

Public Health Law Fellowship - Welcome Survey

Welcome to the Public Health Law Fellowship!

To help us assess how participating in the fellowship affects your professional skills and career progression, we request that you complete a brief survey before reporting to your host site. The survey asks for your race, gender identity, disability status, and a series of questions about public health law. You will be asked for your race, gender identity, and disability status to help us assess the level of diversity in our fellowship program. These demographic data will be reported only in the aggregate. You may also select "prefer not to respond" to questions about your race, gender identity, and disability status.

The Privacy Act applies to this information collection. The requested information is used for assessment and continuous quality improvement of CDC fellowship activities and services. CDC will securely treat data/information and will not disclose it unless otherwise compelled by law. All data will be used to evaluate and improve the Public Health Law Fellowship and will be reported only in the aggregate.

This survey is anonymous and confidential. Participation in the survey is completely voluntary. As a result, we will not be able to follow up with individual responses because we will not know who entered them. If you would like to speak with someone regarding your responses, please reach out directly to the fellowship coordinators.

To complete this survey, please select the answer that applies to each question posed below. If it is possible to choose more than one answer, the question will have an instruction to "select all that apply."

Text-To-Speech functionality is enabled. It is set to off but can be turned on when clicked. This will enable the text to be read out loud. You must have computer speakers turned on.

There is no time limit to complete the survey. All questions will be displayed on one page. You will see two options at the bottom of the page, "Save & Return Later" and "Submit," indicating the end of the survey.

Before submitting your survey, you may save your progress and return later to complete the survey by selecting the "Save & Return Later" option at the bottom of the page. If you select "Save & Return Later," you will be given a return code when leaving a survey. The return code is required to re-enter and finish the survey. We are not able to retrieve lost codes, so if you cannot find your code, you will need to restart the survey. Selecting "Save & Return Later" does not submit your answers.

To submit your answers, you must select "Submit." Your survey responses will be submitted, and you will see a survey completion note thanking you for your submission. You will not be able to edit your responses once your survey is submitted.

If you have any questions or concerns, please reach out to Abigail Ferrell (FFerrell@cdc.gov).

Public reporting burden of this collection of information is estimated to average 6 minutes per response, including the time for reviewing the instructions, searching existing data sources, gathering, and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspects of this collection of information, including suggestions for reducing this burden, to CDC/ATSDR Information Collection Review Office, 1600 Clifton Rd. NE, MS D-74, Atlanta, GA 30333; ATTN: PRA (0920-XXXX).

1) What is the expected duration of your fellowship?

- Semester
 Academic year
 Calendar year

2) On average, how many hours per week do you anticipate that you will work?

3) What is your expected graduation date? If you have already graduated, please enter the date you graduated with your most recent degree.

 M-D-Y

4) Which of the below best describes your fellowship? CDC - PHLP
 CDC - not PHLP
 Field placement
 Other

6) Do you identify as having any kind of disability? Yes
 No
 Prefer not to respond

7) How would you describe your race? Select all that apply.
 White
 Black or African American
 Asian
 American Indian or Alaska Native
 Native Hawaiian or other Pacific Islander
 Other (please specify)
 Prefer not to respond

9) Do you consider yourself Hispanic or Latino? Yes
 No
 Prefer not to respond

10) How would you describe your gender identity? Gender identity can be defined as "one's innermost concept of self as male, female, a blend of both, or neither-how individuals perceive themselves and what they call themselves. One's gender identity can be the same or different from their sex assigned at birth."

11) How many years of public health work experience do you have? None
 Less than 1 year
 1-3 years
 4-6 years
 6+ years

For the following questions, you will be asked to rate your skills in areas related to public health law/policy. Your answers to these questions will be used only to establish a baseline of your fellowship cohort's collective skills and abilities.

