Welcome to the SNAP COVID-19 Survey

- You may complete the whole survey in one session or save your responses and come back to it later. Responses for each section of the survey will not be submitted until you click “submit” at the end of each section. Please note that after you click “submit” you will not be able to review your responses.
- *Please use the EXIT button at the bottom of the page when you want to exit your survey.*
- Please use the buttons and links on each page to move through the survey. Using Enter or your browser’s Back function may cause errors.
- If you’d like to review the questions before you start the survey, click here for a PDF version of the full survey.
- If you have trouble accessing the survey or if you have questions, please contact us at [STUDYADDRESS]@mathematica-mpr.com or [study toll-free telephone number].

Overview

Welcome to the SNAP COVID-19 survey! This web survey aims to provide a comprehensive, nationwide picture of the adaptations SNAP State agencies have made in response to the COVID-19 public health emergency. Specifically, we want to know about: (1) changes related to staffing, (2) changes in use of technology, (3) decision-making processes for making policy and operational changes, and (4) lessons States learned during COVID-19 public health emergency that could increase preparedness for any future disruptions that affect service delivery.

This survey is part of an exploratory study. Mathematica, an independent research and consulting company, is conducting the study on behalf of the United States Department of Agriculture (USDA), Food and Nutrition Service (FNS). FNS is sponsoring the study to better understand how SNAP State agencies shifted operations since the onset of the COVID-19 public health emergency, focusing on changes related to SNAP application and recertification processes, case management, and benefit issuance.

Also, the focus of this survey is on SNAP policies and operations and while other programs, like Pandemic-EBT (P-EBT), have impacted SNAP the questions in *this survey will not focus on P-EBT*.

This survey is not part of any FNS monitoring or auditing activities. The results of the survey will be used for research purposes only. Most of the information collected about each SNAP State agency in the survey will be publicly reported. The information will not be directly tied to any individual survey respondents, however, and information about the respondents will not be made public. After data collection is complete, the study team may follow up with your State if they need to clarify any of your survey responses.

Public Burden Statement

This information is being collected to assist the Food and Nutrition Service in examining how State SNAP agencies shifted operations since the onset of the COVID-19 pandemic. This is a voluntary data collection and FNS will use the information to describe how State agencies shifted operations during and after the public health emergency and identify best practices and lessons learned. This collection does not request any personally identifiable information under the Privacy Act of 1974. According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number.

The valid OMB control number for this information collection is 0584-XXXX and Expiration Date XX-XX-20XX. The time required to complete this information collection is estimated to take 1.25 hours per response. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: U.S. Department of Agriculture, Food and Nutrition Service, Office of Policy Support, 1320 Braddock

Place, 5th Floor, Alexandria, VA 22306 ATTN: PRA (0584-XXXX).

Next >>

The survey will take about 35 minutes. After you complete the survey, we will ask you for copies of documents about your State or Territory's COVID-19 public health emergency policies and procedures. Hereafter we refer to States or Territories as "States." Gathering the documents will take about 30 minutes. To answer the questions in this survey, staff will need to know about the policies and procedures in place before, during and after the public health emergency. We understand that staff may have changed positions since the beginning of the public health emergency. In this situation, you may answer these questions to the best of your understanding, or you may assign sections in the survey to others who may know the relevant information.

[<< Back](#)

[Next >>](#)

Assigning Sections

While the sections of the survey were designed so that hopefully only one staff person needs to answer the section, you may reassign the sections to the appropriate staff at any point in the assignment module. *There is only one survey link per State and so the survey link that you received may be forwarded to anyone on your team.* The sections are:

- A. Staffing
- B. Operations
- C. Benefit issuance
- D. Participant case management and communication
- E. Technology and data systems

You may complete the main survey sections yourself or assign other agency staff to complete them. In the introductory section, you can provide contact information for the person in your agency who is the best person to complete each of the other sections. We will send notifications to those people to ask them to complete their assigned sections.

[<< Back](#)

[Next >>](#)

Personally identifiable information (PII) will not be used to retrieve survey records or data.

For more information

If you have any questions or concerns about the survey, please contact the Mathematica study team at [fill study email address] or the FNS project officer, Amanda Wyant, at Amanda.Wyant@usda.gov.

Thank you in advance for your help in completing this survey.

By proceeding to the next page of the survey, you are acknowledging your understanding of the study and consenting to participate.

<< Back

Next >>

First, please answer some background questions about your SNAP State agency.

