

**Department of Veterans Affairs  
Veterans Health Administration  
Caregiver Support Program**

**Agency Information Collection Activity:**

VA Form 10-10CG, Application for the Program of Comprehensive Assistance for Family Caregivers; OMB No. 0768

The application received comment lo4-j3ok-e8ik in response to the 60-Day Federal Register Notice published September 27, 2024.

**VA-2023-VACO-0002-0195** – We appreciate the commentor’s concerns and suggestions. The VA Caregiver Support Program (CSP) responds as follows:

- **Comment:** Discrepancies in suffix inclusion between the 10-10CG, CARMA, and CPRS create rework tasks for PCAFC staff which delay application processing.  
**Response:** Concur. CSP is aware of this issue and is adding a suffix field to the Veteran and Family Caregiver sections to alleviate the problem.
- **Comment:** The mandated field that relates to the primary caregiver's healthcare coverage status is, at best, too small, and at worst, unnecessary.  
**Response:** Concur. CSP is aware of this issue and is removing this field to alleviate the problem.
- **Comment:** There should be a way to amend the document (any portion of it) after final dispositioning.  
**Response:** This comment refers to how forms are processed following submission and is not affected by what is contained on the form itself. It is therefore outside the scope of this notice of renewal. However, CSP appreciates this feedback and will consider it as we strive to continuously improve our program and processes.
