Paperwork Reduction Act Statement

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless such collection displays a valid OMB control number. The valid OMB control number for this information collection is 3048-0004. The time required to complete this information collection is estimated to be 15 minutes per response, including the time spent to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, forward correspondence to EXIM Bank and the Office of Management and Budget, Paperwork Reduction Project, OMB # 3048-0004 Washington, D.C. 20503.

Introduction

The Export-Import Bank Act of 1945 (as amended) directs EXIM to report annually to the U.S. Congress on any actions taken toward providing export credit programs that are competitive with those offered by official foreign export credit agencies.

The Report measures competitiveness through a series of comparisons which draw on quantitative and qualitative information about the programs and policies of the major foreign export credit agencies. For instance, the Report provides a comparative assessment of the general financing elements (terms and conditions) as well as the parameters of the major export credit and related programs (such as aircraft, project finance, co-financing, environmentally beneficial exports, and services exports). EXIM further evaluates EXIM policies that affect EXIM's support and therefore have the potential to impact U.S. exporter competitiveness (e.g., economic impact, U.S. content requirements, and shipping policies).

As part of this report, Congress requires EXIM to conduct a survey of a representative sample of its customers, in order to gain insights into the real-world utility of EXIM's export credit support and the competitiveness of EXIM's programs. Your organization's views are essential in understanding how EXIM can support the success of American businesses in the international marketplace. Your participation is also critical in obtaining a representative and valid sample of EXIM Bank users and substantiating the Bank's true performance.

Instruction

Please respond to all questions based on your company's most recent experiences.

If your company engaged EXIM for more than one transaction, please respond with your average experience and use the general comment areas in each section to discuss how a specific deal differed (e.g., your company's experience with the long-term loan program compared to the medium-term insurance program).

You may forward the survey link to the most appropriate contact person at your organization to respond to a specific section. EXIM will consolidate separate submissions.

Questions that require a response are marked with an asterisk (*).
