

OMB Control No. 1225-0094
Nonsubstantive Change Justification Statement

Justification Statement
and Notice to OMB Reviewer:

The Department of Labor is requesting a burden increase to this generic OMB Control No. 1225-0094 due to the prior estimate of 250 hours being too small for requests, and DOL is requesting to increase the generic bucket limit of burden for this ICR. No substance changes are occurring other than the increase in the bucket to accommodate more event registrations.
