From:

License will be valid for seventy-five days from the date of application. This

date is automatically generated upon submission.

19. Date License Valid

Through:

Date License will expire. Date is automatically generated upon submission.

Product Information for E	Each Product*
HTS Number:	Harmonized Tariff Schedule (HTS) number that most closely describes the product to be imported. This should match the HTS used on the CF-7501.
Country of Melt & Pour:	Country where Steel was originally melted; Please spell out Country name (no abbreviations).
	Country of melt and pour refers to the original location where the raw steel is (1) first produced in a steel-making furnace in a liquid state and then (2) poured into its first solid shape. The first solid state can take the form of either a semi-finished product (slab, billets or ingots) or a finished steel mill product. The location of melt and pour is customarily identified on mill test certificates that are commonplace in steel production, generated at each stage of the production process, and maintained in the ordinary course of business. This reporting requirement will not apply to raw materials used in the steel manufacturing process (<i>i.e.</i> , steel scrap; iron ore; pig iron; reduced, processed, or pelletized iron ore; or raw alloys).
Product Description:	Description of the product taken from the HTS list.
Product Category:	Category assigned to the product based on the Product HTS. (autofill)
Volume (Kilograms):	The weight of the product in kilograms at time of entry (netweight).
Unit:	The unit of measurement must be listed in kilograms.
Customs Value (U.S.\$):	Entered value of this product in U.S. dollars; not invoiced value (It should not include duty, brokerage fees, or freight).
*Information is required for each	h product included in this license application.
Please remember to m supplied on the application	ark the box at the bottom of the application form to certify the information ation form.