[<< Back](#)

[Next >>](#)

Our records indicate that your State is county-administered. Are your policies, procedures, and operations related to the public health emergency consistent at the county level across the entire State?

- Yes
- No

[<< Back](#)

[Next >>](#)

In this survey we will refer to the time periods [before, during and after the Federal public health emergency](#). We recognize that States may define the timeframe of the COVID-19 public health emergency differently than how it is defined at the Federal level.

When did your SNAP State agency begin adapting SNAP operations to respond to the public health emergency?

Month

Year

Did not adapt SNAP operations

[<< Back](#)

[Next >>](#)

When did your SNAP State agency resume "normal" operations? By "normal" operations we mean the time when your State's public health emergency declaration ended.

Month

Year

Have not yet resumed normal operations

[<< Back](#)

[Next >>](#)

Next, please review the topics covered in each of the SNAP COVID-19 survey sections in the following table and indicate who will respond to each section. You can indicate that you will respond to the questions in the section yourself or designate someone else to respond to these sections.

You may delegate only one person per section; however, you can edit the section designee at any time before the section has been completed and submitted. You may [click here](#) to view a pdf of the survey questions before designating respondents.

Please designate only State-level or Territory-level SNAP staff to complete survey sections. Please do not designate local office or provider staff; we are seeking a State-level perspective.

Section A: Staffing	
Topics covered:	Examples of staff who might be able to respond:
<ul style="list-style-type: none">• Telework and remote work policies• Information about offices open to the public• Staffing challenges	<ul style="list-style-type: none">• SNAP director• SNAP deputy director• SNAP policy staff

- I will complete this section

Section A. Staffing

This section has questions about your SNAP State agency's staffing changes made in reaction to the COVID-19 public health emergency. As a reminder, the focus of this survey is on SNAP policies and operations. Although other programs, like Pandemic-EBT (P-EBT), have impacted SNAP the questions in this survey will not focus on P-EBT.

When asking questions about your State's policies before, during and after the COVID-19 public health emergency, we will use timeframes defined by the time period of the Federal public health emergency.

"Before the public health emergency" refers to the time period from March 2018 to March 2020.

"During the public health emergency" refers to the time period from March 2020 to May 2023.

We understand that SNAP operations may have changed multiple times within this period, but when answering questions about what happened during the public health emergency, please include adaptations or changes that were made, or situations that occurred at any point during this period, even if they did not continue for the full public health emergency.

"After the public health emergency" refers to the time period beginning the first full month after the Federal public health emergency ended in May 2023.

[<< Back](#)

[Next >>](#)

During the public health emergency, did your SNAP State agency make any of the following adaptations to help frontline staff manage their workloads?

Frontline staff are all staff who work directly, both verbally and electronically, with applicants and SNAP participants. Case managers are one example, but there are also other frontline staff who work directly with applicants and participants such as customer service representatives.

Select all that apply

- Yes, we redeployed staff from other units within SNAP
- Yes, we redeployed staff from other State, county, or city programs
- Yes, we rehired employees or hired other temporary staff
- Yes, we expanded use of non-merit staff
- Yes, we expanded use of overtime to cover increased workloads
- Other, please specify
- No, we did not make adaptations

[<< Back](#)

[Next >>](#)

Thinking about the time period [during the public health emergency](#), was recruiting and retaining qualified [frontline staff](#) ever difficult?

- Yes
- No

[<< Back](#)

[Next >>](#)

[During the public health emergency](#), how strongly do you agree or disagree about the following statement related to staffing difficulties?

We had to downsize our [frontline staff](#) due to cuts to the State's SNAP budget

- Strongly agree
- Agree
- Neither agree nor disagree
- Disagree
- Strongly disagree
- Don't know

[<< Back](#)

[Next >>](#)

During the public health emergency, did the SNAP frontline staff support *only your State's SNAP program*? We are interested in knowing whether frontline staff work exclusively on SNAP or if they also support other programs outside of SNAP.

- Yes, all SNAP frontline staff were dedicated only to SNAP
- No, only some of the SNAP frontline staff were dedicated only to SNAP
- No, all of the SNAP frontline staff worked for SNAP in addition to other programs

<< Back

Next >>

What other programs did the [frontline staff](#) support?

