**Agreement to Exchange Electronic
National Medical Support Notices**

By completing and providing the information included in the Electronic National Medical Support Notice (e-NMSN) Employer Profile Form, the employer or third-party provider agrees that:

The employer, company, or government agency shall have appropriate procedures in place to promptly report confirmed and suspected information security or privacy incidents, including, but not limited to, unauthorized use or disclosure of Personally Identifiable Information (PII) involving confidential child support information submitted through OCSE to your organization. As soon as reasonably practicable after discovery, but in no case later than one hour after discovery of the incident, the employer, company, or government agency shall report confirmed or suspected incidents to OCSE as specified in this paragraph. The requirement for the employer, company, or government agency to report confirmed or suspected incidents involving PII to OCSE is based on federal guidance/requirements from the Office of Management and Budget (OMB), Health and Human Services (HHS), the Federal Information Security Modernization Act of 2014 (FISMA), and the United States Computer Emergency Readiness Team (US-CERT).

Incidents must be reported via email to OCSE using the security mailbox address:
ocsesecurity@acf.hhs.gov.

The organization will electronically receive and respond to NMSNs issued by states, tribes, or territories in the same manner as mailed notices within the required timeframes. Response timeframes and other instructions are available at <https://www.acf.hhs.gov/css/form/national-medical-support-notice-forms-instructions>.

The organization will not impersonate any individual, entity, or association; use false headers; or otherwise conceal or provide misleading information about their identity while receiving NMSNs electronically.

The organization's representative completing this form is authorized to act on behalf of the employer and agrees to provide true, correct, current, and complete information about the entity identified in the profile form.

The organization will consider the electronic version of the NMSN admissible as evidence in the same way as paper documents.

The organization will provide written notice to the federal Office of Child Support Enforcement at least 30 days before it intends to stop accepting e-NMSNs.

A third-party provider certifies that it has authorization to participate in e-NMSN on behalf of their clients and will provide company names, FEINs, and related information to OCSE for the purpose of processing e-NMSNs.

Instructions

To complete this form and to respond to NMSNs using PDF forms, you must use Adobe Acrobat Reader version 10 or later. To download this free software, go to <https://acrobat.adobe.com/us/en/acrobat/pdf-reader.html>.

You must complete the required fields followed by a red asterisk * and email it to the [e-NMSN team \(eNMSNmail@acf.hhs.gov\)](mailto:eNMSNmail@acf.hhs.gov). If there are errors, a popup box will appear with information about correcting the error.

Employers:

- Register as an employer with this form.
- If applicable, use the [e-NMSN FEINs Spreadsheet](#) to identify each subsidiary for which you will receive e-NMSNs at the server location entered on this form.
- Provide Part-A responses on the Pick-Up server.
- Provide Part-B responses, when applicable, on the Pick-Up server.
- If you are using an external plan administrator, forward Part-B to the external plan administrator.
- If the NMSN is for an employee whose health insurance is through a union or labor organization, forward Part-B to the union or labor organization. If you are receiving e-NMSN orders and using a third-party responder to send responses back to states, it is your responsibility to forward the orders and encourage the third-party responder to register with the e-NMSN system.

Third-Party Providers (Processing e-NMSNs on Behalf of Clients):

- If you will receive and respond to orders, register as a third-party provider using this form.
- If you will only respond to orders, do not continue to use this version of the Profile form. Instead, use the Plan Administrator Profile form and register as **Third Party: Responder Only**. Use the e-NMSN FEINs Spreadsheet to identify each employer and, if applicable, their subsidiaries for whom you will process e-NMSNs.
- Provide Part-A responses on the Pick-Up server.
- Provide Part-B responses, when applicable, on the Pick-Up server.
- If the NMSN is for an employee whose health insurance is through a union or labor organization, forward Part- B to the union or labor organization. Professional employer organizations that want to receive e-NMSNs on behalf of employers must complete the profile form as a third-party provider and use the e-NMSN FEINs spreadsheet to list the FEINs for the employer(s) and any subsidiaries.

Note: Third-party providers, professional employer organizations, plan administrators, or unions that want to receive e-NMSNs for their own employees must register as an employer.

