Appendix L – Training Observation Tool

## AHRQ – Building Diagnostic Safety Capacity

## **TeamSTEPPS® Course Pilot Test Evaluation**

### Training Observation Tool

The training observation tool will be used to periodically assess the practices during their implementation of the TeamSTEPPS® modules. This assessment will be completed by a project team member and have minimal respondent burden. We aim to observe up to 2 module trainings during each practice's adoption of the TeamSTEPPS® Course.

MedStar Health Research Institute (MHRI) will conduct direct observations of the TeamSTEPPS® training for up to 2 trainings per practice (n=40 trainings. Total time for the encounter burden was estimated at 1 hour per encounter.

### **Recruitment Criteria**

Healthcare setting administrators who have been exposed to the TeamSTEPPS® Course within their setting will be eligible to participate in the interview. MHRI team members will work with the practice champions to identify administrators to participate in the interviews. We will aim to recruit administrators in the following manner:

• Administrators involved in the decision making around implementation of the TeamSTEPPS® Course or how have had experience using the TeamSTEPPS® Course

### **Interview Goals**

The goals of the interviews will be to:

- Obtain feedback on the intervention Course materials
- Obtain feedback on the barriers and facilitators encountered during implementation
- Obtain feedback on satisfaction with instructions and materials
- Obtain feedback on receptivity and enhancements to the Course to improve adoption and implementation

### **Interview Materials**

- Copies of the Course materials
- Informed consent documents
- Digital recorder

### Location

Interviews will be conducted at a location within the practice or within the practice's community. Interviews may also be conducted virtually via the telephone.

# **Participant Stipends**

None.

Each observation will take no more than 60 minutes.

## **Informed Consent Procedures**

Participants will complete the informed consent process at the time of arrival to the interview.