Select all that apply

- Pandemic EBT (P-EBT)
- Medicaid
- Temporary Assistance for Needy Families (TANF)
- The Special Supplemental Nutrition Program for Women, Infants, and Children (WIC)
- The Low Income Home Energy Assistance Program (LIHEAP)
- Refugee Medical and/or Cash Assistance
-
- None of the above

[<< Back](#)

[Next >>](#)

Does your SNAP State agency currently have more, fewer, or about the same number of SNAP offices open to the public compared with the period from March 2018 to March 2020?

- More
- Fewer
- About the same

<< Back

Next >>

How would you describe the SNAP offices that you have currently open to the public?

Select all that apply

- These offices are all fully open to the public
- These offices are open but by appointment only
- Some other type of office set up (SPECIFY)

<< Back

Next >>

Thinking about the time period [during the public health emergency](#), did any SNAP offices, including call centers, have to close permanently?

- Yes
- No

[<< Back](#)

[Next >>](#)

Which of the following types of offices closed permanently [during the public health emergency?](#)

Select all that apply

- Rural offices
- Urban offices
- Suburban offices
- Offices that were difficult to staff
- Offices serving under a specified number of participants
- Offices with under a specified number of employees
- Other types of offices (SPECIFY)
- None of these

[<< Back](#)

[Next >>](#)

Were any of the adaptations to SNAP program staffing in place directly [before the public health emergency](#) began in March 2020?

	Yes	No	There was variation in the use of this adaptation across counties within our State
Allowing staff to telework or work remotely	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
Offering flexible staff working hours	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>

This next question asks how you believe the transition to remote services affected participants' access to SNAP services.

We understand that some agencies only transitioned to remote services for a short period of time during the public health emergency. For this question, please think about this period of time where your agency was offering predominantly remote services.

Based on your impression, did the transition from predominately in-person to remote services improve, reduce, or have no effect on access to SNAP services for each of the following types of participants. Your best estimate is fine.

Please select here if your agency did not transition to remote services at all during the public health emergency

	Improved access	Had no effect on access	Reduced access	Our agency does not have enough information to provide an estimate	Changes in access varied by county for these participants
Most participants	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Section B. Operations

This section has questions about changes your State made to SNAP operations during COVID-19. As a reminder, the focus of this survey is on SNAP policies and operations. Although other programs, like Pandemic-EBT (P-EBT), have impacted SNAP the questions in this survey will not focus on P-EBT. You should answer all questions about what is generally done in your State.

When asking questions about your State's policies before, during and after the COVID-19 public health emergency, we will use time frames defined by the time period of the Federal public health emergency.

"Before the public health emergency" refers to the time period from March 2018 to March 2020.

"During the public health emergency" refers to the time period from March 2020 to May 2023.

We understand that SNAP operations may have changed multiple times within this period, but please consider if adaptations or changes were made, or situations occurred at any point during this period, even if they did not continue for the full public health emergency.

"After the public health emergency" refers to the time period beginning the first full month after the Federal public health emergency ended in May 2023.

[<< Back](#)

[Next >>](#)

Had your State made any of the following adaptations to SNAP operations [before the public health emergency](#)? The study team has pre-populated your answers based on information in the 2017 State Options report. Please review and make any necessary changes.

Please select 'yes' even if the adaptation was made temporarily, for certain cases, or in limited geographic areas.

	Yes	No	There was variation in the use of this adaptation across counties within our State
Extended certification periods	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Adjusted periodic reporting requirements	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Suspended face-to-face interviews when requested	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Suspended initial and/or recertification interviews	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Postponed expedited service interviews	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Allowed certain community partners or individuals to sign an application as an authorized representative of a household verbally	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Thank you for completing this section. If you have more information you would like to share about operational changes made to SNAP during the COVID-19 public health emergency in your State or Territory, please share it below.

[<< Back](#)

[Next >>](#)

Section C. Benefits issuance

This section has questions about changes your State may have made to benefits issuance during the public health emergency. As a reminder, the focus of this survey is on SNAP policies and operations. Although other programs, like Pandemic-EBT (P-EBT), have impacted SNAP the questions in this survey will not focus on P-EBT. You should answer all questions about what is generally done in your State.

When asking questions about your State's policies before, during and after the COVID-19 public health emergency, we will use timeframes defined by the time period of the Federal public health emergency.

“Before the public health emergency” refers to the time period from March 2018 to March 2020.

“During the public health emergency” refers to the time period from March 2020 to May 2023.

We understand that SNAP operations may have changed multiple times within this period, but please consider if adaptations or changes were made, or situations occurred at any point during this period, even if they did not continue for the full public health emergency.

