A Message from the Director, U.S. Census Bureau:

The U.S. Census Bureau is now conducting the Boundary and Annexation Survey (BAS). Your government holds a Consolidated BAS (CBAS) agreement and reports to BAS on behalf of governments in the agreement. Do not miss this opportunity to participate in BAS to ensure that the Census Bureau has current and accurate legal boundary, name, and status information for your government and the governments in your CBAS agreement. Participants may also provide updates to census designated places.

BAS is a voluntary survey. We strongly encourage your participation in BAS for the following reasons:

- The Census Bureau uses this boundary information for data collection, tabulation, and dissemination for the decennial census, American Community Survey (ACS), Population Estimates Program (PEP), and many other censuses and surveys.
- The federal government allocates more than \$675 billion in federal funds annually for health, welfare, infrastructure, education, and other federal programs and services. Correct boundaries ensure governments receive funds appropriately and have the best data available for their decision-making processes.

**Action Step:**

- **Review the boundaries for your government and the governments in your CBAS agreement and respond to BAS with one of these options:**
  - a. Use the interactive BAS Annual Response Form. The form includes all resources and instructions to review boundaries and respond to BAS. (Recommended)  
Interactive BAS Annual Response Form:  
<[https://www.census.gov/geo/partnerships/bas/bas\\_ar\\_form.html](https://www.census.gov/geo/partnerships/bas/bas_ar_form.html)>.
  - b. Use map resources on the BAS website to review the boundary data, then email your response to <[geo.bas@census.gov](mailto:geo.bas@census.gov)>. Please include the following information in your email with the BAS ID in the email subject line:
    - i. Are there boundary changes to report to the BAS? (Yes or No)
    - ii. Are there updates to the highest elected official (HEO) or BAS contact information? If so, please provide the updated contact information.
