

**SUPPORTING STATEMENT
FOR PAPERWORK REDUCTION ACT SUBMISSION
Approved State Ability to Benefit Process**

- 1. Explain the circumstances that make the collection of information necessary. What is the purpose for this information collection? Identify any legal or administrative requirements that necessitate the collection. Include a citation that authorizes the collection of information. Specify the review type of the collection (new, revision, extension, reinstatement with change, reinstatement without change). If revised, briefly specify the changes. If a rulemaking is involved, list the sections with a brief description of the information collection requirement, and/or changes to sections, if applicable.**

On January 18, 2022, the Department convened a negotiated rulemaking committee, the Institutional and Programmatic Eligibility Committee, to consider proposed changes to regulations for the Federal Student Aid programs authorized under title IV of the Higher Education Act of 1965, as amended, (HEA). Through the Notice of Proposed Rulemaking (NPRM) published on May 19, 2023, docket number ED-2022-OPE-0062, the Secretary proposed new regulations to promote transparency, competence, stability, and effective outcomes for students in the provision of postsecondary education.

The Department amends, under the authority of section 484 of the HEA, regulations covering approved State processes under ATB. These regulations make improvements in the areas of Ability to Benefit (ATB). These final regulations are a result of negotiated rulemaking in 2022 and add new requirements to the current regulations.

In this Final Rule, the Department revises current regulations for State ATB processes. These changes to § 668.156 clarify the requirements for the approval of a State process, and add monitoring and reporting requirements. The State process is one of the three ATB alternatives that an individual who is not a high school graduate could fulfill to receive title IV, HEA, Federal student aid for enrollment in an eligible career pathway program.

This request is to continue the collection designated 1845-0176 by OMB during the NPRM stage of this information collection filing.

- 2. Indicate how, by whom, and for what purpose the information is to be used. Except for a new collection, indicate the actual use the agency has made of the information received from the current collection.**

This information will be reviewed by the Department to ensure that the State process application meets the regulatory requirements and that the States monitor school participation and provides the required reporting to maintain compliance to offer this alternative for student eligibility for title IV, HEA student financial aid.

- 3. Describe whether, and to what extent, the collection of information involves the use of automated, electronic, mechanical, or other technological collection techniques or forms of information technology, e.g. permitting electronic submission of responses, and the basis for the decision of adopting this means of collection. Please identify systems or websites used to electronically collect this information. Also describe any consideration given to using technology to reduce burden. If there is an increase or decrease in burden related to using technology (e.g. using an electronic form, system or website from paper), please explain in number 12.**

There is nothing in the regulations that prohibit the use of technology or that restricts the use of electronic submission of the application or reporting required.

- 4. Describe efforts to identify duplication. Show specifically why any similar information already available cannot be used or modified for use for the purposes described in Item 2 above.**

This information is not duplicated in any other information collection.

- 5. If the collection of information impacts small businesses or other small entities, describe any methods used to minimize burden. A small entity may be (1) a small business which is deemed to be one that is independently owned and operated and that is not dominant in its field of operation; (2) a small organization that is any not-for-profit enterprise that is independently owned and operated and is not dominant in its field; or (3) a small government jurisdiction, which is a government of a city, county, town, township, school district, or special district with a population of less than 50,000.**

The Department does not believe the final regulations will adversely impact any small entity.

- 6. Describe the consequences to Federal program or policy activities if the collection is not conducted or is conducted less frequently, as well as any technical or legal obstacles to reducing burden.**

If the requirements in these final regulations do not take place, States will not meet the regulatory requirements to offer a State process. Without the State process, an individual who is not a high school graduate could not access one of the three ability to benefit alternatives to receive title IV, HEA, Federal student aid to enroll in an eligible career pathway program.