“After the public health emergency” refers to the time period beginning the first full month after the Federal public health emergency ended in May 2023.

[<< Back](#)

[Next >>](#)

This next series of questions are about issuing *the Emergency Allotment benefit*.

The Emergency Allotment benefit was issued as part of the Families First Coronavirus Response Act (FFCRA; P.L. 116-127, enacted March 18, 2020). The Emergency Allotment benefit was the temporary SNAP benefit increase made during the public health emergency. This provision applies only when (1) a public health emergency under Section 319 of the Public Health Service Act has been declared and (2) a State emergency has been declared.

[<< Back](#)

[Next >>](#)

[During the public health emergency](#), how did your SNAP State agency issue the [Emergency Allotments](#)?

- This benefit was issued with the regular SNAP benefit each month
- This benefit was issued on a different day than the regular SNAP benefit each month
- The time when this benefit was issued varied depending on the month
- Other (SPECIFY)

[<< Back](#)

[Next >>](#)

Approximately how much advance notice did your State need to make changes to eligibility systems to initially issue [Emergency Allotments](#)?

- One day or less
- 2-7 days
- 8-14 days
- 15 days to one month
- More than one month

[<< Back](#)

[Next >>](#)

Did your State need to make changes to the eligibility system each month to issue [Emergency Allotments](#)?

Yes

No

[<< Back](#)

[Next >>](#)

Approximately how much advance notice did your State need to make changes to eligibility systems to issue [Emergency Allotments](#) every month?

- One day or less
- 2-7 days
- 8-14 days
- 15 days to one month
- More than one month

[<< Back](#)

[Next >>](#)

This next question is about issuing *the 15 percent increase to maximum monthly benefits*.

The FY2021 Consolidated Appropriations Act provided the authority and funding for a 15 percent increase to FY2021 maximum SNAP benefit amounts for January through June 2021. The American Rescue Plan Act (ARPA) of 2021 extended this increase through September 2021. This temporary increase was then made permanent when the Thrifty Food Plan was updated so that benefits were increased for FY2022 and future years.

[<< Back](#)

[Next >>](#)

[During the public health emergency](#), how did your SNAP State agency issue [the 15 percent increase to maximum monthly benefits](#)?

- This benefit was issued with the regular SNAP benefit each month
- This benefit was issued on a different day than the regular SNAP benefit each month
- The timing of when this benefit was issued varied depending on the month
- Other (SPECIFY)

[<< Back](#)

[Next >>](#)

If another disruption like the COVID-19 public health emergency were to happen in the future, would your SNAP State agency prefer to choose how to issue benefits like the [Emergency Allotments](#) and [the 15 percent increase to maximum monthly benefits](#) each month?

- Yes
- No

<< Back

Next >>

How would your SNAP State agency prefer to issue benefits like the [the 15 percent increase to maximum monthly benefits](#) if there were another disruption?

- Issue the benefit once a month with the regular SNAP benefit
- Issue the benefit once a month on a different day than the regular SNAP benefit
- Issue the benefit more than once a month
- Other (SPECIFY)

[<< Back](#)

[Next >>](#)

How would your SNAP State agency prefer to issue benefits like [the 15 percent increase to maximum monthly benefits](#) if there were another disruption?

- Issue the benefit once a month with the regular SNAP benefit
- Issue the benefit once a month on a different day than the regular SNAP benefit
- Other (SPECIFY)

[<< Back](#)

[Next >>](#)

The next questions are about how challenging it was for your State to process SNAP applications and issue benefits in a timely manner.

[<< Back](#)

[Next >>](#)

How strongly do you agree with the following statement? [During the public health emergency](#), processing SNAP applications within 30 days of the application being submitted was more difficult than it was before the public health emergency.

We are interested in your experience processing SNAP applications throughout the public health emergency. We understand that initially, there may have been immediate challenges, but please answer this question with the entire period of time from March 2020 to May 2023 in mind.

- Strongly disagree
- Disagree
- Neither agree nor disagree
- Agree
- Strongly agree
- There was variation in how difficult processing SNAP applications was in counties within our State

[<< Back](#)

[Next >>](#)

How strongly do you agree with the following statement? [During the public health emergency](#), issuing SNAP benefits to SNAP recipients on time was more difficult than it was before the public health emergency.

