

received by the Technology Transfer and Intellectual Property Office, National Institute of Allergy and Infectious Diseases (NIAID) on or before May 13, 2022 will be considered.

ADDRESSES: Requests for copies of the patent applications, inquiries, and comments relating to the contemplated exclusive patent license should be directed to: Amy Petrik, Technology Transfer and Patent Specialist, Technology Transfer and Intellectual Property Office, National Institute of Allergy and Infectious Diseases, 5601 Fishers Lane, Suite 6D, MSC9804, Rockville, MD 20852-9804, phone number 240-627-3721, or amy.petrik@nih.gov.

SUPPLEMENTARY INFORMATION: The following and all continuing patents/patent applications thereof are the intellectual property to be licensed under the prospective agreement to the University of Washington: United States Provisional Patent Application Number 62/986,295, filed March 6, 2020, entitled “Engineered Influenza Neuraminidase Antigens” (HHS Reference No. E-052-2021-0-US-01) and Patent Cooperation Treaty (PCT) Patent Application Number PCT/US2021/020804, filed March 4, 2021, entitled “Engineered Influenza Neuraminidase Antigens” (HHS Reference No. E-052-2021-0-PCT-02).

The patent rights in these inventions have been assigned to the University of Washington and Government of the United States of America as represented by the Secretary, Department of Health & Human Services.

The prospective patent license will be for the purpose of consolidating the patent rights to the University of Washington, the co-owners of said rights, for commercial development and marketing.

Consolidation of these co-owned rights is intended to expedite development of the invention, consistent with the goals of the Bay-Dole Act codified as 35 U.S.C. 200-212.

The prospective inter-institutional agreement may include an exclusive license for NIAID’s rights in these jointly owned patent applications. It will be sublicensable, and any sublicenses granted by the University of Washington will be subject to the provisions of 37 CFR part 401 and 404.

In the subject technology, researchers at NIAID and the University of Washington engineered the neuraminidase glycoprotein from the influenza virus to improve its properties as an antigen. The patent applications claim the mutations that the researchers introduced to stabilize the

neuraminidase protein in its closed conformation and use of the engineered protein in an influenza vaccine.

This notice is made in accordance with 35 U.S.C. 209 and 37 CFR part 404. The prospective exclusive license will include a share of the royalties from the licensing of this invention back to the NIAID, and may be granted unless within fifteen (15) days from the date of this published notice, NIAID receives written evidence and argument that establishes that the grant of the license would not be consistent with the requirements of 35 U.S.C. 209 and 37 CFR part 404.

In response to this Notice, the public may file comments or objections. Comments and objections, other than those in the form of a license application, will not be treated confidentially, and may be made publicly available.

Complete license applications submitted in response to this Notice will be presumed to contain business confidential information and any release of information in these license applications will be made only as required and upon a request under *the Freedom of Information Act*, 5 U.S.C. 552.

Dated: April 25, 2022.

Surekha Vathyam,

Deputy Director, Technology Transfer and Intellectual Property Office, National Institute of Allergy and Infectious Diseases.

BILLING CODE 4140-01-P

DEPARTMENT OF HOMELAND SECURITY

U.S. Immigration and Customs Enforcement

[OMB Control Number 1653-0037]

Agency Information Collection Activities; Revision of a Currently Approved Collection: Notice to Student or Exchange Visitor

AGENCY: U.S. Immigration and Customs Enforcement, Department of Homeland Security.

ACTION: 60-Day notice.

SUMMARY: The Department of Homeland Security (DHS), U.S. Immigration and Customs Enforcement (ICE) invites the general public and other Federal agencies to comment on this proposed revision of a currently approved collection of information. In accordance with the Paperwork Reduction Act (PRA) of 1995, this information collection notice is published in the

Federal Register to obtain comments regarding the nature of the information collection, the categories of respondents, the estimated burden (*i.e.*, the time, effort, and resources used by the respondents to respond), the estimated cost to the respondent, and the actual information collection instruments.

DATES: Comments are encouraged and will be accepted until June 27, 2022.

ADDRESSES: All submissions received must include the OMB Control Number 1653-0037 in the body of the correspondence, the agency name and Docket ID ICEB-2009-0004. All comments received will be posted without change to <https://www.regulations.gov>, including any personal information provided.

(1) *Online.* Submit comments via the Federal eRulemaking Portal website at <https://www.regulations.gov> under e-Docket ID number ICEB-2009-0004.

FOR FURTHER INFORMATION CONTACT: If you have questions related to this collection, call or email Sharon Snyder, Unit Chief, Policy and Response Unit, Student and Exchange Visitor Program email: sevp@ice.dhs.gov, telephone: 703-603-3400. This is not a toll-free number. Program information can be found at <https://www.ice.gov/sevis/>.

SUPPLEMENTARY INFORMATION:

Comment

Written comments and suggestions from the public and affected agencies concerning the proposed collection of information should address one or more of the following four points:

(1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

Overview of This Information Collection

(1) *Type of Information Collection:* Extension of a Currently Approved Collection.

(2) *Title of the Form/Collection:* Notice to Student or Exchange Visitor.

