GSA Common Catalog Platform User Transition Form

GSA is currently developing the new Common Catalog Platform (CCP), a modern platform that will replace the Schedule Input Program (SIP), and integrate with eMod to streamline the contract and catalog management processes. GSA will use the information from this form to determine the transition sequence and schedule for moving contracts to the CCP. After a draft schedule is developed, we will share more information about CCP eligibility dates and the transition process. Most contracts will not transition until FY24+. Send any questions to CatalogManagement@gsa.gov.
