Paperwork Reduction Act Statement for NRC Respondents

APPROVED BY OMB NO. 3150-0006

Estimated burden per response to comply with this mandatory collection request: 20 minutes. This information is used to ensure that doses to individual do not exceed regulatory limits. This information is required to record/annually report individual occupational exposure to radiation to ensure that the exposure does not exceed regulatory limits. Send comments regarding burden estimate to the Information Services Branch (T6 A10M), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, or by e-mail to Infocollects.Resource@nrc.gov (<mailto:Infocollects.Resource@nrc.gov>), and to the Desk Officer, Office of Information and Regulatory Affairs, NEOB-10202, (3150-0006), Office of Management and Budget, Washington, DC 20503. If a means used to impose an information collection does not display a currently valid OMB control number, the NRC may not conduct or sponsor, and a person is not required to respond to, the information collection.

Privacy Act Statement for DOE Respondents

OMB Control No. 1910-0300

Expires 3/31/2023

The Department of Energy (DOE) will use the information collected through this system/database for the purpose of monitoring and recording levels of radiation exposure to individuals working or visiting DOE facilities. This is a database of occupational radiation exposure for all monitored DOE employees, contractors, subcontractors and members of the public. The Rule 10 CFR 835 702 (a) and (b) requires Annual Individual Radiation Exposure Records to be recorded therefore this requirement is mandatory. The DOE Order 231.1B, Environment, Safety and Health Reporting, requires the data to be reported into the Radiation Exposure Monitoring System Repository. DOE contractor personnel and other individuals' radiation exposure records, social security numbers, and other records, in connection with registries of uranium, transuranic, or other elements encountered in the nuclear industry are maintained as described in the Department of Energy System of Records, DOE-35, "Personnel Radiation Exposure Records".
