Evaluation of the Community Choice Demonstration
Home Assessment**

An Invitation!

You are invited to participate in another important research opportunity—the **Community Choice Demonstration Home Assessment!**

Researchers from Abt Associates are conducting an additional study for families who enrolled in the Community Choice Demonstration. You are invited to learn more about and enroll in the Home Assessment. The study team hopes to conduct the Assessment once now, and once a year from now. Each time, the Assessment should take about an hour of your time. As a token of appreciation, the interviewer will give you a \$45 gift card when the first Assessment is completed and \$50 when the follow-up Assessment is completed.

The Home Assessment is being completed to understand if the neighborhoods in which families live affect the indoor air quality and exposure to allergens of their homes. These are important factors that may impact the health and well-being of participating families.

Research has found that the home environment affects children's exposure to allergens and poor air quality, which can contribute to asthma flare-ups.

Participation in the Home Assessment is voluntary and does not affect your participation in the Community Choice Demonstration.

Someone from Abt Associates will reach out to you over the next few weeks to tell you more about the Home Assessment. You can also contact the study team to get more information.

Protecting your privacy

All information collected about families in the study will be kept private to the fullest extent allowed by law. The names of family members participating in the study will never appear in any reports or study findings. All members of the study team are trained to keep all data confidential and secure.

This research is conducted under the authority of the Secretary of the U.S. Department of Housing and Urban Development to undertake programs of research, studies, testing and demonstration related to the mission and programs of HUD (12 USC 1701z-1 et seq.).

If you require information to be presented in an accessible format or reasonable accommodations to participate in this study, please contact us with any specific requests by calling xxx-xxx-xxxx or emailing xxxx@xxxx.xxx. If you require language assistance to participate in this study, please contact us with any specific language assistance requests or needs.
