Decayed or filled 1M among 9 year olds
Decayed or filled 1M among 10 year olds
Decayed or filled 1M among 11 year olds
Decayed or filled 1M among 12 year olds
Decayed or filled 1M among 13 year olds
Number of children sealed
Number of children with at least one sealant after the event
Number of first molars sealed
Number of second molars sealed
Number of other teeth sealed
Sealants retained among children with valid retention check
Sealants placed among children with a valid retention check
Number of children checked for retention regardless of how long after placement
