File Information

Your organization must submit Debt Inquiry Payout files as .csv, .txt, .xls, and .xlsx files only. File names must start with 'FEIN.DI.'. The file names must only contain alphanumeric characters, with no special characters, such as parentheses, or spaces. If your organization submits multiple files on one day, each file name must be unique. A suggested approach is to append a date and a sequence number to the file name.

(Example: 123456789.DI.06092012.33.xlsx)

We will only process files if your organization has a profile and one registered user in the system.

File Encryption

If you choose file encryption, your organization must use OCSE's GPG public key to encrypt files destined for OCSE. The OCSE Portal network administrator will email the key to you. OCSE will need your organization's GPG or PGP public key if files destined for your organization require encryption.

IP Address Information

The federal Office of Child Support Enforcement (OCSE) requires a public Internet Protocol (IP) address from external partners to allow secure access to the Child Support Portal. OCSE independently verifies the IP address and organization name with the American Registry for Internet Numbers (ARIN), a regional internet registry for the United States. For more information, visit the [ARIN website](#).

Enter the public IP addresses your organization uses to access the internet. In most cases, the IP address is your company's internet proxy server or the public IP address of the computer used to access OCSE's Child Support Portal. To locate your public IP address, search on the internet for "[What Is My Public IP Address](#)." You must verify the addresses with your network administrator.
