

# Current Flag Page in UC Portal

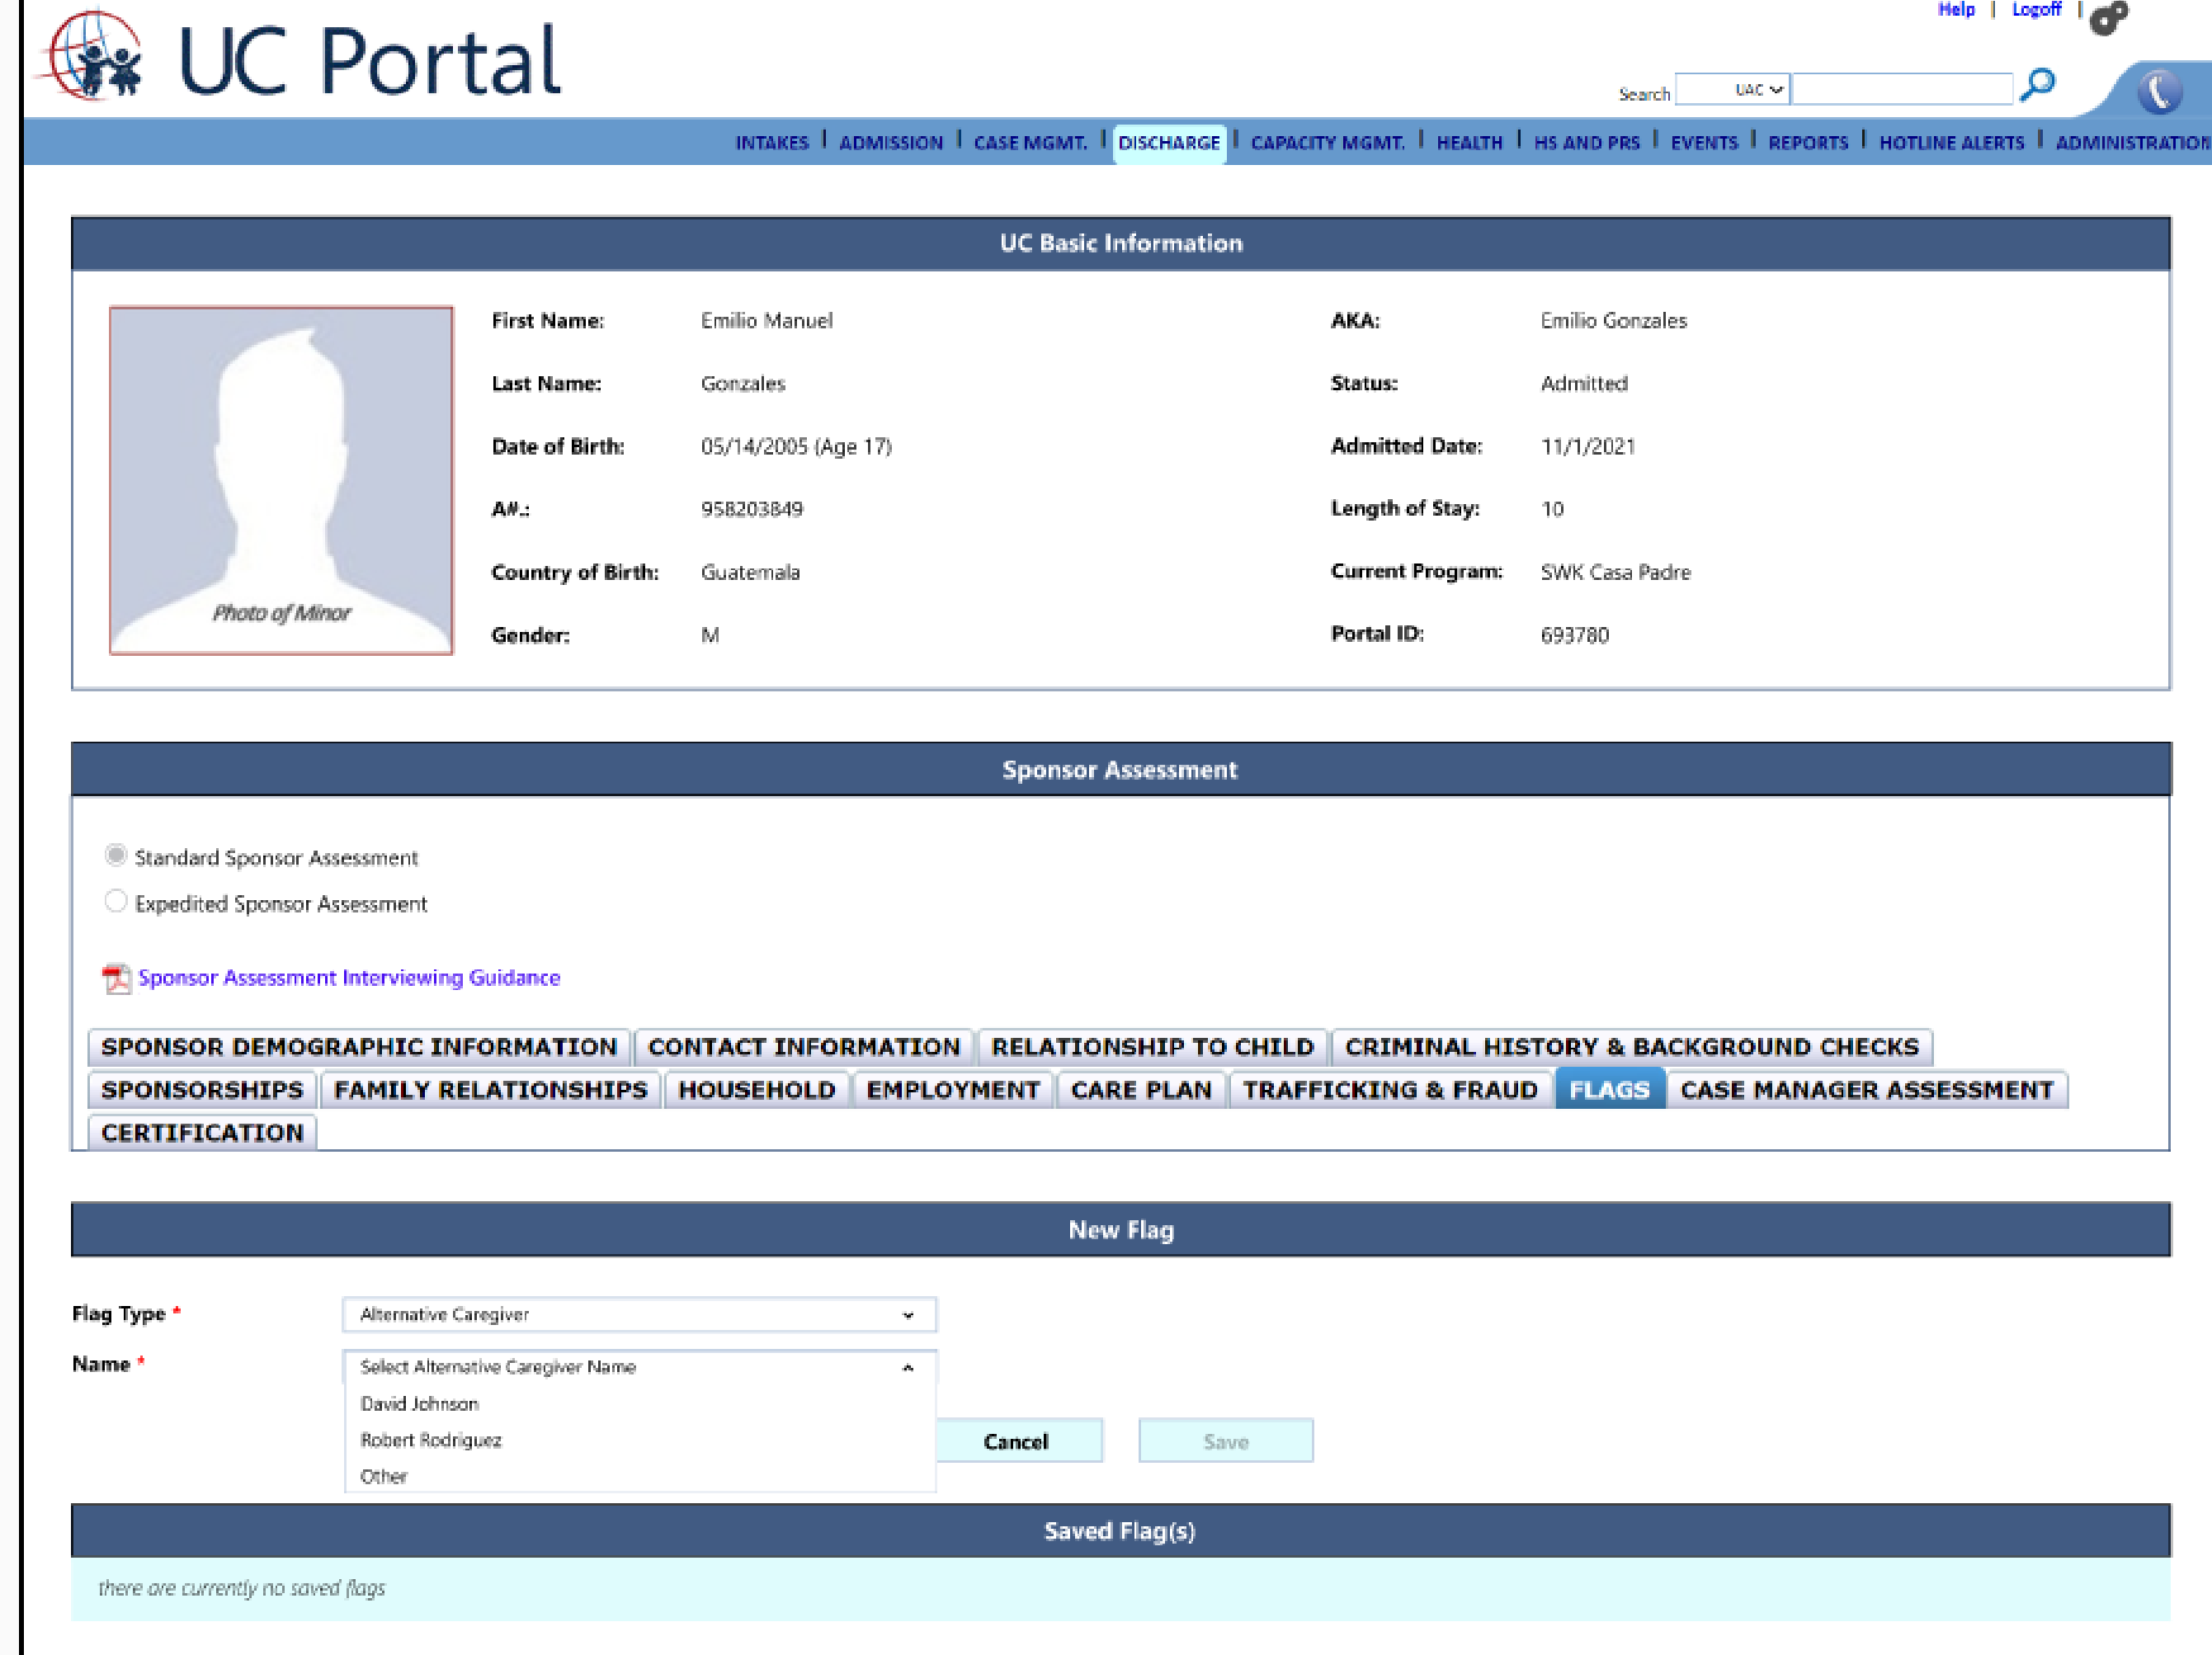

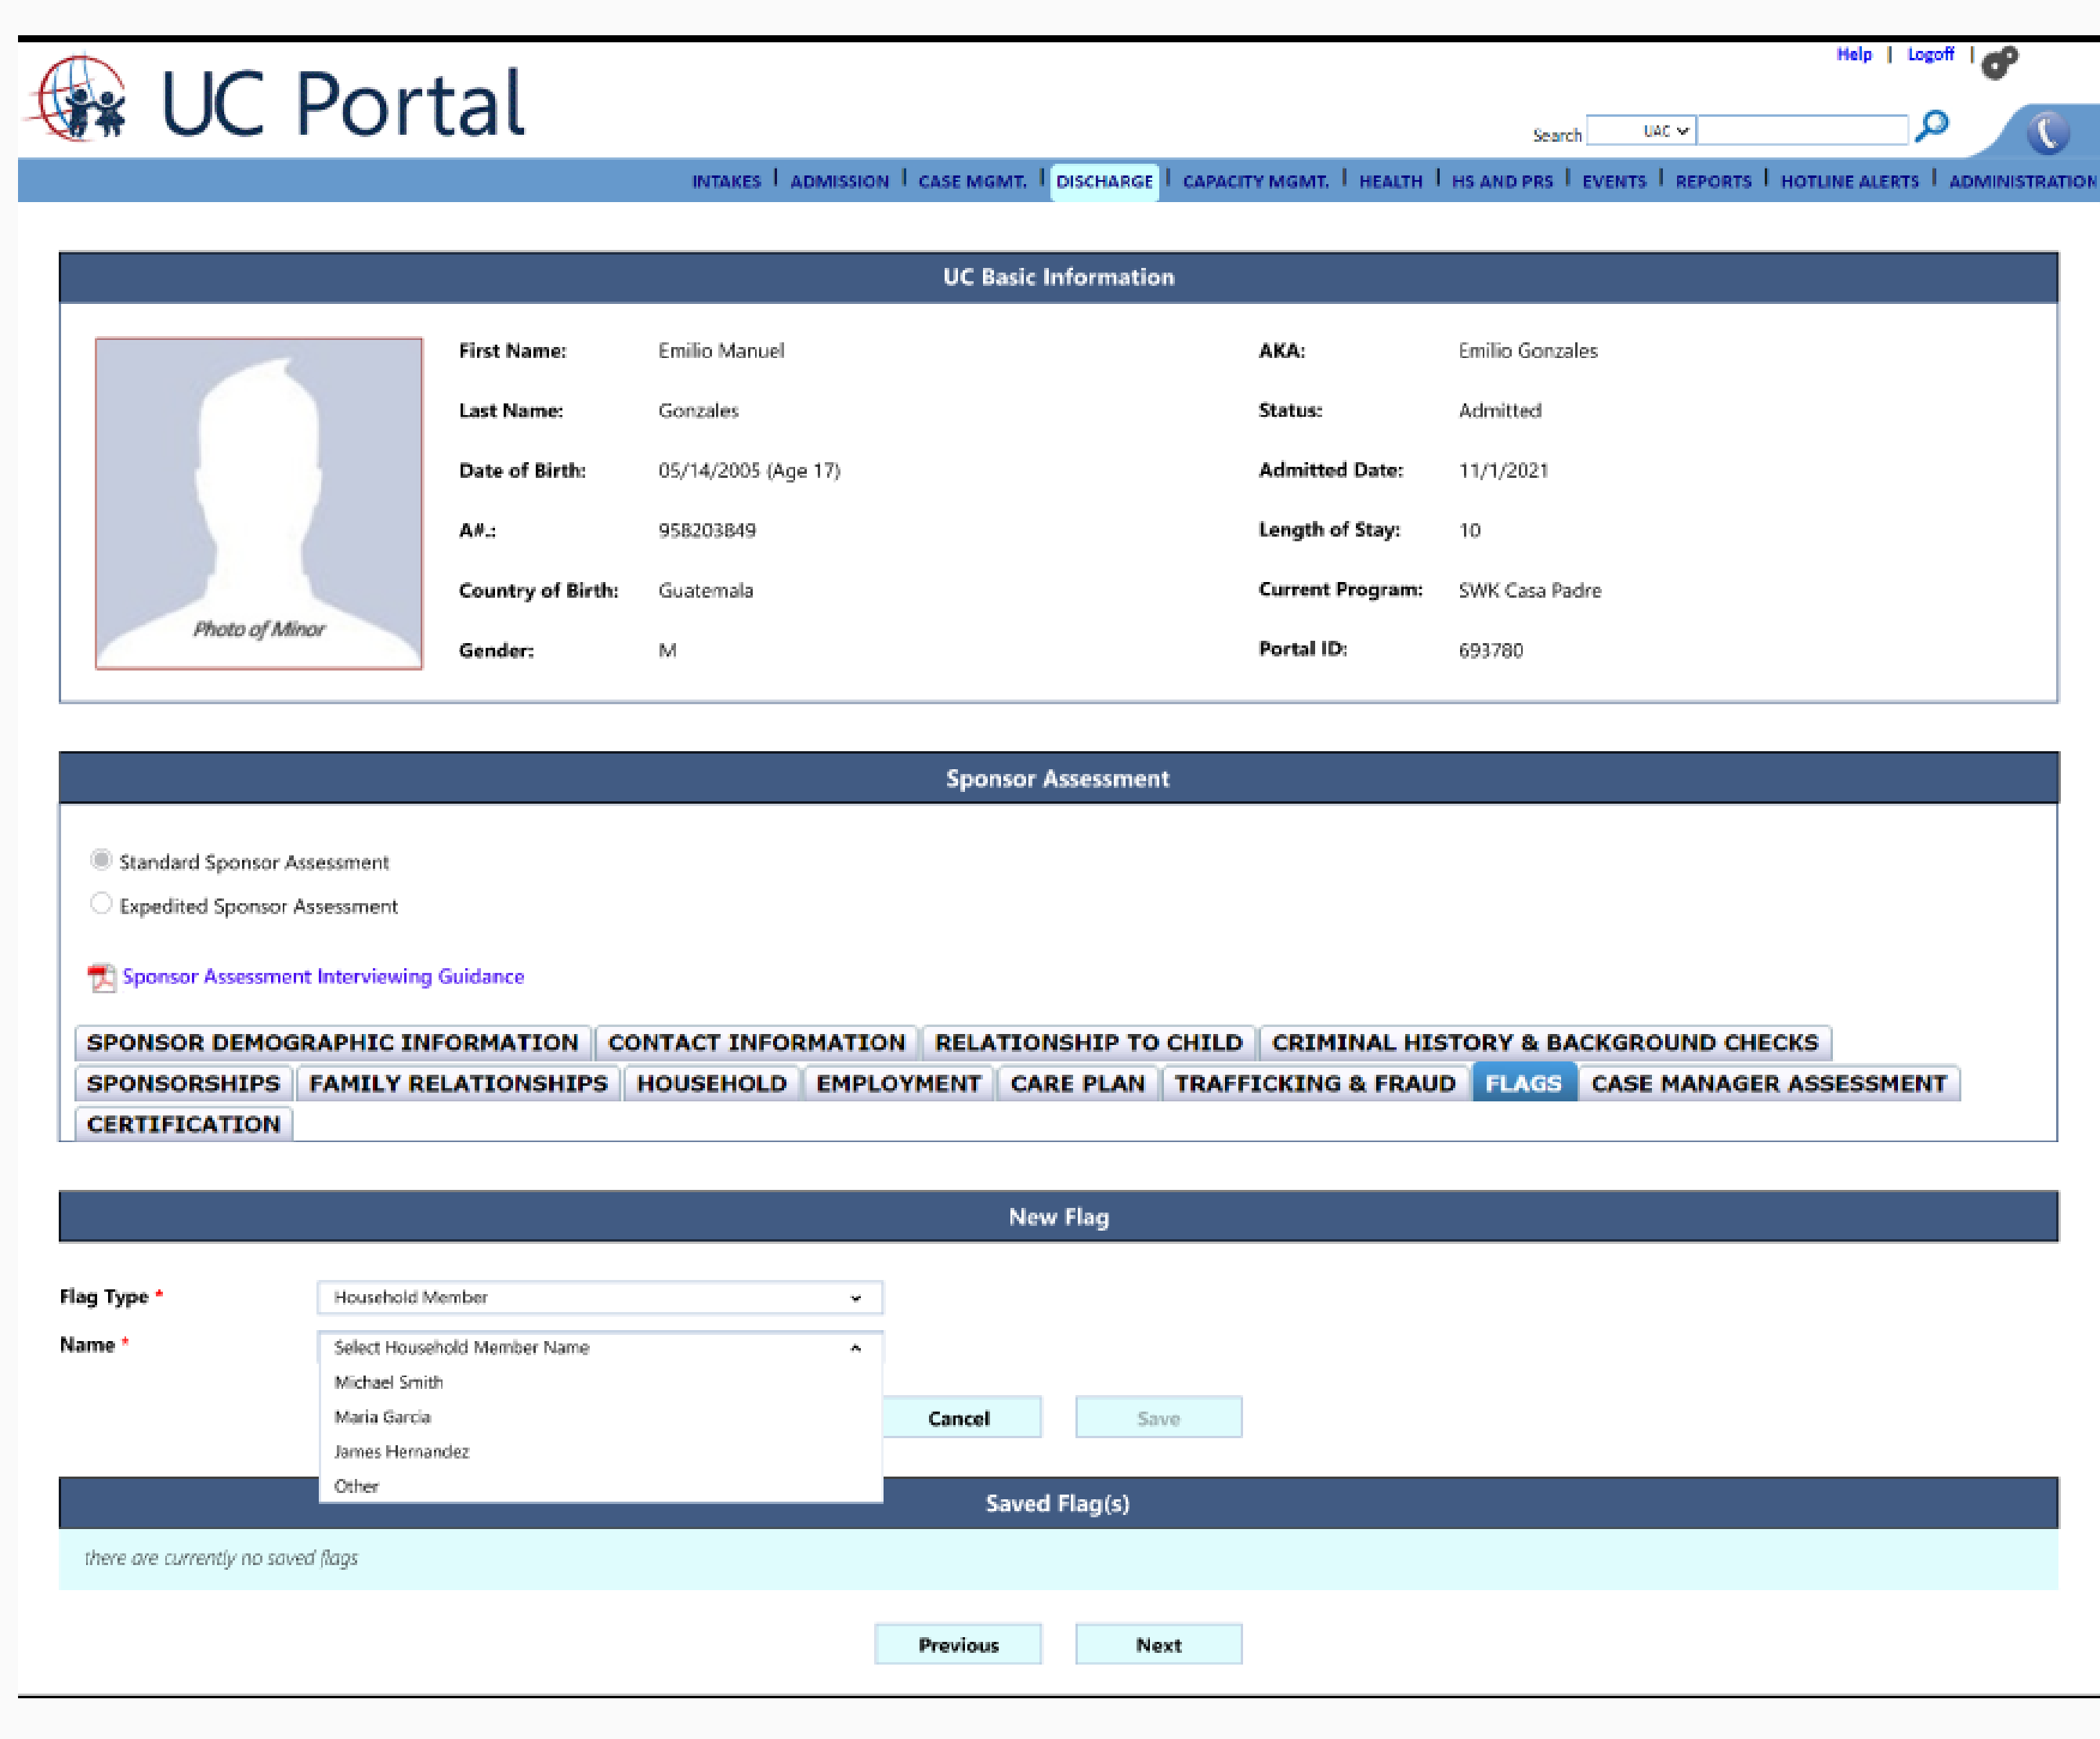

