Grant Progress

Cumulative Grant Progress :- How close have you come to meeting the expected results of the agreement? Use the Theory of Change to briefly describe your progress toward each objective (maximum five sentences). What have been the results so far? How do these results compare with what we expected? What explains the difference- was it something about the activities themselves, or maybe something about our assumptions, or perhaps a change in context? What source(s) of information did you use to report on this outcome.

Reflections & Lessons Learned : Describe here any reflections or lessons learned that you have gained from the activities you have done this semester that you have not shared before (maximum 3 lessons learned, maximum five sentences per lesson or reflection).

Opportunities : Is the opportunity internal or external? How has this opportunity affected the implementation of the grant? How have activities or plans been modified in response to the opportunity?

Challenges : - Is the challenge internal or external? How has this challenge affected the implementation of the grant? How have activities or plans been modified in response to the opportunity?

Additional Information

Highlights - Describe any events, awards received, news reports, innovations, or similar information about the organization, programming, or participants that you have achieved during this semester that you have not previously shared with the IAF.

Major Changes - Describe any major changes to the grant project, organization, communities, or environment (optional, if applicable).

Support - Describe here any support from the IAF that you may need for the next semester (e.g., organizational strengthening, amendment requests, etc.).

Updated Work Plan Timeline - File upload each semester (optional)

Other - Describe any other information or comments you would like to share with the IAF.
