Form Approved
OMB No. 0923-0057
Exp. Date 09/30/2023

ATSDR estimates the average public reporting burden for this collection of information as 7 minutes response, including the time for reviewing instructions, searching existing data/information sources, gathering and maintaining the data/information needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a current valid OMB Control Number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Information Collection Review Office, 1600 Clifton Road NE, MS H21-8, Atlanta, Georgia 30333; ATTN: PRA (0923-0057).

ATSDR Site Impact Assessment Form

Each year, ATSDR reports information on the impact of our program to Congress. This information is also useful for describing the work of our program to other stakeholders and partners. For HQ sites, each site team (health assessor, health educator, regional office, team lead) will fill out a questionnaire for each document released in FY 2014 and later. For state documents, the TPO will work with the state coop staff to fill out the questionnaire. The reviewer selected in the last field will receive a copy of this form to review and approve. Please Contact Matt Sones with any questions.

Site Impact Information

Type of Document	Certified or Non-Certified Document
<input type="text"/>	<input type="text"/>
Document Title	Document Release Date
<input type="text"/>	2019-10-22
