

Supporting Statement A
Medicaid Disproportionate Share Hospital (DSH)
Annual Reporting Requirements
CMS-R-266 (OMB 0938-0746)

Background

This information collection request provides for the collection of hospital specific DSH payment information as required by section 1923(j)(1) of the Social Security Act (the Act). The collection of data will be submitted to CMS on an annual basis by each State.

This 2023 collection of information request is an Extension that proposes no changes other than updating our cost estimates based on more recent wage data.

Our Annual Report spreadsheet is unchanged.

A. Justification

1. Need and Legal Basis

The authorization for the DSH information collection is from Section 1001 of the Medicare Modernization Act.

Section 1923(j)(1) of the Act requires States to submit an annual report that includes the following:

- Identification of each DSH that received a DSH payment under the State's Medicaid program in the preceding fiscal year and the amount of DSH payments paid to that hospital in the same year.
- Such other information as the Secretary determines necessary to ensure the appropriateness of DSH payments.

2. Information Users

This information will be used by CMS and Congress to assess the utilization of the disproportionate share hospital program dollars.

3. Use of Information Technology

CMS recommends the State use a standard software spreadsheet package to compile the information before submitting the information to the regional offices.

4. Duplication of Efforts

This information collection does not duplicate any other effort and the information cannot be obtained from any other source.

5. Small Businesses

These requirements do not affect small businesses.

6. Less Frequent Collection

Failure of the State to submit this information will result in the State being out of compliance with section 1923(j)(1) of the Act.

7. Special Circumstances

There are no special circumstances that would require an information collection to be conducted in a manner that requires respondents to:

- Report information to the agency more often than quarterly;
- Prepare a written response to a collection of information in fewer than 30 days after receipt of it;
- Submit more than an original and two copies of any document;
- Retain records, other than health, medical, government contract, grant-in-aid, or tax records for more than three years;
- Collect data in connection with a statistical survey that is not designed to produce valid and reliable results that can be generalized to the universe of study,
- Use a statistical data classification that has not been reviewed and approved by OMB;
- Include a pledge of confidentiality that is not supported by authority established in statute or regulation that is not supported by disclosure and data security policies that are consistent with the pledge, or which unnecessarily impedes sharing of data with other agencies for compatible confidential use; or
- Submit proprietary trade secret, or other confidential information unless the agency can demonstrate that it has instituted procedures to protect the information's confidentiality to the extent permitted by law.

8. Federal Register Notice/Outside Consultation:

The 60-day notice published in the Federal Register on June 29, 2023 (88 FR 42074). No comments were received.

The 60-day notice published in the Federal Register on September 13, 2023 (88 FR 62796). Comments must be received by October 13, 2023.

9. Payment/Gift to Respondent

There is no payment/gift to respondent.

10. Confidentiality

The information submitted by a State is not of a proprietary nature. This information will be made available to the public.

11. Sensitive Questions

There are no sensitive questions associated with this collection. Specifically, the collection does not solicit questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private.

12. Burden Estimates

Wage Estimates

To derive average costs, we used data from the U.S. Bureau of Labor Statistics’ May 2022 National Occupational Employment and Wage Estimates for all salary estimates (http://www.bls.gov/oes/current/oes_nat.htm). In this regard, the following table presents BLS’ mean hourly wage, our estimated cost of fringe benefits and other indirect costs (calculated at 100 percent of salary), and our adjusted hourly wage. The wage is a comparable position to State employees likely responsible for completing and returning the templates.

National Occupational Employment and Wage Estimates

Occupation Title	Occupation Code	Mean Hourly Wage (\$/hr)	Fringe Benefits and Other Indirect Costs (\$/hr)	Adjusted Hourly Wage (\$/hr)
Financial Specialists, All Other	13-2099	40.18	40.18	80.36
Managers, All Other	11-9199	67.88	67.88	135.76

As indicated, we are adjusting our employee hourly wage estimates by a factor of 100 percent. This is necessarily a rough adjustment, both because fringe benefits and other indirect costs vary significantly from employer to employer, and because methods of estimating these costs vary widely from study to study. Nonetheless, we believe that doubling the hourly wage to estimate total cost is a reasonably accurate estimation method.

Collection of Information Requirements and Associated Burden Estimates

The information submitted by each State is required annually, beginning at the end of the first quarter of the fiscal year following the reporting period. It requires a submission of hospital specific payment data related to the disproportionate share hospital program. The submission of this data in an electronic spreadsheet format will take each State approximately 42 hours. Of the 42 hours we estimate it will take 21 hours \$135.76/hr for a manager and 21 hours \$80.36/hr for a financial specialist to collect, review, and report the payment data. In aggregate we estimate an annual burden of 2,142 hours (42 hr x 51 states) at a cost of \$231,465 ([1,071 hr x \$135.76/hr] + [1,071 hr x \$80.36/hr]).

Annual Burden Summary

State Respondent	No. Respondents	Total # of Responses	Time Per Response (hr)	Total Time (hr)	Labor Rate (\$/hr)	Total Cost (\$)
Manager	51	51	21	1,071	135.76	115,732.5
Financial Specialist	51	51	21	1,071	80.36	115,732.5
Total	51	51	42	2,142	Varies	231,465

Information Collection Instruments and Instruction/Guidance Documents

- Annual Report (No Changes)

13. Capital Costs

There should be no capital costs related to the collection of this data.

14. Cost to Federal Government

The information submitted by each State will be compiled and evaluated by an employee/contractor of the Federal government. The approximate amount of staff time utilized will be one half hour per State submission which will total 26 hours per annum staff time (51 State submissions x 0.5 hr). Wage levels would approximate \$35.38/hr, costing the government \$920 per annum (26 hr x \$35.38/hr) to compile and evaluate this data.

15. Changes to Burden

This 2023 collection of information request is an Extension that proposes no changes other than updating our cost estimates based on more recent wage data.

For “Financial Specialists, All Other” BLS’ hourly wage decreased by \$5.09/hr (from \$45.27/hr to \$40.18/hr). For “Managers, All Other” the hourly wage increased by \$10.81/hr (from \$57.07/hr to \$67.88/hr). When factoring in our adjustments for fringe benefits and other indirect costs, our cost estimate increased by \$12,252 (from \$219,212 to \$231,464).

Our Annual Report spreadsheet is unchanged.

16. Publication/Tabulation Dates

CMS is requesting the information be tabulated and submitted to the regional offices by the end of the first quarter of the Federal fiscal year following the reporting year.

17. Expiration Date

The date is on the annual report.

18. Certification Statement

There are no exceptions to the certification statement.

B. Collection of Information Employing Statistical Methods

N/A. This collection does not employ statistical methods.
