

## Survey Invitation

---

This is the standard survey invitation. Default text is included. If you would like to modify this text please check with your analyst/client manager.

## Welcome and Thank You Text

---

The text you see here will appear at the top and bottom of your survey. Default text is included and you may modify this text as needed.

## Model Questions

---

As discussed during the kick-off call, the model questions are part of the ForeSee methodology. For consistency with the model, these questions are standardized and have been tested and validated. Standardization of model questions allows benchmarking across companies/industries, and these questions are used in calculating scores and impacts. Focus on the future behaviors; I've started with some that I believe are a good fit but we can certainly make adjustments. These are desired customer outcomes that are impacted by customer satisfaction.

## Custom Questions

---

When reviewing the custom questions tab, keep in mind these questions are used for segmentation analysis of the model data. It is suggested that you add, delete or change custom questions over time, as your needs or business objectives change.

## Making Changes

---

Simply make the change that you desire and highlight that change with a different color text. **Red** works well because it stands out.

If the change is "complicated" a brief explanation about what you would like to accomplish will help us understand your request and figure out the best way to implement. -Or- Just give us a call; talking through changes over the phone makes it quick and easy.
