First time login: HIP Survey Strata Question

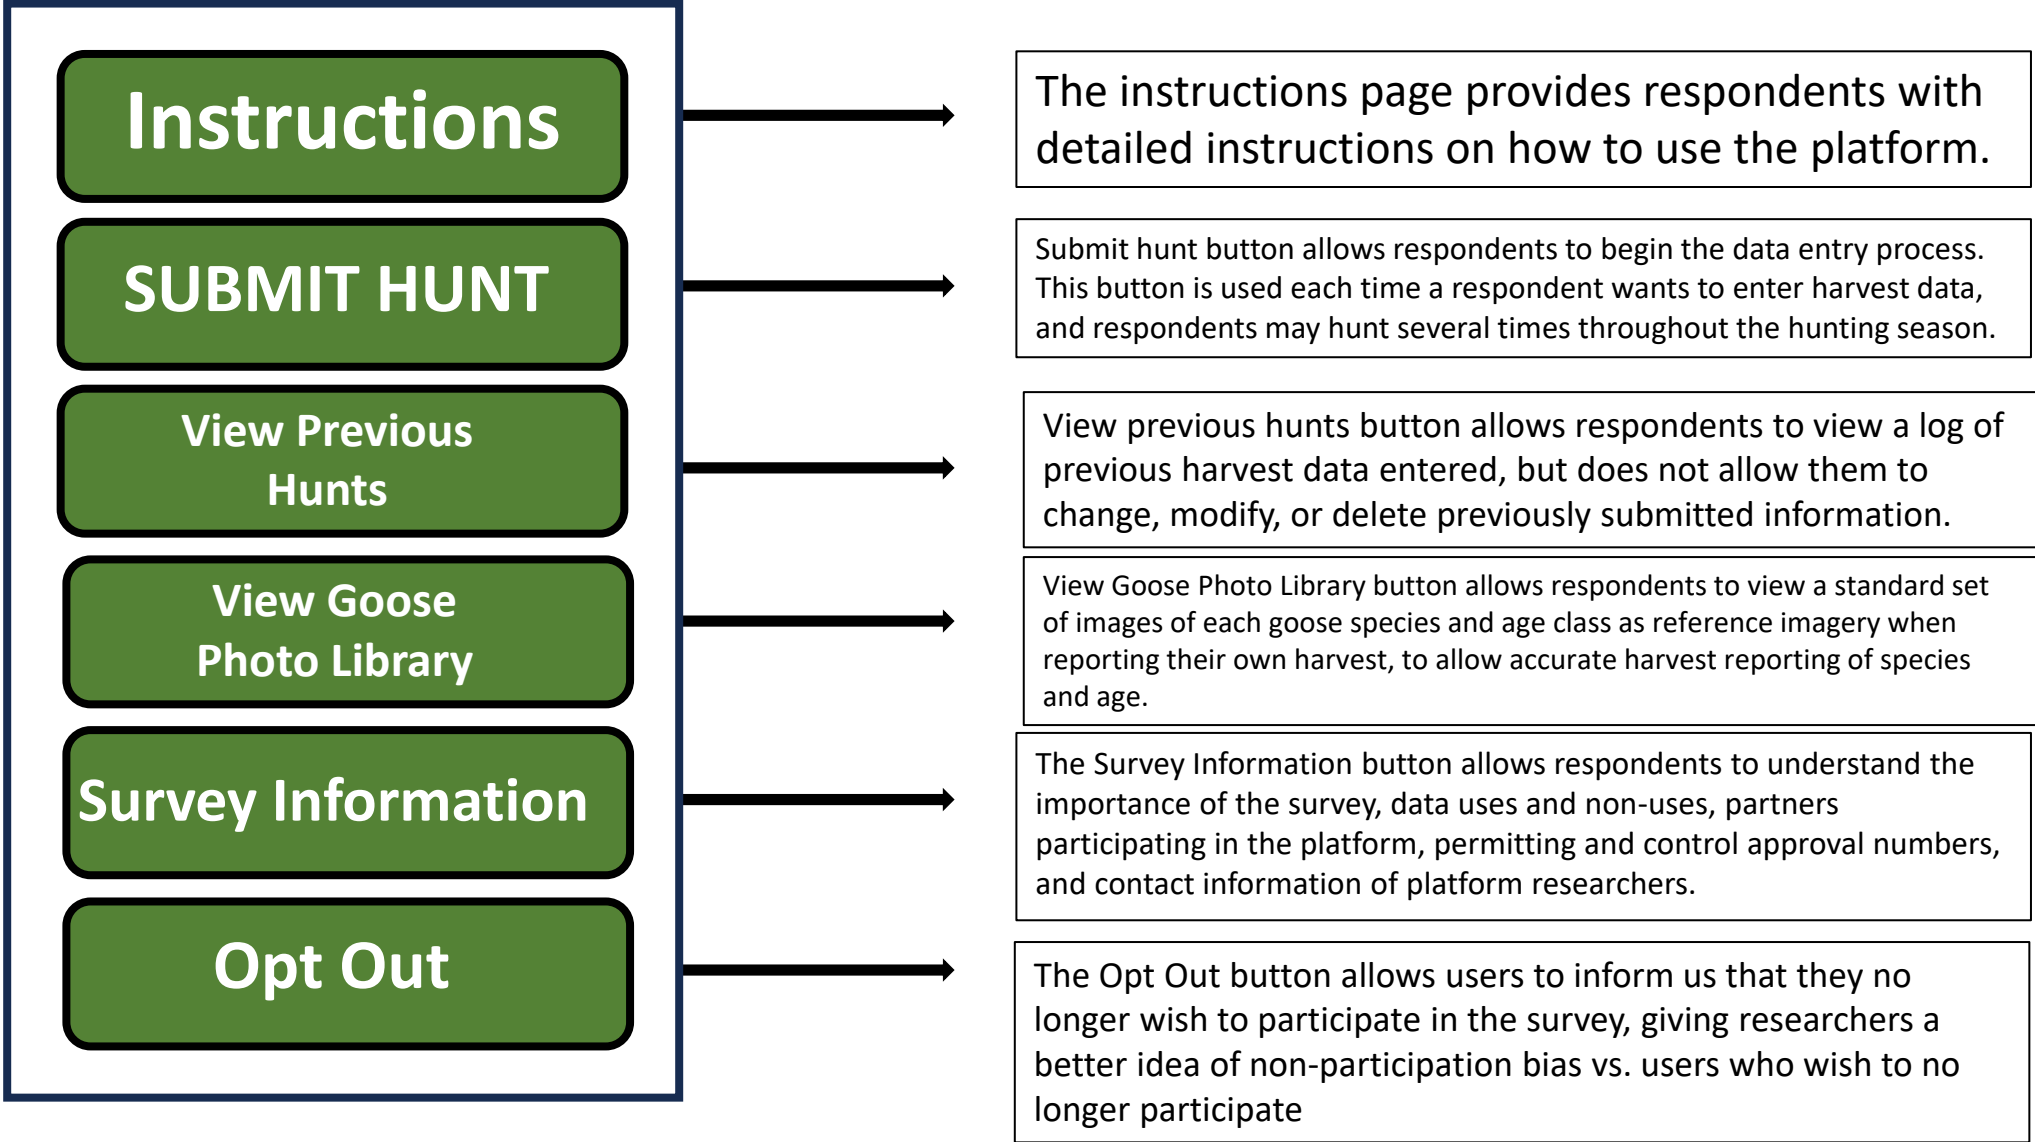

How many **GEESE** did **YOU** harvest last season?

- Did not hunt
- 0
- 1-10
- >10

Description:

- Respondent PII not collected, anonymized through code and/or generated respondent ID
- Respondent ID retained by code used to login, so track anonymized respondent through repeated data submission entries.
- This question is from the Hunter Diary Survey and is used to determine hunter strata for later harvest estimate comparisons. It is only asked once at the initial sign up stage, and is linked to the generated respondent ID.
- These are radial buttons to be selected.

