_		Hives							;	
_	Hemolysis/Hemorrhage: DIC Hemoglobinemia Positive antibody screen									
_	Pain:		Abdom	inal pain		Back pa	ain	Flank pain		Infusion site pain
_	Renal:		Hematı	uria		Hemog	lobinuria	L		Oliguria
	Respiratory:	Bronchospasm Cough Shortness of breath Other: (specify)								
	*Severity									
	Did the patient receive or	exp	erience	any of the foll	ow	ring?				
	No treatment requ	iired				Sympto	matic tre	eatment only		
	Hospitalization, inlcuding prolonged hospitalization  Life-threatening reaction									ning reaction
	Disability and/or incapacitation  Congenital anomaly or birth defect(s) of the fetus									ct(s) of the fetus
	Other medically important conditions Death Unknown or not stated								not stated	
	*Imputability									
	Which best describes the relationship between the transfusion and the reaction?									
	There are no alternative risk factors for ALI present.									
	There is evidence of other causes for acute lung injury.									
	Evidence is clearly in favor of a cause other than the transfusion, but transfusion cannot be excluded.									
There is conclusive evidence beyond reasonable doubt of a cause other than the transfusion										
The relationship between the adverse reaction and the transfusion is unknown or not stated.										
	Did the transfusion occur at your facility?									
Module-generated Designations										
NOTE: Designations for case definition, severity, and imputability will be automatically assigned in the NHSN application based on responses in the corresponding investigation results section above.										
	*Do you agree with the	case	e definit	<i>tion</i> designat	ion	1?		YE	S	NO
	^Please indicate your designation									
*Do you agree with the <u>severity</u> designation?										
^Please indicate your designation										
	*Do you agree with the	-	-	∠ designation	?			YE	S	NO
^Please indicate your designation										
Pa	tient Treatment									
	Did the patient receive trea	tmer	nt for the	e transfusion r	eac	ction?		YES	NC	UNKNOWN
If yes, select treatment(s):										
☐ Medication (Select the type of medication)										
Antipyretics Antihistamines Inotropes/Vasopressors Bronchodilator Diuretics										
	Intravenous Immunoglobulin Intravenous steroids Corticosteroids Antibiotics									
	Immunoglobulin Intravenous steroids Corticosteroids Antibiotics Antithymocyte globulin Cyclosporin Other									
	Volume resuscitation (Intravenous colloids or crystalloids)									
	Respiratory support (Select the type of support)									
	Mechanical ventilation Noninvasive ventilation Oxygen
