SECTION 5 - APPLICANT PROJECT ACKNOWLEDGEMENTS AND CERTIFICATIONS

I acknowledge and certify that I have reviewed and understand the following information regarding overarching requirements to receive Fire Management Assistance Grant assistance. Please initial next to each statement.

_____ The requirement to comply with applicable Federal, State, local, Tribal, and Territorial laws, regulations, and executive orders. Non-compliance may result in denial or deobligation of funding. This includes but is not limited to laws prohibiting discrimination, complying with the most restrictive of its own documented policies and procedures used for procurements with non-Federal funds, compliance with environmental and historic preservation laws, and inclusion of required provisions as applicable.

_____ The requirement to comply with all Fire Management Assistance Grant Program applicable statutes. The statute that authorizes FEMA to provide assistance through the Public Assistance Program is the Robert T. Stafford Disaster Relief and Emergency Assistance Act, as Amended (Stafford Act), Title 42 of the United States Code (U.S.C.) § 5187 et seq.

_____ The requirement to comply with Fire Management Assistance Grant Program rules and regulations as described in 44 C.F.R. Part 204.

_____ The requirement to comply with applicable administrative requirements, cost principles, and audit requirements in 2 C.F.R. Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards.

_____ The requirement to comply with applicable policies which are used to articulate FEMA's intent and direction in applying statutory and regulatory authority to achieve desired outcomes. Compliance with the Fire Management Assistance Grant Program and Policy Guide (FMAG-PPG) is also required. The purpose of the FMAG-PPG is to define FEMA's Public Assistance Program and its policy and procedural requirements. When the FMAG-PAPPG uses the words "must" or "required," it is a legal requirement.

_____ Applicants must maintain all source documentation for each Project for 3 years after the date of transmission of the Closeout Form as certified by the Recipient. Recipients must keep all financial and program documentation for 3 years after the date it submits the final SF-425, in accordance with Title 2 C.F.R. §200.334-337. Longer retention periods may apply to real property and equipment disposition, audits, and litigation. Additionally, State, local, Tribal, or Territorial government laws may require longer retention periods.

_____ The requirement to inform FEMA of all purchased equipment with a fair market value over \$5,000 after it is no longer needed for federally funded programs or projects in accordance with 2 C.F.R. § 200.313. FEMA reduces eligible funding by this amount.

_____ The requirement to inform FEMA if the aggregate fair market value of unused supplies purchased for FEMA projects is over \$5,000 after they are no longer needed for federally funded programs or projects in accordance with 2 C.F.R. § 200.314. FEMA reduces eligible funding by this amount.

_____ As required by Title VI of the Civil Rights Act of 1964, Sections 308 and 309 of the Stafford Act, and applicable provisions of laws and authorities prohibiting discrimination, all work claimed was [will be] delivered in an impartial and equitable manner.

_____ As required by 44 C.F.R. § 206.228 and 2 C.F.R. Part 200, I certify the costs claimed were of a type generally recognized as ordinary and necessary for the type of facility and work.

_____ As required by Stafford Act § 312, I certify that I am not claiming any work or costs that are covered by another source such as revenue, non-federal grants, cash donations, another Federal agency, or another FEMA Program (e.g., Individual Assistance programs or Hazard Mitigation Grant Program). If I receive funding for any work or costs in this project application, I will notify the Recipient and FEMA, and funding will be reconciled to eliminate duplication.

_____ All information provided regarding the project application is true and correct to the best of my knowledge. Upon submittal this project application becomes a legal document. The Recipient or FEMA may use external sources to verify the accuracy of the information entered. It is a violation of Federal law to intentionally make false statements or hide information when applying for Fire Management Assistance Grant assistance. The False Claims Act (31 U.S.C. §§3729-3733) prohibits the submission of false or fraudulent claims for payment to the federal government. Suspicion of fraudulent activities should be reported to the FEMA Disaster Fraud Hotline, the Department of Homeland Security's Office of the Inspector General, or the Department of Justice Fraud Hotline. I understand that, if I intentionally make false statements or conceal any information in an attempt to obtain Fire Management Assistance Grant assistance, it is a violation of Federal laws, which carry severe criminal and civil penalties including a fine of up to \$250,000, imprisonment, or both. (18 U.S.C. §§ 287, 1001, 1040, and 3571).

_____ Projects were completed in accordance with 44 C.F.R. § 206.205 and the FEMA approved scopes of work, all necessary documents have been received, and any appeal for project overruns have been reconciled.

_____ The Stafford Act Section 705 imposes a 3-year limit on FEMA's authority to recover payments made to SLTT government Recipients and Applicants unless there is evidence of fraud. Section 705 does not apply to Private Non-profit organizations. I have read and understand FEMA issued Recovery Policy (FP 205-081-2), Stafford Act Section 705, Disaster Grant Closeout Procedures, which describes the limitations and requirements in detail.