File Information

Review the default selections below and make updates as needed, based on the best option for your organization.

General File Information

Enter information about the file exchange.

Encrypt files: *

Yes	No
-----	----

Select **Yes** if you want OCSE to encrypt all files delivered to your server. OCSE uses GPG for encryption. If you select **Yes**, you must provide your company's PGP or GPG encryption key in a separate email when sending this profile.

Are your files stored behind your organization firewall?

Yes	No
-----	----

This field is required only if you selected **No** for the **Encrypt** files option.

If you are an employer or third-party provider, you are responsible for completing Part-A for OCSE to pick up and forwarding Part-B to your organization's plan administrator or a union, if it is acting as a plan administrator.

Are you receiving e-NMSNs and forwarding both Part-A and-Part B to a third-party responder for processing and responding?

Yes	No
-----	----

If you select **Yes**, we encourage you to have the third-party responder create a profile to use the e-NMSN system. Until the third-party responder is participating in e-NMSN, it is the employer's responsibility to forward the NMSN orders to the third-party responder and receive them back to place on the employer's Pick-Up server for OCSE.

If you selected **No**, who will return Part-B of the e-NMSN response?

Employer or Third-party Provider Plan Administrator and/or Union

If you selected **Plan Administrator and/or Union**, complete the e-NMSN FEINs spreadsheet, including the Plan Administrators tab, and return it with this form.

Note: If you are an employer or third-party provider and are using an external plan administrator to respond to Part-B of the NMSN, encourage them to participate in e-NMSN.

-----------------------------------	--------------------------------

Programming and No Programming Option information is listed next.

No Programming File Information

- You will receive the NMSN and Parts A and B in PDF format.
- You will receive a daily “Processing Summary” of the files picked up from your server, dropped off to your server, or returned to correct errors.
- The OCSE standard naming conventions (on page 8) must be used for the file names.
- Note: Adobe Reader is the only PDF software compatible with e-NMSN.
- Skip to page 8 for Server Information.

Information for the following section is required if the **Programming** option selected on page 6.

Select e-NMSM file format:

Do you want a copy of the NMSN in PDF file format?

Yes	No
-----	----

When you select a programming option above, you can also choose to receive individual NMSN PDFs.

Error File

The file submitter will receive an error file for the following conditions:

- If there are problems with file header, file trailer, or other file-level structures, the entire file will be returned.
- If errors are in the batch header or batch trailer, the entire batch will be returned with all response records.
- If there are response record errors, the records with errors are returned in the file with their batch header and trailers. Multiple batches can be returned in the file.
- You will receive a daily “Processing Summary” of the files picked up from your server, dropped off to your server, or returned to correct errors.

File Naming Convention

Files can be named using OCSE's standard file naming convention or the organization's file naming convention. The naming convention for PDF files is standard for this process:

1. In the Standard/Organization-Supplied File Naming Convention column, select whether you want to use your organization's file naming convention or OCSE's standard file naming convention.
2. In the File Naming Convention column, take the following steps:
 - If you are using your organization's file naming convention, enter the file naming convention. For example, for the file with notices (Incoming State Notice Files), you can enter enmsn.mybiz.notices.txt. This is the name of the file you will receive that includes your notices.
 - If you are using OCSE's standard file naming convention, an example file name is in the table below. For more information about file naming conventions and formats, refer to the e-NMSN Software Interface Specifications.

File Type	Standard/Organization-Supplied File Naming Convention	File Naming Convention

Server Information (Required for Both Options)

This information is required for the No Programming and Programming (System-to-System) file information.

- Separate directory/folder names for file Pick-Up and file Drop-Off (must be different from those used for e-IWO). This information is required for the production environment and optional for the test environment.
- Server ID (may be the same as those used for e-IWO).
- Server passwords.
- IP address.
- Host name is optional.

The only methods offered for transferring e-NMSN data is for our servers to initiate the sending and retrieving of files using SFTP or FTPS. We can only use FTPS with a partner's server that has our Certificate Authority (CA) installed, which dedicates that server to exchanging files with our server using only FTPS.
