TO AVOID FUTURE NOTIFICATIONS, PLEASE COMPLETE AND RETURN THIS SURVEY NOW.

It is important that you participate in this survey even if your household did not harvest birds or eggs.

Harvest estimates from this survey are used to:

- Show the importance of subsistence uses of migratory birds.
- Protect subsistence harvests.
- Assess whether harvest regulations are appropriate.
- Plan for the conservation of birds.

1. Please complete one survey per household, including harvests by all household members listed on your registration.
2. Respond to questions 1 through 4 in the blue box at the top of the survey form.
3. In the fields provided next to the bird drawings, report the numbers of all birds and eggs harvested by your household members, including those that you gave to other household(s).
4. Do not report in your survey birds or eggs that you received from other household(s).
5. If you harvested with people from other household(s), report in your survey only your household's share of the harvest.
6. Report numbers of birds and eggs as individual units. If you harvested eggs using a 5-gal bucket or other kind of container, specify how many eggs.
7. Write comments in the green box provided at the bottom of the survey form (weather, hunting conditions, access to hunting areas, unusual birds seen, household registration and survey process, etc.).
8. Use the provided postage-paid envelope to mail your completed survey.

Thank you for participating in this survey! We'll share survey results in your community.
