**Apprenticeship Building America (ABA)
State Apprenticeship System Building and Modernization Grants Study**

Industry/Employer Protocol

This protocol provides a comprehensive set of questions that will be adapted based on the employer's role in the ABA-grant sponsored registered apprenticeship or pre-apprenticeship program.

INTRODUCTION

Thank you for meeting with us today. My name is [name] and I am here with my colleague [name] and we work for [the Urban Institute/Mathematica], a private research organization that conducts policy-related research on a variety of social welfare and economic issues.

This project is being conducted under contract to the U.S. Department of Labor. Our visit here today is part of the Evaluation of Registered Apprenticeship Initiatives (ERAI), a national study sponsored by the U.S. Department of Labor that, in part, is examining the implementation of the Apprenticeship Building America (ABA) grants. [State name] received a grant under the ABA to expand and modernize its state apprenticeship system. Today, we are seeking to learn more about role and involvement of employers and industry partners in [State's name] apprenticeship system.

Privacy Statement: I/we know that you are busy and we will be as focused as possible and will only ask questions that are relevant to your experience. We have many questions and will be talking to many different people, so please do not feel as though we expect you to be able to answer every question. If you don't know the answer to a question, just let us know and we can move on. Your participation in this interview is voluntary and you may choose not to answer some or any of our questions. We will do everything we can to secure the privacy of the information you provide but ask that you consider using headphones or finding a private space to talk so that other people cannot hear or see this conversation.

We believe there are no direct benefits to you, but we hope that the findings from this study will benefit the registered apprenticeship system by providing research insights on how state systems can expand and modernize apprenticeship programs. We believe the risks of participating in this study are minimal.

My colleague and I will be taking notes in order to document what we hear during our discussion. We do not share these notes with anyone outside of our research team, including DOL. We will destroy these notes after the end of our project. When we compile our reports, the names of individual respondents will not be included. If we choose to quote you, you will not be quoted by name and we will be sure that the quote cannot be directly attributed to you.

Finally, to help us accurately capture the information you share, we would like to record this interview. The recording is just a back-up for our notes and will be kept within our small research team. The interview recording will be deleted once we have developed a full set of notes from the interview.

Do you have any questions for me?

[If we decide to record the interview] Are you okay with us recording the interview to improve the accuracy of our notes? [If yes, start recorder. If no, take handwritten notes].

Do I have your permission to begin the interview? [Begin interview if consent granted]

OMB Burden Statement: According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless such collection displays an Office of Management and Budget (OMB) control number. The valid OMB control number for this information collection is 1290-ONEW. The time required to complete this collection of information is estimated to average 60 minutes, including the time to review instructions, search existing data resources, gather the data needed and complete and review the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Chiefevaluationoffice@DOL.gov and reference the OMB Control Number 1290-ONEW.

Thank you. We know that you have/may have a rich history of training programs and registered apprenticeships, but I want to remind you that our focus today is on recent activities that have occurred since the ABA grant in summer 2022.