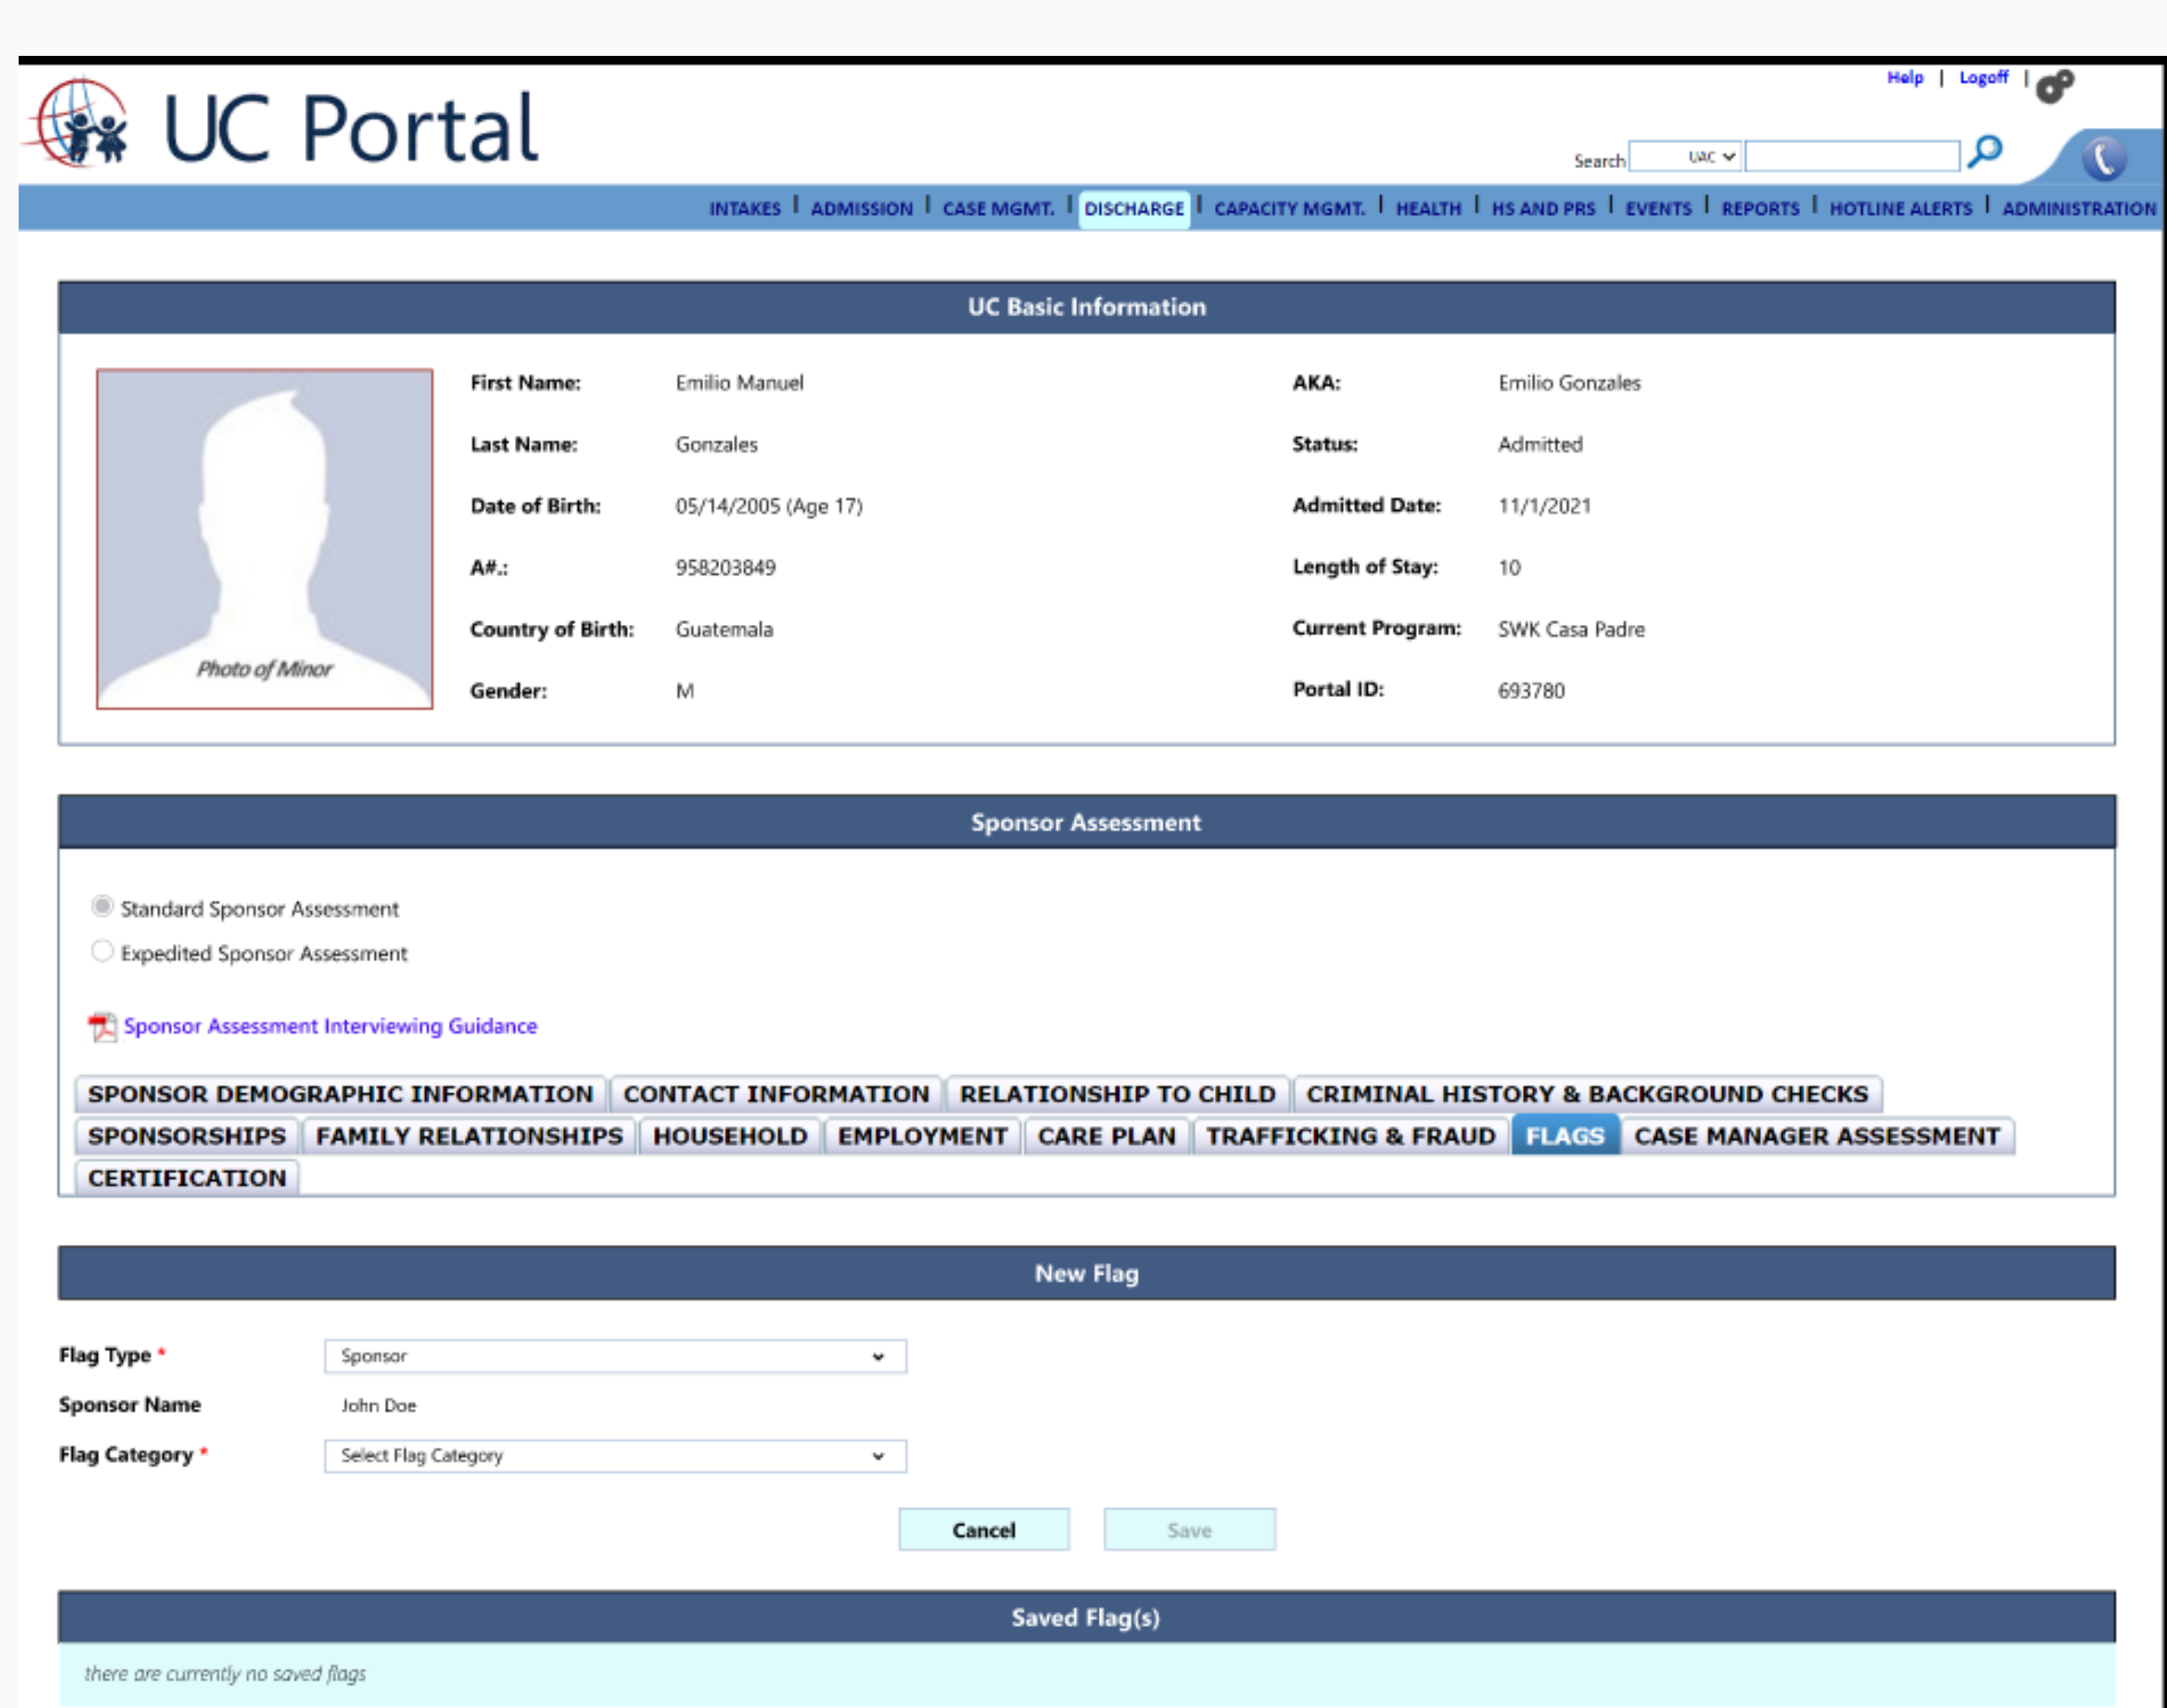

# Proposed Redesign of Flag Page

