

**MULTIEMPLOYER PROGRAM DIVISION**

**ANNUAL STATEMENT OF COMPLIANCE FOR MULTIEMPLOYER PLANS THAT RECEIVE SPECIAL FINANCIAL ASSISTANCE**

Multiemployer plans that have received special financial assistance (SFA) under section 4262 of the Employee Retirement Income Security Act of 1974 (ERISA) and PBGC’s SFA regulation (29 CFR part 4262) are required under § 4262.16(i) to submit a Statement of Compliance for each plan year through the last day of the last plan year ending in 2051.

This form is due annually, no later than 90 days after the end of each plan year, and addresses compliance during that plan year. However, if 6 months or fewer remain in the plan year after the month that includes the date the plan first received payment of SFA, then the first submission is due no later than 90 days after the end of the next plan year, and the form must address compliance from the date the plan received payment of SFA through the next plan year. For example, if a calendar year plan received payment of SFA on November 15, 2023, the plan’s first statement of compliance would be due by March 31, 2025, covering the period from November 15, 2023, through December 31, 2024.

This form must be signed and dated by a trustee who is a current member of the plan’s board of trustees and authorized to sign on behalf of the board of trustees, or by another authorized representative of the plan sponsor. Also, this form must be filed electronically, in accordance with directions on PBGC’s website, *www.pbgc.gov*.

In addition to the restrictions in section 305(f)(1) of ERISA:

<sup>1</sup> This term refers to benefit increases as described in section 4022A(b)(1) of ERISA without regard to the length of time the benefit or benefit increase has been in effect. Also, the condition on benefit increases does not apply to the reinstatement of benefits that were suspended under sections 305(e)(9) or 4245(a) of ERISA (as provided under § 4262.15) or the restoration of benefits under 26 CFR 1.432(e)(9)-1(e)(3).

The plan's assets, including SFA funds, must be held in permissible investments that are investment grade fixed income, as described in § 4262.14(d) of PBGC's SFA regulation, sufficient to pay for at least 1 year (or until the date the plan is projected to become insolvent, if earlier) of projected benefit payments and administrative expenses, taking into account the limitations on derivatives and leverage in § 4262.14(h).

During the plan year, did the plan comply with the conditions relating to allocation of plan assets listed in part II.C?

Exception:

- The plan sponsor determined that the change lessens the risk of loss to plan participants and beneficiaries; and

During the plan year, did the plan experience a contribution decrease?

An allocation of income or expenses must not decrease the proportion of income or increase the proportion of expenses allocated to the plan pursuant to a written or oral agreement or practice (other than a written agreement in existence on March 11, 2021, to the extent not subsequently amended or modified) under which the income or expenses are divided or are to be divided between the plan and one or more other employee benefit plans.

Exceptions. This prohibition does not apply to a good faith allocation of:

- Contributions pursuant to a reciprocity agreement;
- Costs of securing shared space, goods, or services, where such allocation does not constitute a prohibited transaction under ERISA or is exempt from such prohibited transaction provisions pursuant to sections 408(b)(2) or 408(c)(2) of ERISA, or pursuant to a specific prohibited transaction exemption issued by the Department of Labor under section 408(a) of ERISA;
- The actual cost of services provided to the plan by an unrelated third party;
- Contributions where the contributions to the plan required for each contribution base unit are not reduced, unless permitted under II.D above; or

**G. Withdrawal liability (UVB determination) (§ 4262.16(g)(1) and § 4262.16(g)(2))**

In accordance with § 4262.16(g)(1) of PBGC's SFA regulation, the plan must use the interest assumptions in Appendix B to part 4044 of PBGC's regulations to determine unfunded vested benefits (UVBs) of the plan under section 4213(c) of ERISA (for the purpose of determining withdrawal liability) beginning with the first plan year in which the plan receives payment of SFA and until the later of: (i) the 10<sup>th</sup> plan year after the first plan year in which the plan receives payment of SFA, or (ii) the last day of the plan year in which, according to the plan's projection, the plan will exhaust any SFA assets (extended by the number of years, if any, that the first plan year of payment is after the plan year that includes the plan's SFA measurement date). A similar period applies for an IFR-only recipient, except that the duration of (ii) is determined under the terms of the interim final rule.