We are interested in your experience issuing SNAP benefits throughout the public health emergency. We understand that initially, there may have been immediate challenges, but please answer this question with the entire period of time from March 2020 to May 2023 in mind.

- Strongly disagree
- Disagree
- Neither agree nor disagree
- Agree
- Strongly agree
- There was variation in how difficult issuing benefits was in counties within our State

[<< Back](#)

[Next >>](#)

What were the top three challenges to issuing benefits in a timely manner for your SNAP State agency?

Select top three challenges

- Staff availability
- Technological challenges
- Office closures and reduced hours
- Mailing delays
- Timeliness of approvals
- Other (SPECIFY)

[<< Back](#)

[Next >>](#)

The next series of questions are related to the technological updates and challenges in delivery benefits to SNAP participants.

[<< Back](#)

[Next >>](#)

The American Rescue Plan Act (ARPA) of 2021, provided \$25 million to the USDA, with funds available through 2026 to make technological improvements. Has your SNAP State agency received any ARPA funding to make technological improvements related to delivering benefits to SNAP participants?

- Yes
- No

[<< Back](#)

[Next >>](#)

What types of technological improvements related to delivering benefits is your SNAP State agency making with these ARPA funds?

Select all that apply

- Expanding use of mobile wallets (for example, Apple Pay, Google Pay, Samsung Pay, and Android Pay)
- Facilitating technology upgrades for retailers (for example, expanding the use of mobile POS systems, like Square)
- Using mobile apps for SNAP benefit redemption
- Using mobile apps to apply for SNAP benefits
- Using Europay, MasterCard and Visa (EMV) CHIP cards (cards that are "dipped" rather than swiped at the register)
- Expanding the number of retailers who can accept SNAP online purchases
- Implementing multiple benefits on a single card
- Other (SPECIFY)

<< Back

Next >>

During the public health emergency, what other technological improvements did your State invest in to help deliver benefits to SNAP participants? Please do not include the technological improvements you made with funding through ARPA.

	No	Yes, change fully implemented before the public health emergency	Yes, change accelerated and/or expanded during the public health emergency	Yes, change newly implemented after the public health emergency
Expanding use of mobile wallets (for example, Apple Pay, Google Pay, Samsung Pay, and Android Pay)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

The next series of questions are about how the public health emergency impacted operational changes to your agency's case management strategies.

[<< Back](#)

[Next >>](#)

On average, [during the public health emergency](#), did the frequency of case managers' communication with SNAP participants increase, stay the same, or decrease?

- Increase
- Stay the same
- Decrease

[<< Back](#)

[Next >>](#)

[During the public health emergency](#), did your SNAP State agency make any of the following changes to its staffing model for determining eligibility and case management?

Select all that apply

- Transitioned to a first available worker model (as opposed to assigning a dedicated case manager)
- Transitioned to call centers having more responsibility
- Used a [case banking model](#)
- No change
- There was variation in how staffing models for determining eligibility and case management were used in counties within our State
- Other (SPECIFY)

[<< Back](#)

[Next >>](#)

[Before the public health emergency](#), what were the top three modes of communication case managers used to conduct case management with SNAP participants?

Select top three modes of communication

- In-person meetings in the case manager's office/in a SNAP center
- In-person meetings in the participant's home
- In-person meetings in a community location
- Calling a general call center line
- Calling a direct line of a worker
- Videoconferencing
- Text messages
- Online chat software
- Email
- Other (SPECIFY)

Do you have any training materials for frontline staff related to providing SNAP services during the public health emergency? These materials may include any documents related to training sessions.

These should be documents that are readily available for your State to share. If there are a lot of potential documents that could be sent, you may choose the most relevant ones or contact the helpdesk at [STUDYADDRESS]@mathematica-mpr.com for further guidance.

- These materials are available publicly on our website
- These materials are not on our website, but I can email them
- These materials are not on our website, but I can upload them to a secure site
- Yes, but I cannot provide these documents. Please explain
- No, we do not have any documents like this
- Don't know

OMB Control No: 0584-XXXX
Expiration date: XX/XX/20XX

Section E. Technology and data systems

This section has questions about changes your State may have made to technology and data systems during the public health emergency. As a reminder, the focus of this survey is on SNAP policies and operations. Although other programs, like Pandemic-EBT (P-EBT), have impacted SNAP the questions in this survey will not focus on P-EBT. You should answer all questions about what is generally done in your State.

