DHS/USCIS also uses the records contained in the Benefits Information System (BIS) to prevent individuals from fraudulently obtaining immigration and naturalization benefits and to deny immigration and naturalization requests submitted by individuals who pose national security or public safety threats. The BIS may also be used in support of employee performance and production reporting purposes, as well as track an employee or contractor's workload and efficiency in processing a particular immigration request, managing workloads, and providing statistical analyses to USCIS leadership.

SUPPLEMENTARY INFORMATION:

I. Background

In accordance with the Privacy Act of 1974, 5 U.S.C. 552a, the Department of Homeland Security (DHS) U.S. Citizenship and Immigration Services (USCIS) proposes to modify and reissue a current DHS system of records titled, “DHS/USCIS–007 Benefits Information System.”

DHS/USCIS oversees lawful immigration and non-immigration to the United States and is responsible for the administration of immigration, non-immigration, and naturalization adjudication functions and for establishing many immigration policies and priorities. In executing its mission, DHS/USCIS performs functions that include the intake, review, and adjudication of the following types of benefits:

- (1) Family-Based;
- (2) Employment-Based;
- (3) Humanitarian-Based;
- (4) Adoption-Based; and
- (5) Citizenship and Naturalization-Based.

The BIS System of Records Notice (SORN) covers the processing of immigrant and nonimmigrant immigration-related requests.¹ The Secretary of Homeland Security also has the discretion to review and grant other types of immigration requests.² The BIS SORN is specific to USCIS’s collection, use, maintenance, dissemination, and storage of immigration-related request information, including case processing and decisional data.³ USCIS records case processing information, such as date the immigration related request was filed or received by USCIS, request status, location of record, other control number (when applicable), fee receipt data, status of USCIS appointments and interviews, date of issuance of a notice,

¹ This SORN covers all immigrant and nonimmigrant benefit requests, with the exception of requests for asylum, refugee, and intercountry adoption.

² For example, USCIS reviews applications for Deferred Action. Deferred Action is a discretionary determination to defer a deportation of an individual as an act of prosecutorial discretion. Deferred Action can be granted by USCIS or a federal immigration judge.

³ The Immigration Biometric Background Check SORN covers the background check process, while the Benefits Information System SORN covers the storage of background check results. See 83 FR 36950 (July 31, 2018).

and whether the request form was referred to the Fraud Detection and National Security Directorate for review. Decisional data such as an approval/denial code is also stored in BIS. Information within BIS may also be stored in an immigration file (such as an Alien File).⁴

DHS/USCIS is publishing this modified system of records notice to make several changes for transparency and to describe new initiatives. The purpose of this SORN has been expanded to track an employee or contractor’s workload and efficiency in processing a particular benefit request, managing workloads, and providing statistical analyses to USCIS leadership.

The categories of individuals covered by this SORN has been expanded to include prospective accredited representatives seeking to be recognized by the Board of Immigration Appeals, as well as add a new category to cover the collection, maintenance, and use of obligors (surety) and their agents.

New categories of records have been added relating to immigration requestors, which includes country of residence; credit scores and reports; public benefit application, receipt, and certification for receipt information; publicly available social media information and other publicly available information, which may be collected during the course of the benefit adjudication process. New categories of records have been added relating to attorneys and current and/or prospective representatives, which includes USCIS Online Account Number, other identifying numbers (e.g., Attorney Bar Number or equivalent), educational and training history, work history and qualifications, academic and professional achievements, and letters of recommendations. New categories of records have been added relating to bond obligors and their agents including name, identification number(s), contact information (including address, telephone number, email address), signature, and power of attorney. Biometric information and background check results have been removed from remove existing categories of records relating to immigration requestors, derivatives, and family members because they are covered under DHS/

⁴ The Alien File or A-File is the official record regarding the transactions of an individual as he or she passes through the U.S. immigration and inspection process. The Alien File contains information relating to immigration benefits processing, protection of national security, and administering and enforcing immigration and nationality laws and related statutes.

USCIS–018 Immigration Biometric and Background Check SORN.

DHS/USCIS–017 Refugee Case Processing and Security Screening Information SORN and DHS/USCIS–018 Immigration Biometric and Background Check SORN have been added as record source categories, and DHS/USCIS–002 Background Check Service SORN and DHS/USCIS–003 Biometric Storage System SORN have been removed as record source categories.

