INTRODUCTION

Thank you for taking the time to help us today. The session will take approximately an hour. I'll give you a little background on what we'll be doing today.

Westat is working with the Centers for Disease Control and Prevention. We are developing a national survey about health and injuries that asks questions about physical injuries, harassing behaviors, and unwanted sexual activity and today we would like to test the questionnaire with you (on this laptop/using the device you brought with you). The survey asks about different types of experiences that you may have had. We are particularly interested in whether the questions make sense to you, and we might ask you to talk about what happened during these experiences and how you decided on your answers to the survey questions based on those experiences. We would also like your feedback on the online survey to make sure it is easy to understand and navigate.

Some of the language in the survey is explicit, but it is important that we ask the questions this way so that you are clear about what we mean. The questions we ask are detailed and some people may find them uncomfortable.

Today, I am going to ask you to go through the whole questionnaire as a survey respondent. I am going to observe you as you do this and will take a few notes as you go through the survey. Every now and then, I will stop you and we'll talk about what you are seeing on the screen or how you decided on your answer to the question. If anything is confusing for you, or if you're not sure how to answer a question or are unsure what to do next, just tell me. There are no right or wrong answers. Our purpose is not to compile information about you. Instead, your

interview along with those of others will show us how to improve these questions for a later survey.

This is a research project and your participation is voluntary. You can skip any question and you can stop at any point. There are no known benefits for you to take part in this study, but your answers will help us improve the survey. There is a risk that some of the questions that we will ask you to talk about are about private and sensitive things that may bother you. If you become upset during the interview or want to stop the interview at any time, please let me know. I will provide you with a list of resources at the end of the interview that you can use to help you.

We would very much appreciate your permission to audio and video record this session. The recordings will be used for note-taking purposes only and may be used only by members of the project or the CDC staff. They will be destroyed as soon as we complete the questionnaire development process. You will receive \$40 cash as a token of our appreciation at the end of the interview.

All information obtained during this study will be treated as confidential, as required by law, and will only be used to develop and improve the questionnaire. We will not share your answers with anyone outside of the research team. The one exception is that if you express that you are a danger to yourself or to others. If that happens, in order to help protect your safety and the safety of others, we would report this to the appropriate healthcare or law enforcement agencies.

Your answers to the questions will not be linked with your name and we will not use your name in any reports. We may use quotes in our report that you provide during the interview, but never in a way that would identify you.

[IF OBSERVERS ARE PRESENT OR ON WEBEX] {Finally, some of the researchers developing the questions are observing our interview to learn if there are things that might need to be changed.}

INFORMED CONSENT

ASK PARTICIPANT TO REVIEW THE CONSENT FORM, ANSWER ANY QUESTIONS, AND OBTAIN CONSENT BEFORE CONTINUING. This form contains more information about the research and your rights in this interview. Please read it over and let me know if you have any questions. (ANSWER QUESTIONS) If you are willing to take part in the study, please mark the Yes boxes. I will sign both copies. One copy is for you, and I will hold onto the other.

POINT TO THE LAST PARAGRAPH WITH CONTACT INFORMATION: Also, if you have any questions about this research study, you can contact David Cantor, the Principal Investigator. His phone number is provided here. If you have questions about your rights and welfare as a research participant, you can call the Westat Human Subjects Protections office. Their phone number is also provided on this form.

[START AUDIO RECORDER AND BEGIN RECORDING ON WEBEX AND GET ORAL PERMISSION TO RECORD.] It is [DATE AND TIME], do I have your permission to record this conversation?
~~~~Thank you.

Do you have any questions before we get started? I am going to start with a few questions and then will hand over control of the computer to you and will watch as you answer the questions. Every now and then we will stop to talk about the questions and the web screens Also, sometimes I will interrupt you before you click the next button to ask some questions. There are no right or wrong answers, we're just interested in getting your feedback about the questions and how you came up with your answers.

## PART A. ISSUE LOG

Any time the respondent has issues with navigation or questions, record the question number and a few words about the problem on the Issue Log. Use the "Usability Probes" to determine what probes to ask about the issue.

## PART B: QUESTION-SPECIFIC PROBES

[Interviewers will ask concurrent probes on the items listed below.]

## Part E. Browser Clearing Process

The last thing I would like to do is to show you a document that we are considering having on the web survey in case respondents would like to clear this survey URL out of their browser history so that no one else with access to the device would know that they participated in this. (HAND INSTRUCTIONS TO RESPONDENT)

First, what do you think of this idea of providing these instructions?

[SHOW INSTRUCTIONS TO R AND ASK R TO FOLLOW THEM. IF R BROUGHT THEIR OWN DEVICE TO THE INTERVIEW, HAVE THEM FOLLOW THE INSTRUCTIONS TO CLEAR THEIR BROWSER ON THEIR DEVICE.]

What are your reactions to these instructions?

How easy or difficult were they to follow?

Do you have any ideas for how we could make them easier to follow?

How likely would you be to do this step if you filled out this survey at home?

## Closing and Incentive

Those are all the questions I have for you. Is there anything we haven't discussed that you would like to mention?

### **DISCUSS ANY RESPONDENT COMMENTS.**

### **STOP RECORDER.**

Before we finish, I just want to make sure you're doing ok. (REFER TO DISTRESS PROTOCOL IF NEEDED).

#### IN-PERSON

Here is some contact information for local and national organizations that you can call if you want to talk about any feelings or emotions you experience. (HAND RESOURCE LIST TO R)

#### REMOTE

I'd like to give you some contact information for local and national organizations that you can call if you want to talk about any feelings or emotions you experience. I can either read those numbers to you now, or I can put them in the mail with your incentive payment. Which would you prefer?

- 1) IF READ ALOUD: Let me know when you have a pen and paper ready and I will start reading them to you.
- 2) IF MAIL: Ok, we will include the list with your incentive payment.

You will receive a thank you letter and \$40 for your participation soon. Can you provide me with your mailing address? [READ BACK TO CONFIRM]

Thank you for your time.

### **GIVE INCENTIVE AND HAVE RESPONDENT SIGN RECEIPT.**