Main Page – Buttons for all platform functions

Harvest information – Hunter Diary Surrogate

- Instructions**
- SUBMIT HUNT**
- View Previous Hunts
- View Goose Photo Library
- Survey Information
- Opt Out

Date of Hunt: **Month** / **Day** / **Year**

State:

County:

Total Number of Geese Harvested:

Continue

Description: The Submit Hunt button is where users begin to enter actual data collected by the platform. The first page enters user hunt-specific information, and how many total geese were harvested, location, and date time information.

Harvest information – PCS Surrogate; Species

You harvested **10** total geese on January 3 2023; please indicate how many of each species were harvested.

[View Gallery](#)

Snow Goose: Including Lesser and Greater Snow goose, both light and blue morphs. [Species description.](#)

Total Harvested:

8

[View Gallery](#)

Canada Goose: [Species description and comparison with CACK.](#)

Total Harvested:

1

[View Gallery](#)

Cackling Goose: [Species description and comparison with CAGO](#)

Total Harvested:

[View Gallery](#)

Greater White-fronted Goose (Specklebelly): [Species description.](#)

Total Harvested:

1

NOTE: Two more rows for Ross's Geese, Other Species (Brant, domestic, hybrid, Egyptian, etc)

[Continue](#)

Description: Based on the total number of geese harvested from the previous page entry, respondents then enter the total number of each species of interest harvested. We provide example images, a species description, and a "View Gallery" button to take respondents to the Photo Library if they wish to see more example images of each species. The total number of each species listed here must match the total number harvested from the previous page. Respondents are not required to enter zero harvest, and NA values are assumed zeros.

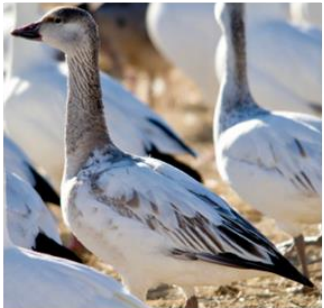

Harvest information – PCS Surrogate; Age

You harvested **8** total **SNOW GEESE** on January 3 2023; please indicate the age of geese harvested.

Adult: White morph, complete white coloring except for black wing tips, Blue morph blue/gray coloring with white head, could have white belly (interphase). Species description.

Total Harvested:

Juvenile: Gray coloring on white morph, overall gray/blue on blue morph. Gray/pale feet, dull bill. Species description.

Total Juveniles:

Same for GWFG, ROGO

Finish

Description: Similar to the previous page, there are three goose species in which age class can be identified based on plumage characteristics (Snow geese, greater white-fronted geese, and Ross’s geese). If respondents harvested these species, information is populated from the previous page, and respondents then input the number of adults and juveniles harvested. Again, we provide example images for each age class, a plumage/age description, and a “View Gallery” button to take respondents to the Photo Library if they wish to see more example images of each age class. The total number of each age listed here must match the total number of that species from the previous page.

Final submission page

You have entered 10 total geese harvested, 8 snow geese (2 adults and 6 juveniles), 1 Canada goose, and 1 greater white-fronted goose (adult).

Do you wish to submit this hunt?

No, edit hunt

Submit Hunt

Optional Hunt Comments: If needed, please add any additional comments regarding your harvest information.

Description: The final submission page where data input are re-capped, and an option to edit the hunt if desired or submit the data are presented. Additionally, an option comments section is included should the respondent wish to clarify or provide details of the harvest.

Paperwork Reduction Act Statement: We are collecting this information subject to the Paperwork Reduction Act (44 U.S.C. 3501 et seq.). Your response is voluntary and we will not share your response publicly. We may not conduct or sponsor and you are not required to respond to a collection of information unless it displays a currently valid OMB Control Number. OMB has reviewed and approved this poll and assigned OMB Control Number 1028-NEW.

Estimated Burden Statement: We estimate responses will average 2 minutes per response, including time to read instructions and gather information. You may submit comments on any aspect of this information collection to USGS, Information Collections Clearance Officer, 12201 Sunrise Valley Drive, MS 159, Reston, VA 20192 or by email to gs-info_collections@usgs.gov. Please reference OMB Control Number 1028-NEW in the subject line of your comments.