The routine use section of this SORN has been modified, including updating Routine Use E and adding Routine Use F to comply with requirements set forth by OMB Memorandum M–17–12, “Preparing for and Responding to a Breach of Personally Identifiable Information,” (Jan. 3, 2017); expanding Routine Use V to cover the sharing of information with the petitioning employers to aid in the approval or denial of request to become a permanent resident; updating Routine Use Z to replace Immigration Judge with Federal Judge; adding Routine Use BB for disclosure to government agencies for the purposes of testing new technology; adding Routine Use CC for disclosure to federal, state, local, and tribal public benefit granting agencies to ascertain whether public benefits have been issued to the benefit requestor; adding Routine Use DD for the disclosure to an individual or entity seeking to post or arrange bond; and adding Routine Use EE for the disclosure of petition outcomes to labor unions in instances in which USCIS approves or denies a petition submitted with a union consultation.

Finally, the retention schedules have been modified to reflect disposition schedule by form type and actions, and expand the retention of data in certain case management systems to up to 50 years.

Consistent with DHS’s information sharing mission, information stored in DHS/USCIS–007 Benefits Information System may be shared with other DHS Components that have a need to know the information to carry out their national security, law enforcement, immigration, intelligence, or other homeland security functions. In addition, DHS/USCIS may share information with appropriate federal, state, local, tribal, territorial, foreign, or international government agencies consistent with the routine uses set forth in this system of records notice.

Further, specifically, USCIS may share BIS information with DHS’s U.S. Immigration and Customs Enforcement (ICE) Financial Operations—Burlington regarding fees charged during the various immigration requests processes

to ensure collection of debts. The primary mission of the ICE Financial Operations—Burlington is to collect debts resulting from an individual's participation in DHS benefits programs. As such, through DHS's ICE Financial Operations—Burlington office, BIS information may be shared with credit reporting agencies.

This modified system will be included in DHS's inventory of record systems.

II. Privacy Act

The Privacy Act embodies fair information practice principles in a statutory framework governing the means by which Federal Government agencies collect, maintain, use, and disseminate individuals' records. The Privacy Act applies to information that is maintained in a "system of records." A "system of records" is a group of any records under the control of an agency from which information is retrieved by the name of an individual or by some identifying number, symbol, or other identifying particular assigned to the individual. In the Privacy Act, an individual is defined to encompass U.S. citizens and lawful permanent residents. Additionally, the Judicial Redress Act (JRA) provides covered persons with a statutory right to make requests for access and amendment to covered records, as defined by the JRA, along with judicial review for denials of such requests. In addition, the JRA prohibits disclosures of covered records, except as otherwise permitted by the Privacy Act.

Below is the description of the DHS/USCIS-007 Benefits Information System System of Records.

In accordance with 5 U.S.C. 552a(r), DHS has provided a report of this system of records to the Office of Management and Budget and to Congress.

DHS/USCIS maintains a replica of some or all of the data in application databases on DHS unclassified and classified networks to allow for analysis and vetting consistent with the above stated purposes and this published notice.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND PURPOSES OF SUCH USES:

Information in this system of records contains information relating to individuals who received benefit requests for special protected classes and should not be disclosed pursuant to a routine use unless disclosure is otherwise permissible under the confidentiality statutes, regulations, or policies applicable to that information. For example, information relating to individuals who received benefit requests for protection under the Violence Against Women Act, Seasonal Agricultural Worker or Legalization claims, the Temporary Protected Status of an individual, and information relating to nonimmigrant visas protected under special confidentiality provisions should not be disclosed pursuant to a routine use unless disclosure is otherwise permissible under the confidentiality statutes, regulations, or policies applicable to that information. These confidentiality provisions do not prevent DHS from disclosing information to the DOJ and U.S. Attorneys Offices as part of an ongoing criminal or civil investigation.

In addition to those disclosures generally permitted under 5 U.S.C. 552a(b) of the Privacy Act, all or a portion of the records or information contained in this system may be disclosed outside DHS as a routine use pursuant to 5 U.S.C. 552a(b)(3) as follows:

- A. To DOJ, including the U.S. Attorney's Offices, or other federal agencies conducting litigation or proceedings before any court, adjudicative, or administrative body, when it is relevant or necessary to the litigation or proceeding and one of the following is a party to the litigation or proceeding or has an interest in such litigation or proceeding:
1. DHS or any component thereof;
 2. Any employee or former employee of DHS in his/her official capacity;
 3. Any employee or former employee of DHS in his/her individual capacity, only when DOJ or DHS has agreed to represent the employee; or

D. To an agency or organization for the purpose of performing audit or oversight operations as authorized by law, but only such information as is necessary and relevant to such audit or oversight function.

E. To appropriate agencies, entities, and persons when (1) DHS suspects or has confirmed that there has been a breach of the system of records; (2) DHS has determined that as a result of the suspected or confirmed breach there is a risk of harm to individuals, DHS (including its information systems, programs, and operations), the Federal Government, or national security; and (3) the disclosure made to such agencies, entities, and persons is reasonably necessary to assist in connection with DHS's efforts to respond to the suspected or confirmed breach or to prevent, minimize, or remedy such harm.

