Registration Checklist

1. Have you identified the person who will serve as the certifying official for your organization?

As the person registering for your organization, you will serve as the administrator. The NPDB also requires someone from your organization to serve as the certifying official, the individual responsible for verifying that your organization is legitimate and eligible to register with the NPDB.

- The administrator and certifying official can be the same person.
- The certifying official can be someone other than the administrator who is in a management or executive role. The certifying official will not have access to the NPDB until the administrator creates a user account for them.

If you will not be the certifying official, you will need to know how that person's name is listed on their government-issued ID, such as their driver's license. This is important because you and the certifying official must complete a paper form in front of a notary public and show them the ID. The paper form will show the name you enter online, and the notary must verify that it matches the name on their ID.

2. Do you know the tax identification number for your organization?

You will need to know the Employer Identification Number (EIN) assigned to your organization by the IRS. If your organization is not required to have an EIN (e.g., a sole proprietorship), enter your Social Security Number (SSN) or Individual Tax Identification Number (ITIN) instead.

3. Are there other identification numbers assigned to your organization?

If your organization has a National Provider Identification (NPI), you will need to provide it. Hospitals should also add their CMS Certification Number (CCN), the provider number assigned for Medicare.

If you do not have this information, please Exit and return to registration later.

Statutory Authority and Requirements

You are registering your organization to query and/or report to the NPDB as an "eligible entity."

The statutes and regulations that govern and maintain NPDB operations include:

- Title IV of the Health Care Quality Improvement Act of 1986 (HCQIA), Public Law 99-660 (referred to as "Title IV");
- Section 5 of the Medicare and Medicaid Patient and Program Protection Act of 1987, Public Law 100-93, codified as Section 1921 of the Social Security Act (referred to as "Section 1921");
- Section 221(a) of the Health Insurance Portability and Accountability Act of 1996, Public Law 104-191, codified as Section 1128E of the Social Security Act (referred to as "Section 1128E"); and
- Section 6403 of the Patient Protection and Affordable Care Act of 2010 (Public Law 111-148). Section 6403 of the Patient
 Protection and Affordable Care Act of 2010 (Public Law 111-148).

The NPDB regulations implementing these laws are codified at 45 CFR Part 60.

Information from the NPDB is only available to entities specified as "eligible" in the statutes and regulations.

Organizations which are not eligible under the statutes may only register as an agent. Agents may only access the NPDB on behalf of eligible entities and may only perform the functions designated to them by each entity.

Agents are responsible for adhering to the regulations regarding the confidentiality of NPDB information.

- Agents are subject to the same regulations as eligible entities regarding confidentiality and disclosure of NPDB information, as detailed in the statutes.
- Persons and entities receiving information from the NPDB, either directly or from another party, must use it solely with
 respect to the purpose for which it was provided. Any person who violates these confidentiality provisions may be subject
 to a civil money penalty for each violation.
- Agents that are designated by multiple eligible entities to query on their behalf may not share NPDB information across
 those entities. Each entity must direct the agent to process a query on their behalf. The agent must only provide the results
 from the query to the entity on whose behalf it was processed.
- Persons and entities are responsible for the accuracy of information which they report to the NPDB. If your organization
 submits a report on behalf of an eligible entity and discovers an error or omission after the report is submitted, your organization
 must submit a correction on the entity's behalf.