(3) *Agency form number, if any, and the applicable component of the Department of Homeland Security sponsoring the collection:* I-515A; U.S. Immigration and Customs Enforcement.

(4) Affected public who will be asked or required to respond, as well as a brief abstract: Primary: Individuals or Households. When an academic student (F-1), vocational student (M-1), exchange visitor (J-1), or dependent (F-2, M-2 or J-2) is admitted to the United States as a nonimmigrant alien under section 101(a)(15) of the Immigration and Nationality Act (Act), he or she is required to have certain documentation. If the student or exchange visitor or dependent is missing documentation, he or she is provided with the Form I-515A, Notice to Student or Exchange Visitor. The Form I-515A provides a list of the documentation the student or exchange visitor or dependent will need to provide to the Department of Homeland Security (DHS), Student and Exchange Visitor Program (SEVP) office within 30 days of admission.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* 1,459 responses at 25 minutes (.416 hours) per response.

(6) *An estimate of the total public burden (in hours) associated with the collection:* 608 annual burden hours.

Dated: April 18, 2022.

Scott Elmore,

PRA Clearance Officer.

BILLING CODE 9111-28-P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[Docket No. FWS-R4-ES-2022-0048; FXES1113040000-223-FF04EF4000]

Receipt of Incidental Take Permit Application and Proposed Habitat Conservation Plan for the Sand Skink and Blue-Tailed Mole Skink; Polk County, FL; Categorical Exclusion

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for comments and information.

SUMMARY: We, the Fish and Wildlife Service (Service), announce receipt of

an application from the Polk County Board of Commissioners (applicant) for an incidental take permit (ITP) under the Endangered Species Act. The applicant requests the ITP to take the federally listed sand skink and blue-tailed mole skink incidental to the construction and operation of a fire rescue station in Polk County, Florida. We request public comment on the application, which includes the applicant's proposed habitat conservation plan (HCP), and on the Service's preliminary determination that this HCP qualifies as "low effect," categorically excluded under the National Environmental Policy Act. To make this determination, we used our environmental action statement and low-effect screening form, both of which are also available for public review.

DATES: We must receive your written comments on or before May 31, 2022.

ADDRESSES: *Obtaining Documents:* You may obtain copies of the documents online in Docket No. FWS-R4-ES-2022-0048; at <https://www.regulations.gov>.

Submitting Comments: If you wish to submit comments on any of the documents, you may do so in writing by one of the following methods:

- *Online:* <https://www.regulations.gov>. Follow the instructions for submitting comments on Docket No. FWS-R4-ES-2022-0048.

- *U.S. mail:* Public Comments Processing, Attn: Docket No. FWS-R4-ES-2022-0048; U.S. Fish and Wildlife Service, MS: PRB/3W, 5275 Leesburg Pike, Falls Church, VA 22041-3803.

FOR FURTHER INFORMATION CONTACT:

Alfredo Begazo, by U.S. mail (see **ADDRESSES**), or via phone at 772-469-4234. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: We, the Fish and Wildlife Service (Service), announce receipt of an application from the Polk County Board of Commissioners (applicant) for an incidental take permit (ITP) under the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*). The applicant requests the ITP to take the federally listed sand skink (*Neoseps reynoldsi*) and blue-tailed mole-skink (*Eumeces egregius lividus*) (skinks) incidental to the construction and operation of a fire rescue station in Polk

County, Florida. We request public comment on the application, which includes the applicant's HCP, and on the Service's preliminary determination that this HCP qualifies as "low effect," categorically excluded under the National Environmental Policy Act (NEPA; 42 U.S.C. 4321 *et seq.*). To make this determination, we used our environmental action statement and low-effect screening form, both of which are also available for public review.

Project

The applicant requests a 5-year ITP to take skinks via the conversion of approximately 2.67 acres (ac) of occupied nesting, foraging, and sheltering skink habitat incidental to the construction and operation of a fire rescue station on a 5-ac parcel in Section 21, Township 28 South, Range 28 East, Polk County, Florida. The applicant proposes to mitigate for take of the skinks by purchasing credits equivalent to 5.34 ac of skink-occupied habitat from a Service-approved conservation bank. The Service would require the applicant to purchase the credits prior to engaging in any phase of the project.

Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, be aware that your entire comment, including your personal identifying information, may be made available to the public. While you may request that we withhold your personal identifying information, we cannot guarantee that we will be able to do so.

Our Preliminary Determination

The Service has made a preliminary determination that the applicant's project—including the construction of a building, driveway, parking space, green areas, storm water pond, and associated infrastructure (*e.g.*, electric, water, and sewer lines)—would individually and cumulatively have a minor or negligible effect on the skinks and the environment. Therefore, we have preliminarily concluded that the ITP for this project would qualify for categorical exclusion and that the HCP is low effect under our NEPA regulations at 43 CFR 46.205 and 46.210. A low-effect HCP is one that would result in (1) minor or negligible effects on federally listed, proposed, and candidate species and their habitats; (2) minor or negligible effects on other environmental values or resources; and (3) impacts that, when considered together with the impacts of other past, present, and reasonable foreseeable similarly situated projects,