F. To another federal agency or federal entity, when DHS determines that information from this system of records is reasonably necessary to assist the recipient agency or entity in (1) responding to a suspected or confirmed breach or (2) preventing, minimizing, or remedying the risk of harm to individuals, the recipient agency or entity (including its information systems, programs, and operations), the Federal Government, or national security, resulting from a suspected or confirmed breach.

G. To an appropriate federal, state, tribal, local, international, or foreign law enforcement agency or other appropriate authority charged with investigating or prosecuting a violation or enforcing or implementing a law, rule, regulation, or order, when a record, either on its face or in conjunction with other information, indicates a violation or potential violation of law, which includes criminal, civil, or regulatory violations, and such disclosure is proper and consistent with the official duties of the person making the disclosure.

H. To contractors and their agents, grantees, experts, consultants, and others performing or working on a contract, service, grant, cooperative

agreement, or other assignment for DHS, when necessary to accomplish an agency function related to this system of records. Individuals provided information under this routine use are subject to the same Privacy Act requirements and limitations on disclosure as are applicable to DHS officers and employees.

K. To appropriate federal, state, tribal, and local government law enforcement and regulatory agencies, foreign governments, and international organizations, as well as to other individuals and organizations during the course of an investigation by DHS or the processing of a matter under DHS jurisdiction, or during a proceeding within the purview of the immigration and nationality laws, when DHS deems that such disclosure is necessary to carry out its functions and statutory mandates to elicit information required by DHS to carry out its functions and statutory mandates.

L. To an appropriate federal, state, local, tribal, foreign, or international agency, if the information is relevant and necessary to a requesting agency's decision concerning the hiring or retention of an individual; issuance of a security clearance, license, contract, grant, or other benefit; or if the information is relevant and necessary to a DHS decision concerning the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant, or other benefit and when such disclosure is appropriate to the proper performance of the official duties of the person making the request.

M. To the Office of Management and Budget in connection with the review of private relief legislation as set forth in OMB Circular No. A-19 at any stage of the legislative coordination and clearance process as set forth in the Circular.

POLICIES AND PRACTICES FOR STORAGE OF RECORDS:

DHS/USCIS stores records in this system electronically or on paper in secure facilities, such as in a locked drawer or behind a locked door. The records may also be stored on magnetic disc, tape, and digital media.

POLICIES AND PRACTICES FOR RETRIEVAL OF RECORDS:

DHS/USCIS may retrieve records by using any of the data elements listed above or a combination thereof. This may include, but is not limited to, name, date of birth, Alien Number, SSN, USCIS Online Account Number, and Receipt Number.

POLICIES AND PRACTICES FOR RETENTION AND DISPOSAL OF RECORDS:

USCIS receives and adjudicates immigration request forms. Each form type is governed by a respective retention schedule and each form type's retention period is dictated by USCIS's final action on the form (e.g., approved, denied, abandoned, withdrawn, administratively closed, and rejected). Immigration request forms and supplemental documentation that constitute the official record of an individual's immigration history are stored in the individual's paper and/or electronic Alien File. The Alien File

records are permanent, whether hard copy or electronic. DHS/USCIS is eligible to transfer Alien Files to the custody of NARA 100 years after the individual's date of birth.

USCIS uses multiple case management systems for the processing, adjudication, and management of paper and electronically filed immigration request forms. Each case management system retains records in accordance with NARA-approved retention schedules. Generally, information is retained between 25–50 years from the last completed action. The duration of the NARA-approved retention schedules allows USCIS to address any follow-up inquiries or requests related to the immigration request form, including inquiries related to law enforcement, public safety, national security, and to FOIA and Privacy Act matters. These retention periods allow USCIS to provide as much information as possible to an individual regarding his or her immigration history.

Electronic notices and communications associated with an immigration request, to include Approval or Denial letters, Requests for Evidence, Notices of Intent to Deny, Appeal/Motion Responses, etc., are retained for 13 years after the last completed action with respect to the benefit.

Records of electronic appointments with USCIS are maintained for 60 days after the date of the appointment.

Daily reports generated by associated information technology systems are maintained in accordance with the general records retention schedule that permits USCIS to destroy reports when no longer needed.

Records replicated on the unclassified and classified networks for analysis and vetting will follow the same retention schedule.

ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS:

DHS/USCIS safeguards records in this system according to applicable rules and policies, including all applicable DHS automated systems security and access policies. USCIS has imposed strict controls to minimize the risk of compromising the information that is being stored. Access to the computer system containing the records in this system is limited to those individuals who have a need to know the information for the performance of their official duties and who have appropriate clearances or permissions.