- 7. Explain any special circumstances that would cause an information collection to be conducted in a manner:**

- **requiring respondents to report information to the agency more often than quarterly;**
- **requiring respondents to prepare a written response to a collection of information in fewer than 30 days after receipt of it;**

- **requiring respondents to submit more than an original and two copies of any document;**
- **requiring respondents to retain records, other than health, medical, government contract, grant-in-aid, or tax records for more than three years;**
- **in connection with a statistical survey, that is not designed to produce valid and reliable results than can be generalized to the universe of study;**
- **requiring the use of a statistical data classification that has not been reviewed and approved by OMB;**
- **that includes a pledge of confidentiality that is not supported by authority established in statute or regulation, that is not supported by disclosure and data security policies that are consistent with the pledge, or that unnecessarily impedes sharing of data with other agencies for compatible confidential use; or**
- **requiring respondents to submit proprietary trade secrets, or other confidential information unless the agency can demonstrate that it has instituted procedures to protect the information's confidentiality to the extent permitted by law.**

This information collection does not require any of the noted special circumstances.

- 8. As applicable, state that the Department has published the 60 and 30 Federal Register notices as required by 5 CFR 1320.8(d), soliciting comments on the information collection prior to submission to OMB.**

Include a citation for the 60 day comment period (e.g. Vol. 84 FR ##### and the date of publication). Summarize public comments received in response to the 60 day notice and describe actions taken by the agency in response to these comments. Specifically address comments received on cost and hour burden. If only non-substantive comments are provided, please provide a statement to that effect and that it did not relate or warrant any changes to this information collection request. In your comments, please also indicate the number of public comments received.

For the 30 day notice, indicate that a notice will be published.

Describe efforts to consult with persons outside the agency to obtain their views on the availability of data, frequency of collection, the clarity of instruction and record keeping, disclosure, or reporting format (if any), and on the data elements to be recorded, disclosed, or reported.

Consultation with representatives of those from whom information is to be obtained or those who must compile records should occur at least once every 3 years – even if the collection of information activity is the same as in prior periods. There may be circumstances that may preclude consultation in a specific situation. These circumstances should be explained.

The Department developed these regulations after conducting negotiated rulemaking with affected entities and other interested parties. The public comment period for this

information collection ran concurrently with the Notice of Proposed Rulemaking, published May 19, 2023 (Vol. 88, No.97, pages32300-32511).

There were no specific comments related to the burden for this information collection. No changes have been made to the estimated burden.

9. Explain any decision to provide any payment or gift to respondents, other than remuneration of contractors or grantees with meaningful justification.

No payments or gifts will be provided to respondents.

10. Describe any assurance of confidentiality provided to respondents and the basis for the assurance in statute, regulation, or agency policy. If personally identifiable information (PII) is being collected, a Privacy Act statement should be included on the instrument. Please provide a citation for the Systems of Record Notice and the date a Privacy Impact Assessment was completed as indicated on the IC Data Form. A confidentiality statement with a legal citation that authorizes the pledge of confidentiality should be provided.¹ If the collection is subject to the Privacy Act, the Privacy Act statement is deemed sufficient with respect to confidentiality. If there is no expectation of confidentiality, simply state that the Department makes no pledge about the confidentiality of the data. If no PII will be collected, state that no assurance of confidentiality is provided to respondents. If the Paperwork Burden Statement is not included physically on a form, you may include it here. Please ensure that your response per respondent matches the estimate provided in number 12.

There are no assurances of confidentiality provided to States regarding this information.

11. Provide additional justification for any questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private. The justification should include the reasons why the agency considers the questions necessary, the specific uses to be made of the information, the explanation to be given to persons from whom the information is requested, and any steps to be taken to obtain their consent.

There are no questions of a sensitive nature in this collection.

