Instructions:

Please answer each question below to the best of your ability. For assistance, please contact the data collection liaison.

During the year 1 (baseline) administration, you will submit data separately for five academic years (AYs)—the current/most recent AY and the four previous years. For the purpose of this data collection, an academic year includes fall and spring semesters.

Throughout the survey, you will be asked to report whether the information is based on tracked information or an estimate. Tracked information should be reported if it is being supplied from a comprehensive, campus-wide reporting system

Please note that all entries and descriptions of other should not use acronyms or any local terms; please be sure that you only select other when none of the available response options apply and that your descriptions of other be sufficient for someone who is not familiar with your program or community to interpret.
