

## RFS2 Renewable Electricity Generator – Feedstock Report (Report Form ID: RFS4200): Instructions for Completing

### Who must report

- Generally, a Renewable Electricity Generator Feedstock report for use to produce a biogas-derived renewable fuel must comply with the reporting requirement found at 40 CFR § 80.150(c).
- The Renewable Electricity Generator must submit a separate report line for each batch of biogas or RNG used as feedstock in a renewable electricity batch. For example, if five separate biogas batches were used as feedstock in a single renewable electricity batch, the reporting company would submit five report lines specific to each line of biogas.

### Reporting Deadlines

- Renewable Electricity Generators must submit such information or reports on monthly renewable electricity batches by the end of the subsequent calendar month.