12. Provide estimates of the hour burden for this current information collection request. The statement should:

¹ Requests for this information are in accordance with the following ED and OMB policies: Privacy Act of 1974, OMB Circular A-108 – Privacy Act Implementation – Guidelines and Responsibilities, OMB Circular A-130 Appendix I – Federal Agency Responsibilities for Maintaining Records About Individuals, OMB M-03-22 – OMB Guidance for Implementing the Privacy Provisions of the E-Government Act of 2002, OMB M-06-15 – Safeguarding Personally Identifiable Information, OM:6-104 – Privacy Act of 1974 (Collection, Use and Protection of Personally Identifiable Information)

- **Provide an explanation of how the burden was estimated, including identification of burden type: recordkeeping, reporting or third party disclosure. Address changes in burden due to the use of technology (if applicable). Generally, estimates should not include burden hours for customary and usual business practices.**
- **Please do not include increases in burden and respondents numerically in this table. Explain these changes in number 15.**
- **Indicate the number of respondents by affected public type (federal government, individuals or households, private sector – businesses or other for-profit, private sector – not-for-profit institutions, farms, state, local or tribal governments), frequency of response, annual hour burden. Unless directed to do so, agencies should not conduct special surveys to obtain information on which to base hour burden estimates. Consultation with a sample (fewer than 10) of potential respondents is desirable.**
- **If this request for approval covers more than one form, provide separate hour burden estimates for each form and aggregate the hour burden in the table below.**
- **Provide estimates of annualized cost to respondents of the hour burdens for collections of information, identifying and using appropriate wage rate categories. [Use this site](#) to research the appropriate wage rate. The cost of contracting out or paying outside parties for information collection activities should not be included here. Instead, this cost should be included in Item 14. If there is no cost to respondents, indicate by entering 0 in the chart below and/or provide a statement.**

Under § 668.156(a), a State must apply to the Secretary for approval of its State process as an alternative to achieving a passing score on an approved, independently administered test or satisfactory completion of at least six credit hours or its recognized equivalent coursework for the purpose of determining a student's eligibility for title IV, HEA program for students who are without a high school diploma or its recognized equivalent.

The Final Rule will amend the monitoring requirement in redesignated § 668.156(c) to provide a participating institution that has failed to achieve the 85 percent success rate up to three years to achieve compliance.

The Final Rule will amend redesignated § 668.156(e) to require that States report information on race, gender, age, economic circumstances, and education attainment and permit the Secretary to publish a notice in the *Federal Register* with additional information that the Department may require States to submit.

We estimate that it will take a State 160 hours to create and submit an application for a State Process to the Department under the regulations in Section 668.156(a) for a total of 1,600 hours (160 hours x 10 States).

We estimate that it will take a State an additional 40 hours annually to monitor the compliance of the institution's use of the State Process under Section 668.156(c) for a total of 400 hours (40 hours x 10 States). This time includes the development of any Corrective Action Plan for any institution the State finds not be complying with the State Process.

We estimate that it will take a State 120 hours to meet the reapplication requirements in Section 668.156(e) for a total of 1,200 hours (120 hours x 10 States).

The total hours associated with the change in the regulations as of the effective date of the regulations are estimated at a total of 3,200 hours of burden (320 hours x 10 States) with a total estimated cost of \$153,760.00 in OMB Control Number 1845-0176.

The monetized net cost of the increased burden for institutions was calculated using wage data developed using Bureau of Labor Statistics (BLS) data. For States we have used the median hourly wage for Education Administrators, Postsecondary, \$48.05 per hour according to BLS. <https://www.bls.gov/oes/current/oes119033.htm>.

Estimated Annual Burden and Respondent Costs Table

Information Activity or IC (with type of respondent)	Number of Respondents	Number of Responses	Average Burden Hours per Response	Total Annual Burden Hours	Estimated Respondent Average Hourly Wage	Total Annual Costs (hourly wage x total burden hours)
Individual	N/A	N/A	N/A	N/A	N/A	N/A
For-Profit Institutions	N/A	N/A	N/A	N/A	N/A	N/A
Private Institutions	N/A	N/A	N/A	N/A	N/A	N/A
Public Institutions	10	30	See above	3,200	\$48.05	\$153,760
Annualized Totals	10	30	See above	3,200	\$48.05	\$153,760

Please ensure the annual total burden, respondents and response match those entered in IC Data Parts 1 and 2, and the response per respondent matches the Paperwork Burden Statement that must be included on all forms.

