Understanding HIV/STD Risk and Enhancing PrEP Implementation Messaging in a Diverse Community-Based Sample of Gay, Bisexual, and Other Men Who Have Sex with Men in a Transformational Era (MIC-DROP)

**Attachment 4a
Eligibility Screener English**

Public reporting burden of this collection of information is estimated to average 5 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering, and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Reports Clearance Officer; 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; Attn: OMB-PRA (0920-New)

MIC-DROP Screener Survey - English

In which language do you prefer to take the survey?

¿En cuál idioma prefiere tomar la encuesta?

-English (action: stay on English or redirect to English if on Spanish)

-Espanol (action: stay on Spanish or redirect to Spanish if on English)

“Thank you for your interest in the MIC-DROP study, which is focused on learning more about the HIV prevention preferences and behaviors among men who have sex with men. We would like to let you know that funding for this study is provided by the Centers for Disease Control and Prevention. To find out if you are eligible for this study, we need to ask you a few questions. It should not take more than 5 minutes. Some of these questions are personal, including questions about sexual activity. Answering these questions is completely voluntary and you can refuse to answer a question or stop at any time. If you answer the questions and we determine that you are eligible, you will then be offered the opportunity to participate in the research study, which includes a baseline survey, follow-up surveys every 3 months for the next 24 months, and HIV and STI home testing every 6 months. If you complete that longer survey, you will receive a \$50 gift card as a token of appreciation. Would you like to continue to see if you are eligible for this study?”

| o *[If “No,” participant is directed to a webpage reading:]*

“You have indicated that you do not consent to taking the eligibility screener for our study. We require all respondents to consent to take the eligibility survey in order to participate in the study, so we cannot allow you to participate. Thank you for your interest in our study.
