OMB Control No. 0910-0847 –
GENERIC CLEARANCE

Request for non-substantive, non-material change to an approved information collection:

Upon preparing for an individual collection request under the referenced generic clearance, we note an inadvertent calculation error in our previous submission. Specifically, in our submission memorandum of December 28, 2023, we requested 1,150 responses, but inadvertently input the figure 1,322,500. Our request was approved by OMB, but has resulted in a deficit to the number of approved responses, and we are seeking to correct the error. We have requested restoration of 1,321,350 responses, representing the amount entered less 1,150 to reflect approval of our previous request. We apologize for this error.

Submitted: November 2023