13. **Provide an estimate of the total annual cost burden to respondents or record keepers resulting from the collection of information. (Do not include the cost of any hour burden shown in Items 12 and 14.)**
 - **The cost estimate should be split into two components: (a) a total capital and start-up cost component (annualized over its expected useful life); and (b) a total operation and maintenance and purchase of services component. The estimates should take into account costs associated with generating,**

maintaining, and disclosing or providing the information. Include descriptions of methods used to estimate major cost factors including system and technology acquisition, expected useful life of capital equipment, the discount rate(s), and the time period over which costs will be incurred. Capital and start-up costs include, among other items, preparations for collecting information such as purchasing computers and software; monitoring, sampling, drilling and testing equipment; and acquiring and maintaining record storage facilities.

- **If cost estimates are expected to vary widely, agencies should present ranges of cost burdens and explain the reasons for the variance. The cost of contracting out information collection services should be a part of this cost burden estimate. In developing cost burden estimates, agencies may consult with a sample of respondents (fewer than 10), utilize the 60-day pre-OMB submission public comment process and use existing economic or regulatory impact analysis associated with the rulemaking containing the information collection, as appropriate.**
- **Generally, estimates should not include purchases of equipment or services, or portions thereof, made: (1) prior to October 1, 1995, (2) to achieve regulatory compliance with requirements not associated with the information collection, (3) for reasons other than to provide information or keep records for the government or (4) as part of customary and usual business or private practices. Also, these estimates should not include the hourly costs (i.e., the monetization of the hours) captured above in Item 12.**

Total Annualized Capital/Startup Cost : _____
Total Annual Costs (O&M) : _____
Total Annualized Costs Requested : _____

There is no additional cost.

- 14. Provide estimates of annualized cost to the Federal government. Also, provide a description of the method used to estimate cost, which should include quantification of hours, operational expenses (such as equipment, overhead, printing, and support staff), and any other expense that would not have been incurred without this collection of information. Agencies also may aggregate cost estimates from Items 12, 13, and 14 in a single table.**

There is no additional cost to the Federal government.

- 15. Explain the reasons for any program changes or adjustments. Generally, adjustments in burden result from re-estimating burden and/or from economic phenomenon outside of an agency's control (e.g., correcting a burden estimate or an organic increase in the size of the reporting universe). Program changes result from a deliberate action that materially changes a collection of information and generally are result of new statute or an agency action (e.g., changing a form, revising regulations, redefining the respondent universe, etc.). Burden changes should be disaggregated by type of change (i.e., adjustment, program change due to new**

statute, and/or program change due to agency discretion), type of collection (new, revision, extension, reinstatement with change, reinstatement without change) and include totals for changes in burden hours, responses and costs (if applicable).

Provide a descriptive narrative for the reasons of any change in addition to completing the table with the burden hour change(s) here.

	Program Change Due to New Statute	Program Change Due to Agency Discretion	Change Due to Adjustment in Agency Estimate
Total Burden		+3,200	
Total Responses		+30	
Total Costs (if applicable)			

This request is for a continuation to the collection designated 1845-0176 by OMB, during the NPRM stage of this information collection filing, maintaining the burden due to the final regulation for State Ability-to-Benefit process. The Department is requesting 3,200 hours for 10 States (10 States X 320 hours = 3,200 hours).

- 16. For collections of information whose results will be published, outline plans for tabulation and publication. Address any complex analytical techniques that will be used. Provide the time schedule for the entire project, including beginning and ending dates of the collection of information, completion of report, publication dates, and other actions.**

This information collection will not be published.

- 17. If seeking approval to not display the expiration date for OMB approval of the information collection, explain the reasons that display would be inappropriate.**

The Department is not seeking this approval.

- 18. Explain each exception to the certification statement identified in the Certification of Paperwork Reduction Act.**

The Department is not requesting any exceptions to the "Certification for Paperwork Reduction Act Submissions" of OMB Form 83-I.