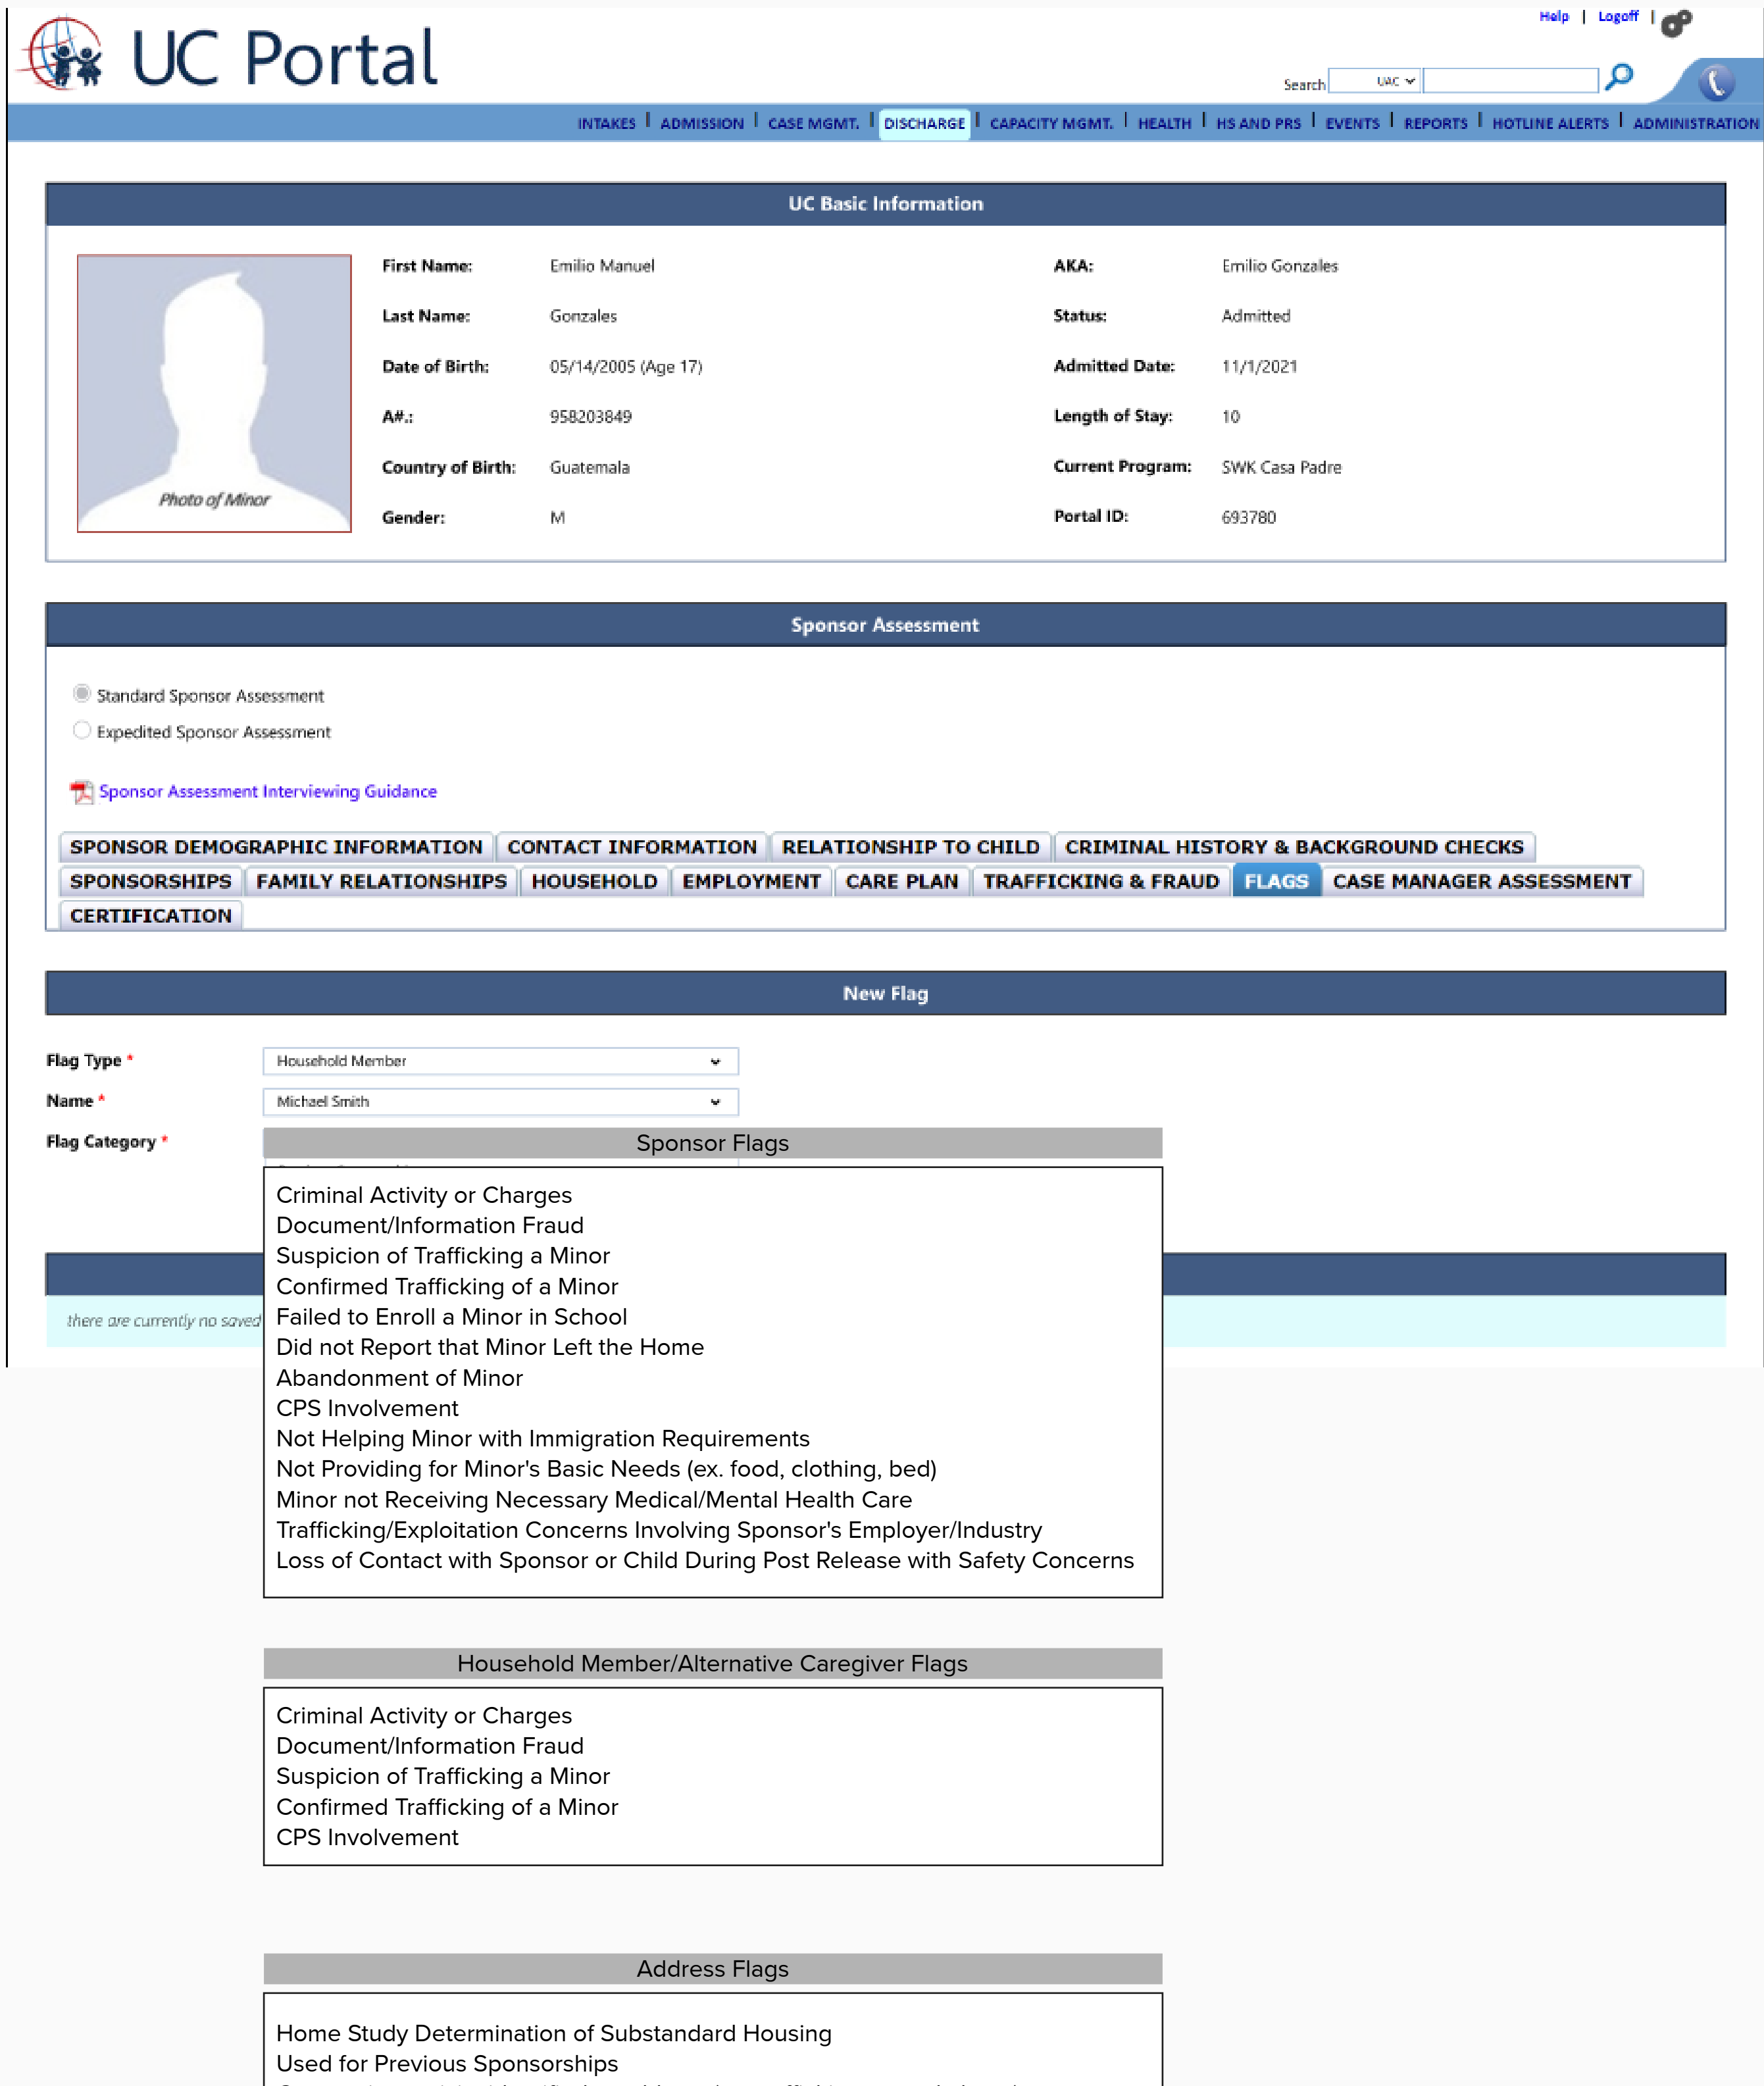

1 Ability to select a flag type: Sponsor, Household Member, Alternative