[Explanation: Hyperlinks will be included here to relevant annual guidance letters, CLSD Performance Reporting User Guide, and other relevant resources to support APR completion. This is a new section.]

Cover Page

[Explanation: Grantees complete one cover sheet per performance report. After entering the information, the grantee prints the cover sheet, has it signed by the grantee's authorized representative, and uploads a PDF of the signed copy to the web-based system to be included in the final PDF of the performance report. Section A – Program Performance Measure (PPM) Information (34 C.F.R. 75.110)

[*Explanation:* Grantees have either four or five PPMs depending on their cohort. When grantees enter the PPM section of the web-based system during Year 1, they will see the table below. This table asks them to enter their Year 1 target or baseline data and their milestone targets. For each PPM, grantees enter a percentage. During Years 2–5 of grant implementation, the fields in the table will be prepopulated with the previous year’s data. The “Year 1/2/3/4/5 Actual” fields will open and allow grantees to enter data about their actual performance during that year and whether they met their original targets. When grantees enter their “Actual” data, the “Met/Not Met” checkbox will prepopulate based on whether their response meets the criteria set in their target. Grantees will have the ability to describe the activities implemented during the performance period. These data are aggregated annually to track program progress as well as help track the project’s progress in meeting the goals stated in the grant application. PPM data are currently gathered through the APR.]

Instructions: Provide data for each PPM and describe findings or outcomes to demonstrate that you have met or are making progress toward meeting the PPM. Please enter your data as a percent.

Section B – Project-Specific Performance Measures (PSPMs) Information (34 C.F.R 75.110)

[Explanation: Grantees have established goals and objectives in their approved application. At the start of a grant, program officers will use the PSPMs Chart (included in this package) to identify the corresponding PSPMs, and ensure that they are appropriate and measurable. When grantees enter the PSPMs section of the web-based system during Year 1, they will see the table below. This table asks them to enter their baseline data (if available) and annual targets. For each PSPM, grantees enter either a raw number or a ratio/percentage. During Years 2–5 of grant implementation, the fields in the table will be prepopulated with the previous year’s data. The “Year 1/2/3/4/5 Actual” fields will open and allow grantees to enter data about their actual performance during that year and whether they met their original targets. When grantees enter their “Actual” data, the “Met/Not Met” checkbox will prepopulate based on whether their response meets the criteria set in their target. These data help the ED program office and the grantee track the project’s progress in meeting the goals stated in the grant application. These data are currently being collected as part of the APR.]

Instructions: Enter each PSPM below using the “+” button to add additional PSPMs as needed. During Year 1, you must enter the PSPM and baseline/target information. In future years, these data will be pre-populated. Provide data for each performance measure and describe findings or outcomes to demonstrate that you have met or are making progress toward meeting the PSPM. You may enter your

data as a whole number or a ratio/percent. Please note the format in which you choose to report your data (ratio or percent) must be consistent through the duration of your grant.
