For a full description of the scope of the *Order*, see the Issues and Decision Memorandum.⁶

Analysis of the Comments Received

All issues raised in this sunset review are addressed in the Issues and Decision Memorandum. A list of topics discussed in the Issues and Decision Memorandum is included as the appendix to this notice. The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov>. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly at <https://access.trade.gov/public/FRNoticesListLayout.aspx>.

Final Results of Expedited Sunset Review

Pursuant to sections 751(c)(1) and 752(c)(1) and (3) of the Act, Commerce determines that revocation of the *Order* would be likely to lead to continuation or recurrence of dumping and that the magnitude of the margins of dumping likely to prevail would be at rates up to 25.50 percent.

Administrative Protective Order

This notice serves as the only reminder to parties subject to an administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a). Timely written notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the

regulations and terms of an APO is a violation which is subject to sanction.

Notification to Interested Parties

We are issuing and publishing these final results in accordance with sections 751(c), 752(c), and 777(i)(1) of the Act, and 19 CFR 351.218.

Dated: October 30, 2023.

Lisa W. Wang,

Assistant Secretary for Enforcement and Compliance.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; West Coast Region Highly Migratory Species Vessel Identification Requirements

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on July 3, 2023 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic and Atmospheric Administration (NOAA), Commerce.

Title: West Coast Region Highly Migratory Species Vessel Identification Requirements.

OMB Control Number: 0648-0361.

Form Number(s): None.

Type of Request: Regular submission (extension of a current information collection).

Number of Respondents: Non-purse seine respondents: 1,230; Purse seine respondents: 19.

Average Hours per Response: All but purse seine vessels: 45 minutes; purse seine fishing vessels of 400 short tons (362.8 metric tons (mt)) or greater carrying capacity; 1 hour and 30 minutes.

Total Annual Burden Hours: 947 hours.

Needs and Uses: This request is for extension of a current information collection. Regulations at 50 CFR 660.704 require that all commercial fishing vessels with permits issued under authority of the National Marine Fishery Service's (NMFS) Fishery Management Plan for United States (U.S.) West Coast Highly Migratory Species Fisheries display the vessel's official number (U.S. Coast Guard documentation number or state registration number). The numbers must be of a specific size and format and located at specified locations. The official number must be affixed to each vessel subject to this section in block Arabic numerals at least 10 inches (25.40 centimeters in height for vessels more than 25 feet (7.62 meters) but equal to or less than 65 feet (19.81 meters) in length; and 18 inches (45.72 centimeters) in height for vessels longer than 65 feet (19.81 meters) in length. Markings must be legible and of a color that contrasts with the background. The display of the identifying number aids in fishery law enforcement. This requirement does not apply to recreational charter vessels.

Affected Public: Business or other for-profit organizations.

Frequency: Identification markings are required for each vessel.

Respondent's Obligation: Required to obtain or retain benefits, and mandatory.

Legal Authority: Magnuson-Stevens Fishery Conservation and Management Act.

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the

following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function and entering either the title of the collection or the OMB Control Number 0648–0361.

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Northeast Region Dealer Purchase Reports

AGENCY: National Oceanic & Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of information collection, request for comment.

SUMMARY: The Department of Commerce, in accordance with the Paperwork Reduction Act of 1995 (PRA), invites the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public’s reporting burden. The purpose of this notice is to allow for 60 days of public comment preceding submission of the collection to OMB.

DATES: To ensure consideration, comments regarding this proposed information collection must be received on or before January 2, 2024.

ADDRESSES: Interested persons are invited to submit written comments to Adrienne Thomas, NOAA PRA Officer, at Adrienne.thomas@noaa.gov. Please reference OMB Control Number 0648–0229 in the subject line of your comments. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or specific questions related to collection activities should be directed to David Ulmer, Fishery Reporting Specialist, Greater Atlantic Regional Fisheries Office, 55 Great Republic Drive, Gloucester, MA 01930, (757–563–3621/978–559–1552), David.Ulmer@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This is a request to extend a currently approved information collection.

The National Oceanic and Atmospheric Administration’s National Marine Fisheries Service (NMFS) is responsible for the stewardship of the Nation’s living marine resources and their habitats within the United States Exclusive Economic Zone (EEZ). The mandates and authorities are derived from numerous statutes, most significantly the Magnuson-Stevens Fishery Conservation and Management Act (MSA), the Endangered Species Act (ESA), and the Marine Mammal Protection Act (MMPA).

Under the MSA, the Secretary of Commerce has the responsibility for conservation and management of the nation’s marine fishery resources. Much of this responsibility has been delegated to NMFS. In an effort to achieve the goals of the MSA, several fisheries are now being managed by harvest limits including quotas, annual target total allowable catches (TAC) and domestic annual harvest (DAH) limits. These fisheries often have short fishing seasons and require in-season management measures, such as closures and trip limits, to ensure that harvest levels established in each Fishery Management Plan (FMP) are not exceeded. Therefore, as more fisheries are being managed by harvest limits, the timely collection of data from dealers and vessel owners and operators is and will continue to be a necessary component of most management regimes, as evidenced in several FMPs.

All federal permitted dealers of Atlantic mackerel, squid, butterfish, Atlantic sea scallop, Atlantic surfclam, ocean quahog, Northeast (NE) multispecies, monkfish, summer flounder, scup, black sea bass, Atlantic bluefish, spiny dogfish, Atlantic herring, skates, tilefish, hagfish, American lobster must have been issued and have in their possession a federal dealer permit in order to purchase such species from fishing vessels. Federal permitted dealers in the above fisheries are required to submit certain information regarding their fish purchases to NMFS. Trip-level (trip by trip) reports provide the comprehensive data that are necessary for successful long-term management of each fishery.

In all fisheries requiring mandatory reporting, ‘negative reporting’ by dealers is required if no fish was purchased during the reporting period. Negative reports are necessary in order to accurately identify dealers who have not

purchased fish as opposed to those who have failed to report their purchases

All large vessel at-sea processors of Atlantic mackerel that have been issued and have in their possession a federal at-sea processor permit may purchase mackerel from fishing vessels at sea for processing provided the large vessel did not harvest the mackerel. These Federal permitted vessels are also required to submit certain information regarding their fish purchases to NMFS.

The information collected is used by several offices of NMFS, the Northeast Fishery Management Council, the Mid-Atlantic Fishery Management Council, and the Atlantic States Marine Fisheries Commission (ASMFC) to monitor quota-managed species, ensuring that conservation and management actions may be taken in a timely manner.

Accurate and timely landings reports are especially important for monitoring commercial landings by species and evaluating the effectiveness of each FMP in achieving its fishing mortality targets.

In addition to the uses specifically relating to management of individual species, the statistics collected through these reports will be incorporated into the NMFS databases which are used in many analyses by various offices of NMFS, the Regional Fishery Management Councils, the United States Coast Guard (USCG), state fishery enforcement agencies, the Departments of State and Commerce, Office of Management and Budget (OMB), the Corps of Engineers, Congressional staffs, the fishing industry, and the public. The data also serve as inputs to a variety of uses such as biological analyses and stock assessments, and in support of Executive Order (E.O.) 12866 “Regulatory Planning and Review”, quota and allocation selections and monitoring, economic profitability profiles, trade and import tariff decisions, allocation of grant funds among states, and identification of ecological interactions among species. Data used are also utilized for monitoring and evaluating ESA and MMPA actions.

II. Method of Collection

Dealers submit purchase information through an electronic process by one of the following: the web-based system as administered by the Atlantic Coast Cooperative Statistics Program, a computer-based trip ticket program approved by the NMFS or through a NMFS approved proprietary mechanism.