Caregiver, Address

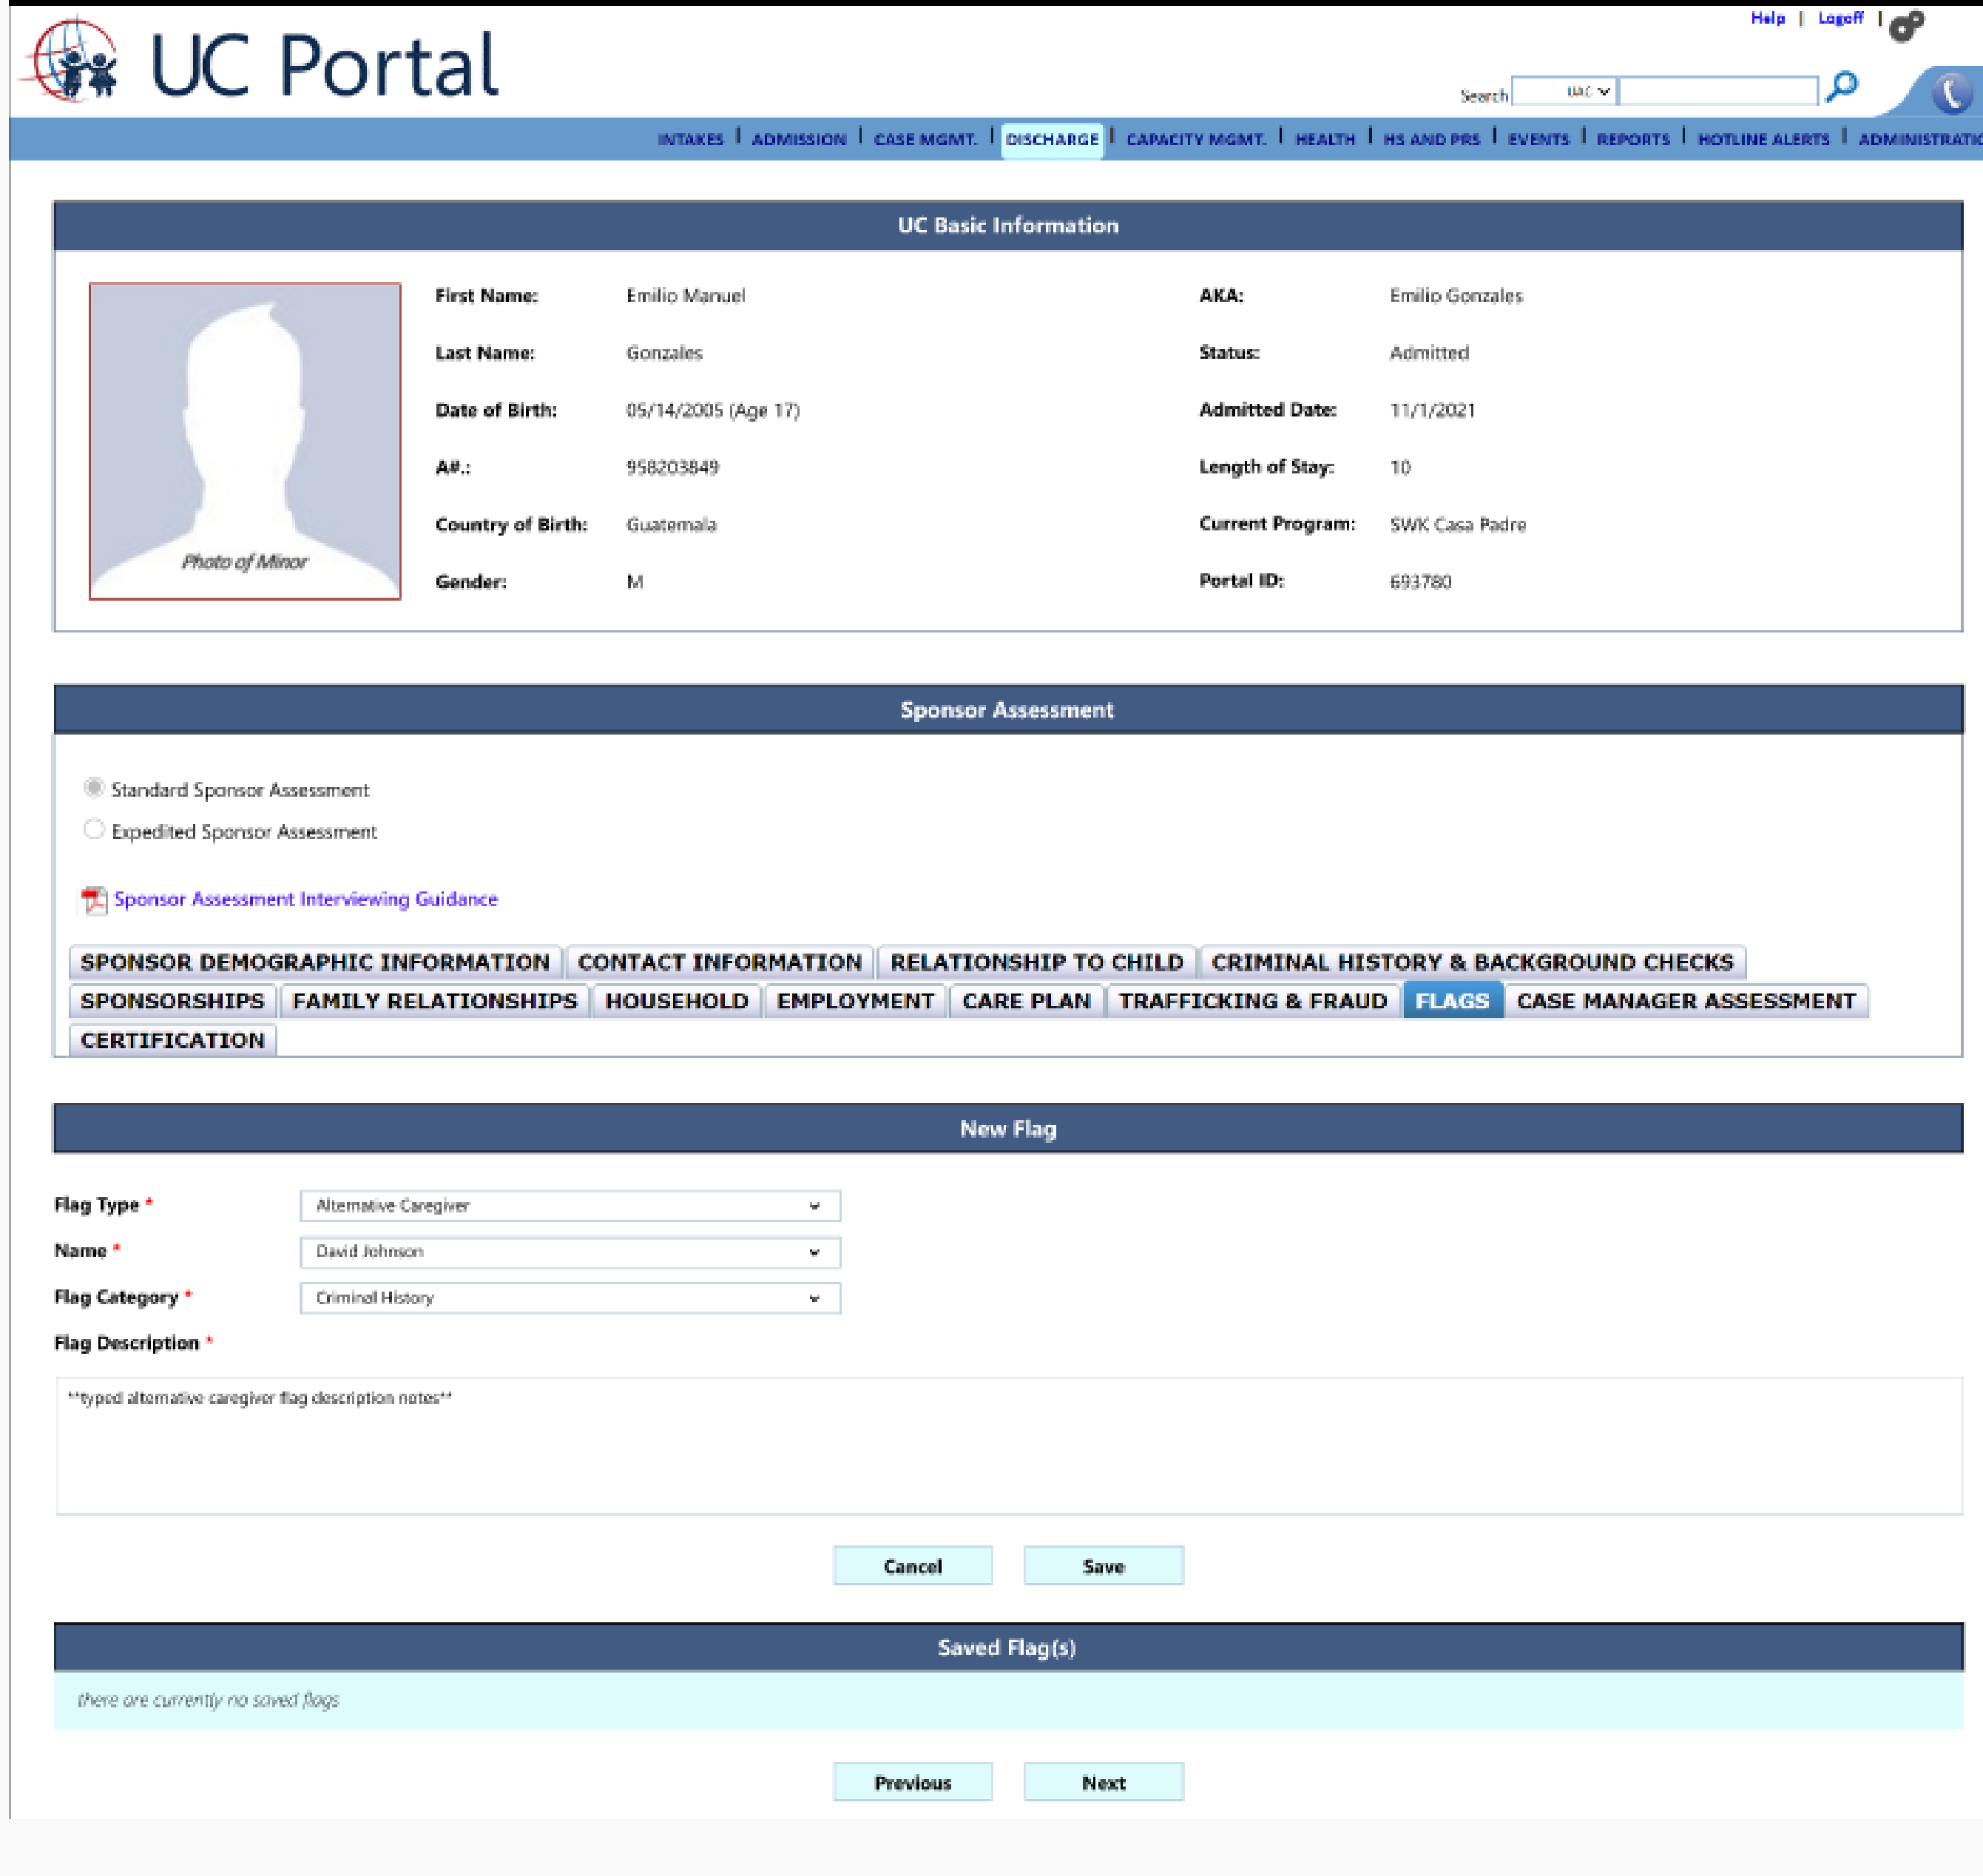

2 Ability to select the individual you are flagging (sponsor & address: auto-populates, household member and alternative care giver: drop down you can select from)

3 Ability to select a specific flag category, rather than just yes/no

4 Textbox for adding additional information/context about the flag

5 Ability to add multiple flags to an individual (could previously only flag once), can add additional comments to a flag that has already been saved
