

NASA would like to hear from its customers about the services we provide you at our Earth Observing System Data and Information System (EOSDIS) distributed active archive centers (DAACs). Your feedback is critical for improving EOSDIS information services and data.

All submitted information is collected and processed by CFI Group, an independent research and consulting firm contracted by NASA to support the ACSI survey. When you finish the survey, your responses will be sent directly to a database located on CFI Group's server, which cannot be accessed by NASA personnel. On behalf of NASA, thank you in advance for your cooperation and insight. Depending on the length of your answers the survey should take 15 minutes or so to complete.

Your answers are voluntary, but your opinions are very important. Your responses will remain anonymous and will only be reported in aggregate.

Paperwork Reduction Act Statement: This information collection meets the requirements of 44 U.S.C 3507, as amended by section 2 of the Paperwork Reduction Act of 1995. You do not need to answer these questions unless we display a valid Office of Management and Budget control number. The OMB control number for this information collection is 2700-xxxx and it expires on xx/xx/xxxx. We estimate that it will take about xx minutes to read the instructions, gather the facts, and answer the questions. You may send comments on our time estimate above to __@nasa.gov. Send only comments relating to our time estimate to this address.

Questions or problems with the survey? Email NASASurvey@cfigroup.com.

Please click the "Next" button to begin.

If you have downloaded data from GHRC, how did you access the data?

- Directly downloaded the data to your machine via HyDRO 2.0 file list
- Ordered data using the 'Order this dataset' cart functionality in HyDRO 2.0
- Used the script provided with a program like IDL or Python to download the data
- Utilized a machine accessible service like OPeNDAP
- Queried the Common Metadata Repository (CMR) API
- Visited the Earthdata Search portal
- Other (please specify)

None of the above