RECORD ACCESS PROCEDURES:

Individuals seeking access to and notification of any record contained in

this system of records, or seeking to contest its content, may submit a request in writing or electronically to the Chief Privacy Officer or USCIS's FOIA Officer, whose contact information can be found at <http://www.dhs.gov/foia> under "Contact Information." If an individual believes more than one component maintains Privacy Act records concerning him or her, the individual may submit the request to the Chief Privacy Officer and Chief FOIA Officer, Department of Homeland Security, Washington, DC 20528–0655. Even if neither the Privacy Act nor the Judicial Redress Act provides a right of access, certain records may be available under the FOIA.

When an individual is seeking records about himself or herself from this system of records or any other Departmental system of records, the individual's request must conform with the Privacy Act regulations set forth in 6 CFR part 5. The individual must first verify his/her identity, meaning that the individual must provide his/her full name, current address, and date and place of birth. The individual must sign the request, and the individual's signature must either be notarized or submitted under 28 U.S.C. 1746, a law that permits statements to be made under penalty of perjury as a substitute for notarization. While no specific form is required, an individual may obtain forms for this purpose from the Chief Privacy Officer and Chief FOIA Officer, <http://www.dhs.gov/foia> or 1–866–431–0486. In addition, the individual should:

- Explain why he or she believe the Department would have information being requested;
- Identify which component(s) of the Department he or she believe may have the information;
- Specify when the individual believes the records would have been created; and
- Provide any other information that will help the FOIA staff determine which DHS component agency may have responsive records;

If an individual's request is seeking records pertaining to another living individual, the first individual must include a statement from the second individual certifying that individual's agreement for the first individual to access his/her records.

Without the above information, the component(s) may not be able to conduct an effective search, and the individual's request may be denied due to lack of specificity or lack of compliance with applicable regulations.

CONTESTING RECORD PROCEDURES:

For records covered by the Privacy Act or covered JRA records, see “Record Access Procedures” above. Any individual, regardless of immigration status, may file a request to access his or her information under the FOIA. Throughout the benefit determination process, and prior to USCIS making a determination to deny a benefit request, USCIS provides individuals with the opportunity to address and correct the information.

NOTIFICATION PROCEDURES:

See “Record Access Procedures” above.

EXEMPTIONS PROMULGATED FOR THE SYSTEM:

None. However, when this system receives a record from another system exempted under 5 U.S.C. 552a, DHS will claim the same exemptions for those records that are claimed for the original primary systems of records from which they originated.

HISTORY:

81 FR 72069 (October 19, 2016); 73 FR 56596 (September 29, 2008).

Acting Chief Privacy Officer, Department of Homeland Security.

Type of Request: New Collection.

Form Number: HUD–XXXX

Certification for Opportunity Zone Preference Points.

Description of the need for the information and proposed use: This collection is a new collection regarding information for preference points in certain competitive federal grants and technical assistance applications. In accordance with Executive Order 13853, Establishing the White House Opportunity and Revitalization Council (“WHORC” or “Council”), signed by

President Trump on December 12, 2018, the Department of Housing and Urban Development (HUD) has added preference points to grants in an effort to strategically target investment in communities designated as Opportunity Zones. To ensure that HUD’s resources are being used to further the mission of the Executive Order and the WHORC Implementation Plan (published April 17, 2019), HUD has drafted the proposed certification form. This form will certify that valuable HUD resources are in fact being targeted to and expended in America’s most economically distressed areas, including Opportunity Zones. Additionally, it will enable HUD to gather and analyze the most accurate data regarding the use of taxpayer funds; specifically, how they are being utilized by our grantee partners to support the President’s mission of revitalizing distressed communities. The collection of this information will help to guide the Department through future grant awards and inform HUD’s strategy to maximize non-profit and private sector investment.

Additionally, pending approval of this form on HUD’s behalf, we anticipate that the following Agencies will also implement this form: Agriculture, Commerce, Education, Justice, Health and Human Services, Labor, Transportation, Interior, Commerce, Energy, Veterans Affairs, the Small Business Administration and the Environmental Protection Agency. Public and private investment in America’s historically overlooked communities will be used to increase the supply of affordable housing to bolster economic development, support entrepreneurship, promote neighborhood safety, and expand employment and educational opportunities. For more information about the mission of the WHORC and to learn about the activities and vision of the federal agencies that comprise the Council, visit <https://www.hud.gov/sites/dfiles/Main/documents/WHORC-Implementation-Plan.pdf>.

Respondents (*i.e.*, *affected public*): HUD grant applicants applying for preference points for activities conducted within or benefiting designated Qualified Opportunity Zone census tracts.
