**Early Childhood Longitudinal Study  
Special Education Teacher Survey (Child Level)  
Spring 2024 – Form SPBSK**

Dear Special Education Teacher or Related Service Provider,

Your school has agreed to participate in the **Early Childhood Longitudinal Study, Kindergarten Class of 2023-24 (ECLS-K:2024)**, a nationwide study of elementary-aged children, their schools, teachers, and parents. As part of the study, we are asking teachers and other service providers at your school to complete surveys. You have been asked to complete them because one or more of the children you serve are participants in this study. The teacher survey contains questions about you and your practices. There are also brief surveys for each of the sampled children that you teach or serve. These surveys contain questions about the children’s skills, abilities, and special education and related services.

The ECLS-K:2024 collects information from the special education teachers or related service providers of sampled children who have Individualized Education Programs (IEPs). We are gathering information from these children’s general education classroom teachers as well, if they have one. Our purpose is to investigate the relationship between the children’s academic progress and various school, classroom, teacher, and home characteristics.

Taking part in the study is voluntary. You may stop at any time or choose not to answer a question you do not want to answer. However, only you can provide this information. Although we realize you are very busy, we urge you to complete this survey as completely and accurately as possible. You may find at least some of the information we are asking for in the child’s IEP.

**THANK YOU VERY MUCH FOR YOUR HELP.**
