## Module A. Child-Reported Behavioral, Educational, and Social Functioning (Age 8-17 Years)

I have some questions for you so I can learn a little about you and your life. These questions will include things about school, friends, your health, social media habits, and more. If you don't know how to answer one of the questions, please just give me your best guess. You can choose to skip any questions you don't want to answer and we can stop at any time. None of the choices for these questions are wrong. Do you have any questions for me before we get started?

First, we are going to ask you some questions about your school and relationships. We know that sometimes kids do not like to talk about school very much. Please remember you can choose not to answer a question. We can also pause the interview for a bit if you need to.

**A.1** Please rate how much you agree or disagree with the following statements.
