A. OCSS INSURANCE MATCH STANDARD INPUT FILE RECORD

The IM SIF is a standard, fixed-format layout used for sending insurance claim data to us. This section explains the SIF record layout, including field definitions and required fields. Although all of the data elements are helpful to state child support agencies, most of the elements are not required. If the information is not available, you must fill the fields with spaces.

Chart A-1 includes the following information:

Field Name Identifies the name of the field.

Location Identifies the position of the field in the record.

Length Identifies the size of the field in bytes.

A/N Designates the type of field: alphabetic (A), numeric (N), or alphanumeric (A/N).

Comments Provides a description of the field, as well as valid values.
