

1320.12(a); see also 60 FR 44978, 44983 Aug. 29, 1995. OMB believes the 30-day notice informs the regulated community to file relevant comments and affords the agency adequate time to digest public comments before it renders a decision. 60 FR 44983, Aug. 29, 1995. Therefore, respondents should submit their respective comments to OMB within 30 days of publication to best ensure having their full effect.

Comments are invited on the following ICR regarding: (1) Whether the information collection activities are necessary for FRA to properly execute its functions, including whether the information will have practical utility; (2) the accuracy of FRA's estimates of the burden of the information collection activities, including the validity of the methodology and assumptions used to determine the estimates; (3) ways for FRA to enhance the quality, utility, and clarity of the information being collected; and (4) ways to minimize the burden of information collection activities on the public, including the use of automated collection techniques or other forms of information technology.

The summary below describes the ICR that FRA will submit for OMB clearance as the PRA requires:

Title: Railroad Communications.

OMB Control Number: 2130-0524.

Abstract: The railroad communications regulations in 49 CFR part 220 prescribe the minimum requirements governing wireless communications used in rail operations as well as establish the prohibitions, restrictions, and requirements that apply to the use of personal and railroad-supplied cellular telephones and other electronic devices. FRA amended its radio standards and procedures to: promote compliance by making the regulations more flexible; require wireless communications devices, including radios, for specified classifications of railroad operations and roadway workers; and retitle this part to reflect its coverage of other means of wireless communications, such as cellular telephones and data radio terminals, to convey emergency and need-to-know information. The amended regulations established safe, uniform procedures covering the use of radio and other wireless communications within the railroad industry.

Type of Request: Extension without change (with changes in estimates) of a currently approved collection.

Affected Public: Businesses.

Form(s): N/A.

Respondent Universe: 746 railroads.

Frequency of Submission: On occasion.

Total Estimated Annual Responses: 4,119,004.

Total Estimated Annual Burden: 95,902 hours.

Total Estimated Annual Burden Hour Dollar Cost Equivalent: \$6,048,539.14.

FRA informs all interested parties that it may not conduct or sponsor, and a respondent is not required to respond to, a collection of information that does not display a currently valid OMB control number.

Authority: 44 U.S.C. 3501-3520.

Title: Title VI as It Applies to FTA Grant Programs OMB Number: 2132-0540.

Background: Title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d) states:

“No person in the United States shall, on the grounds of race, color, or national

origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.”

To achieve this purpose, each Federal department and agency which provides financial assistance for any program or activity is authorized and directed by the Department of Justice (DOJ) to effectuate provisions of Title VI for each program or activity by issuing generally applicable regulations or requirements. The Department of Transportation (DOT) has issued its regulations implementing this DOJ mandate.

In this regard, the responsibility of the FTA is to ensure that federally supported transit services and benefits are distributed by applicants, recipients, and subrecipients of FTA assistance in a manner consistent with Title VI. The employment practices of a grant applicant, recipient, or sub-recipient are also covered under Title VI if the primary purpose of the FTA-supported program is to provide employment or if those employment practices would result in discrimination against beneficiaries of FTA-assisted services and benefits.

FTA policies and requirements are designed to clarify and strengthen Title VI (service equity) procedures for FTA grant recipients by requiring submission of written plans and approval of such plans by the agency. All project sponsors receiving financial assistance pursuant to an FTA-funded project shall not discriminate in the provision of services because of race, color, or national origin. Experience has demonstrated that a program requirement at the application stage is necessary to assure that benefits and services are equitably distributed by grant recipients. The requirements prescribed by the Office of Civil Rights are designed to accomplish this objective and diminish possible vestiges of discrimination among FTA grant recipients. FTA's assessment of the requirements indicated that the formulation and implementation of the Title VI Program should occur with a decrease in costs to such applicants and recipients.

Respondents: Transit agencies, States, and metropolitan planning organizations

Estimated Annual Burden on Respondents: 284 (45 hours for each of the 100 more specific Title VI Program submissions; 1 hour for each of the 183 general Title VI Program submissions).

Estimated Total Annual Burden: 4,684 hours.

Frequency: Annual.

Director, Office of Management Planning.