When asking questions about your State's policies before, during and after the COVID-19 public health emergency, we will use timeframes defined by the time period of the Federal public health emergency.

“Before the public health emergency” refers to the time period from March 2018 to March 2020.

“During the public health emergency” refers to the time period from March 2020 to May 2023.

We understand that SNAP operations may have changed multiple times within this period, but please consider if adaptations or changes were made, or situations occurred at any point during this period, even if they did not continue for the full public health emergency.

“After the public health emergency” refers to the time period beginning the first full month after the Federal public health emergency ended in May 2023.

[Next >>](#)

Does your SNAP State agency currently use a legacy system for SNAP?

A legacy system is an outdated computing software or hardware that is still in use.

- Yes, we currently use a legacy system
- Yes, we are in the process of transitioning from a legacy system to a modernized system
- No, we use a modernized system

[<< Back](#)

[Next >>](#)

When did your SNAP State agency start the process of transitioning from a legacy system to a modernized system?

- Before March 2020
- After March 2020 but before May 2023
- After May 2023

[<< Back](#)

[Next >>](#)

Has your SNAP State agency considered adopting a modernized system?

- Yes
- No

[<< Back](#)

[Next >>](#)

What have been the challenges to adopting a modernized system?

Select all that apply

- Our staff do not have the time to make the transition
- Our State does not have enough Federal funding
- Our State does not have enough State funding
- Coordination across programs or agencies is too complicated
- Other (SPECIFY)

[<< Back](#)

[Next >>](#)

Does your State currently use an integrated eligibility system for SNAP?

An integrated eligibility system creates joint administration and management across human services programs.

- Yes, we use an integrated eligibility system
- Yes, we are in the process of transitioning to an integrated eligibility system
- No, we do not use an integrated eligibility system
- Other (SPECIFY)

<< Back

Next >>

When did your State start the process of transitioning to an [integrated eligibility system](#)?

- Before March 2020
- After March 2020 but before May 2023
- After May 2023

[<< Back](#)

[Next >>](#)

[Before the public health emergency](#), which programs were jointly processed with SNAP under the [integrated eligibility system](#)?

For Medicaid, if part of Medicaid was jointly processed with SNAP under the integrated eligibility system, then you should select it. For example, if MAGI Medicaid is in the integrated eligibility system and non-MAGI Medicaid is still in a legacy system, then select Medicaid.

Select all that apply

- Medicaid
- Temporary Assistance for Needy Families (TANF)
- The Special Supplemental Nutrition Program for Women, Infants, and Children (WIC)
- The Low Income Home Energy Assistance Program (LIHEAP)
- Refugee Medical and/or Cash Assistance
- Other (SPECIFY)
- None of the above

[<< Back](#)

[Next >>](#)

[During the public health emergency](#), which programs were jointly processed with SNAP under the [integrated eligibility system](#)?

For Medicaid, if part of Medicaid was jointly processed with SNAP under the integrated eligibility system, then you should select it. For example, if MAGI Medicaid is in the integrated eligibility system and non-MAGI Medicaid is still in a legacy system, then select Medicaid.

Select all that apply

Next >>

[During the public health emergency](#) many States had challenges with staffing because of the need to share staff with other programs. These next questions are about IT staffing during the public health emergency.

[<< Back](#)

[Next >>](#)

[During the public health emergency](#), did the SNAP IT staff support only your State's SNAP program? We are interested in knowing about the staff who do not support any other programs outside of SNAP.

IT staff includes staff who develop and manage computer-based information systems, including eligibility systems, frontline staff equipment, and data systems.

- Yes, all SNAP IT staff were dedicated only to SNAP
- No, only some SNAP IT staff were dedicated only to SNAP
- No, all of the SNAP IT staff worked for SNAP in addition to other programs

[<< Back](#)

[Next >>](#)

What other programs did the SNAP IT staff support?

Select all that apply

- Pandemic EBT (P-EBT)
- Medicaid
- Temporary Assistance for Needy Families (TANF)
- The Special Supplemental Nutrition Program for Women, Infants, and Children (WIC)
- The Low Income Home Energy Assistance Program (LIHEAP)
- Refugee Medical and/or Cash Assistance
- Other (SPECIFY)
- None of the above

[<< Back](#)

[Next >>](#)

[During the public health emergency](#), about what percentage of the SNAP IT department's time is spent on supporting SNAP versus other programs? Your best estimate is fine.

- 1-24%
- 25-49%
- 50%-74%
- 75-100%
