**SUPPLEMENTARY INFORMATION:** This notice informs the public that HUD is seeking approval from OMB for the information collection described in Section A.

**A. Overview of Information Collection**

*Title of Information Collection:* 2024 Rental Housing Finance Survey.

*OMB Approval Number:* 2528-0276.

*Type of Request:* Revision of a currently approved collection.

*Form Number:* N/A.

*Description of the need for the information and proposed use:* The Rental Housing Finance Survey (RHFS) provides a measure of financial, mortgage, and property characteristics of rental housing properties in the United States. RHFS focuses on mortgage financing of rental housing properties, with emphasis on new originations for purchase-money mortgages and refinancing, and the characteristics of these new originations.

The RHFS will collect data on property values of residential structures, characteristics of residential structures, rental status and rental value of units within the residential structures, commercial use of space within residential structures, property management status, ownership status, a detailed assessment of mortgage financing, and benefits received from

Federal, state, local, and non-governmental programs.

Many of the questions are the same or similar to those found on the 1995 Property Owners and Managers Survey, the rental housing portion of the 2001 Residential Finance Survey, and previous collections of the Rental Housing Finance Survey. This survey does not duplicate work done in other existent HUD surveys or studies that deal with rental units financing.

Policy analysts, program managers, budget analysts, and Congressional staff can use the survey’s results to advise executive and legislative branches about the mortgage finance characteristics of the rental housing stock in the United States and the suitability of public policy initiatives. Academic researchers and private organizations will also utilize the data to facilitate their research and projects.

The Department of Housing and Urban Development (HUD) needs the RHFS data for the following two reasons:

1. This is the only source of information on the rental housing finance characteristics of rental properties.
2. HUD needs this information to gain a better understanding of the mortgage finance characteristics of the rental housing stock in the United States to evaluate, monitor, and design HUD programs.

*Members of affected public:* Owners and managers of rental properties.

*Estimated number of respondents:* 10,000.

*Estimated time per response:* 60 minutes.

*Frequency of response:* One time every three years

*Estimated total annual burden hours:* 10,000.

*Estimated total annual cost:* The only cost to respondents is that of their time.

*Respondent’s obligation:* Voluntary.

*Legal authority:* This survey is conducted under Title 13, U.S.C., Section 8b and Title 12, U.S.C., Section 1701z-1 et seq.

Information collection	Number of respondents	Frequency of response	Responses per annum	Burden hour per response	Annual burden hours	Hourly cost per response	Annual cost
RHFS .....	10,000	1	10,000	1	10,000	\$40.51	\$405,100