	Very strong	Strong	Moderate	Weak	Very weak
12) Describe basic public health law principles	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
13) Describe basic legal epidemiology concepts	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
14) Describe how law contributes to population health	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
15) Identify opportunities to include legal epidemiology in existing organizational activities	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

16)	Identify opportunities to assess the potential impact of laws and policies on the social determinants of health	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
17)	Identify opportunities to assess the potential impact of laws and policies on health equity	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
18)	Identify the laws and policies applicable to a public health issue	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
19)	Use relevant databases to track legal and policy information	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
20)	Develop methods for collecting valid legal data	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
21)	Apply a legal epidemiology coding system to collected laws and policies	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
22)	Identify variations in laws and policies between jurisdictions over time	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
23)	Identify data sources and analytic tools relevant to evaluate the health outcomes of laws and policies	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
24)	Identify key findings of your data collection and analysis	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
25)	Create audience-appropriate oral and visual presentations	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
26)	Identify actionable next steps to improve health outcomes based on legal epidemiology data	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
27)	Identify law-based tools available to public health agencies during a public health emergency	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
28)	Describe a health department's legal authority to address public health problems and the limits on that authority	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
29)	Identify law based tools for improving health equity	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
30)	Describe health equity issues relevant to a given public health topic	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

What are the top 3 skills that you are looking to improve during the fellowship?

Skill 1:

- Describe basic public health law principles
- Describe basic legal epidemiology concepts
- Describe how law contributes to population health
- Identify opportunities to include legal epidemiology in existing organizational activities
- Identify opportunities to assess the potential impact of laws and policies on the social determinants of health
- Identify opportunities to assess the potential impact of laws and policies on health equity
- Identify the laws and policies applicable to a public health issue
- Use relevant databases to track legal and policy information
- Develop methods for collecting valid legal data
- Apply a legal epidemiology coding system to collected laws and policies
- Identify variations in laws and policies between jurisdictions over time
- Identify data sources relevant to evaluate the health outcomes of laws and policies
- Identify key findings of your data collection and analysis
- Create audience-appropriate oral and visual presentations
- Identify actionable next steps to improve
- Identify law-based tools available to public health agencies during a public health emergency health outcomes based on legal epidemiology data
- Describe a health department's legal authority to address public health problems and the limits on that authority
- Identify law-based tools for improving health equity
- Describe health equity issues relevant to a given public health topic

Skill 2:

- Describe basic public health law principles
- Describe basic legal epidemiology concepts
- Describe how law contributes to population health
- Identify opportunities to include legal epidemiology in existing organizational activities
- Identify opportunities to assess the potential impact of laws and policies on the social determinants of health
- Identify opportunities to assess the potential impact of laws and policies on health equity
- Identify the laws and policies applicable to a public health issue
- Use relevant databases to track legal and policy information
- Develop methods for collecting valid legal data
- Apply a legal epidemiology coding system to collected laws and policies
- Identify variations in laws and policies between jurisdictions over time
- Identify data sources relevant to evaluate the health outcomes of laws and policies
- Identify key findings of your data collection and analysis
- Create audience-appropriate oral and visual presentations
- Identify actionable next steps to improve
- Identify law-based tools available to public health agencies during a public health emergency health outcomes based on legal epidemiology data
- Describe a health department's legal authority to address public health problems and the limits on that authority
- Identify law-based tools for improving health equity
- Describe health equity issues relevant to a given public health topic

Skill 3:

- Describe basic public health law principles
- Describe basic legal epidemiology concepts
- Describe how law contributes to population health
- Identify opportunities to include legal epidemiology in existing organizational activities
- Identify opportunities to assess the potential impact of laws and policies on the social determinants of health
- Identify opportunities to assess the potential impact of laws and policies on health equity
- Identify the laws and policies applicable to a public health issue
- Use relevant databases to track legal and policy information
- Develop methods for collecting valid legal data
- Apply a legal epidemiology coding system to collected laws and policies
- Identify variations in laws and policies between jurisdictions over time
- Identify data sources relevant to evaluate the health outcomes of laws and policies
- Identify key findings of your data collection and analysis
- Create audience-appropriate oral and visual presentations
- Identify actionable next steps to improve
- Identify law-based tools available to public health agencies during a public health emergency health outcomes based on legal epidemiology data
- Describe a health department's legal authority to address public health problems and the limits on that authority
- Identify law- based tools for improving health equity
- Describe health equity issues relevant to a given public health topic

34) What are your expectations for the fellowship?