In accordance with § 4262.16(g)(2) of PBGC's SFA regulation, the plan must determine the amount of SFA that is phased in for withdrawal liability purposes each year over the projected life of the SFA assets. The applicable phase-in period is from the first plan year in which the plan receives payment of SFA through the end of the plan year in which, according to the plan's projections, it will exhaust any SFA assets (extended by the number of years, if any, that the first plan year of payment is after the plan year that includes the plan's SFA measurement date). For a plan that received payment of SFA under the terms of the interim final rule and files a supplemented application, the first plan year of payment is the year in which it received SFA under the terms of the interim final rule. To calculate the amount of SFA assets excluded for each plan year during the phase-in period, the plan must take the total amount of SFA paid to the plan and multiply that by a fraction, the numerator of which is the number of years remaining in the phase-in period as of the date that the UVBs are being determined, and the denominator is the total number of years in the phase-in period. For a plan that receives payment of SFA under the interim final rule and receives a supplemented payment under the final rule, the total amount (payment under the interim final rule and supplemental payment) will be included in the phased recognition of SFA assets in determining UVBs for withdrawals going forward.

During the plan year, did the plan determine UVBs for the purpose of determining withdrawal liability for one or more employers that withdrew from the plan after the plan year in which the plan received payment of SFA?

Yes. If yes, attach the withdrawal liability calculation(s).

No. If no, skip to Part II.H.

If yes, did the plan comply with the condition in § 4262.16(g)(1) requiring use of the prescribed interest assumptions?

- Yes.
- No, and the condition has not yet expired for the plan. If checked, attach an explanation of the non-compliance and include any corrective action taken by the plan.
- No, and the condition has expired for the plan.

H. Withdrawal liability settlement (§ 4262.16(h))

The plan must not, before receiving PBGC approval, make any settlement of withdrawal liability where the amount of the liability settled was more than \$50 million, calculated as the lesser of: (i) the allocation of unfunded vested benefits to the employer under section 4211 of ERISA; or (ii) the present value of withdrawal liability payments assessed for the employer discounted using the interest assumptions under § 4281.13(a) of PBGC's regulation on Duties of Plan Sponsor Following Mass Withdrawal.

During the plan year, did the plan make any settlement of withdrawal liability of any amount?

- Yes. If yes, attach a copy of the withdrawal liability settlement agreement (unless previously submitted).

E. Allocating contributions and other income (§ 4262.16(e))

An allocation of contributions or other income must not decrease the proportion of income or increase the proportion of expenses allocated to the plan pursuant to a written or oral agreement or practice (other than a written agreement in existence on March 11, 2021, to the extent not subsequently amended or modified) under which the income or expenses are divided or to be divided between the plan and one or more other employee benefit plans. Absent a waiver, this condition continues to apply to contributions or income relative to the SFA plan before the date of merger.

Exceptions. This prohibition does not apply to a good faith allocation of:

## PAPERWORK REDUCTION ACT NOTICE

This section provides information on the time and cost estimates for preparing and filing the Annual Statement of Compliance and required information. If you have any comments concerning the accuracy of these estimates or suggestions for making it simpler to submit the information, please send your comments to the Pension Benefit Guaranty Corporation, Office of the General Counsel, 445 12th Street SW, Washington, DC 20024-2101.

Information filed with PBGC under these requirements is confidential to the extent provided in the Freedom of Information Act and the Privacy Act. If PBGC receives a request for confidential information, it will notify the submitter of the records, and afford them a reasonable period of time to object to the disclosure, pursuant to PBGC procedures and as required under Executive Order 12600. If PBGC decides not to sustain a submitter's objection in any request, it will provide the submitter with a written statement explaining why it has determined to disclose within a reasonable number of days before a specified disclosure date. PBGC will share the Annual Statement of Compliance, including any supporting documents and information, with the U.S. Department of Labor and the Treasury Department (collectively the Agencies) to enable the Agencies to fulfill their responsibilities under ERISA.

This information collection is necessary for PBGC to properly administer the SFA program. PBGC uses the information it receives in a plan's Annual Statement of Compliance to ensure that the plan is compliant with the restrictions and conditions imposed on the plan under section 4262 of ERISA and 29 CFR part 4262.

PBGC estimates an average per plan hour burden of 2 hours of fund office time and an average cost burden of \$2,400 in contractor costs for work done by attorneys. These are estimates and the actual time and cost per plan will vary depending on the circumstances of a given filing and the size of the plan.

This collection of information has been approved by the Office of Management and Budget (OMB) under control number 1212-0074 (expires XX/XX/2026). Under the Paperwork Reduction Act, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.
